RATES OF POSTAGE.

LETTERS TO ANY PART OF THE UNITED STATES, Three cents for each half ounce or part thereof.
 DROP LETTERS, Two cents. ADVERTISED LETTERS, One cent, in addition to the regular rates.
 VALUABLE LETTERS may be registered on application at the office of mailing, and the payment of a registration fee not exceeding Twenty cents.
 TRANSIENT NEWSPAPERS, Periodicals, Pamphlets, Blanks, Proof Sheets, Book Manuscripts, and all mailable printed matter, (except circulars and books,) Two cents for each and every four ounces. Double these rates are charged for Books.
 UNSEALED CIRCULARS, (to one address,) not exceeding three in number, Two cents, and in the same proportion for a greater number.
 SEEDS, CUTTINGS, ROOTS, &c., Five cents for each four ounces or less quantity.
 ALL PACKAGES of Mail Matter not charged with letter postage must be so arranged that the same can be conveniently examined by Postmasters; if not, letter postage will be charged.
 NO PACKAGE will be forwarded by mail which weighs over four pounds.
 ALL POSTAGE MATTER, for delivery within the United States, must be PREPAID by stamps (except duly certified letters of soldiers and sailors); otherwise, double the above rates will be charged on delivery.
 WEEKLY NEWSPAPERS, (one copy only,) sent to actual Subscribers within the county where printed and published, Free.
 LETTERS TO CANADA and other British North American Provinces, when not over 3,000 miles, Ten cents for each half ounce. When over 3,000 miles, Fifteen cents. Prepayment optional.
 LETTERS TO GREAT BRITAIN OR IRELAND, Twenty-Four cents. Prepayment optional.
 LETTERS TO FRANCE, Fifteen cents for each quarter of an ounce. Prepayment optional.
 LETTERS TO OTHER FOREIGN COUNTRIES vary in rate according to the route by which they are sent, and the proper information can be obtained of any Postmaster in the United States.

FRIDAY, JANUARY 1, 1864.

This being New Years day I did not go to the Office
the day is one of the coldest I ever felt the thermometer
I understand at Medday from 10 to 15 degrees below
zero the wind blew West and blowing a gale we
can scarcely keep the house warm I have done
nothing all day but save wood and build on
Fires went althor time to the Mechanics Institute
but did nothing we came home after and I
up a good legal our of a North British
Review that I borrowed from Spring from
it appears the man will soon be back up as
if is full from side to side with ice the Ferry
boats are afraid to come out ale but the
River is stopped the cold seems to be increasing
this coming I should not think there would be
many river cars taken today I did not go near
the Hall today but just stayed in the house this
day has come melancholy reflections in connection with
our family thus being the anniversary of the death
of our beloved son James

SATURDAY 2

2 This morning the frost was more than half
an inch but it was 18° below zero last night
spent the Hall this morning and found it a horrible
situation both rooms in a most filthy state and I
left a note on the door and went home taking my
private books along with and doing the copying
in a good part of the day and saving wood
the rest the frost was most intense heard of badly
several hours then heard frost better and badly
I moved to a good while in the afternoon to
get ready for Sabbath I went up to see the Hall in
the afternoon and such another mess as it
was in no many ways save the snow was
very near closed this afternoon I think it will
be closed again morning I read a good deal to
day in the North British Review heard to day that
a colored man had passed in the cold yesterday near
the Pettico Road and that ball held an Agust
on him

MONDAY, JANUARY 4, 1864.

Sped by the storm slightly abating and it
was still so snowy as it had been the two
days previous although it was considerably less
before than any day of the snow fall day and
yesterday to day the storm has very much
moderated the weather so you find this
morning quite agreeably fair we soon and
went across the river on the ice and
crossed the shores of the North C. I walked
and rode in the ice to before the Institute
about one hour classes a in the room
all we could come by and found
lost away behind us the majority were
in fair. I did not ship before we up in
the town some more or less I am afraid
a well not at the people Clinton and they
appeared to be the favorite candidate in the town
and will doubtless get in

TUESDAY 5

I stayed at home as much as I could
today and tried to do my work minutes but I
had less out occasionally the day was pretty
cold and wind went the blisters into socks
on last across in the air supply at the
they headed down today best he could see
up to them right in a sufficiency to open
balance him by far as the vote had now come
in at 10 AM First Ward Gould Clinton strong
Second Ward Blodgetfield Negan & Kennedy
Third Ward less supports guaranteed and Paine
Langris Mayor & Macdonell by 84 majority
so ends the election from old Richards and Paine
only voted about 10 votes apiece so they
are done for as far as this being his concern Lee
tried over a meeting of the Institute to night and
they all went to serenade General S MacGrath
at his election

WEDNESDAY 6

Gruddly when this morning than rested by
the air holes in the snow rushing like a geyser
I went to the ball today and made out
my accounts, against the town but was
engaged with a son of a creature who
had been sent to you from New York and
I went into the same book but very thoroughly
this afternoon and made out a book left
in the 100 hundred dollars appropriation, we
met in the room in the evening and had a
long discussion on several works that were wanted
in the library but not having a quorum
of the several committee we could not decide
on the matter so we left the room and
went home after a long discussion
the Recknits appear to have provided at
Sandwich in the town election and Lee Pratt
led the poll in Sandwich east to the disruption
of Lawrence because
of 800 30 passengers a day

THURSDAY, JANUARY 7, 1864.

Very frosty cold and frosty the sea on the
River St. John & made out all my warrants
& day against the John Ayd, and for them
are added and signed. I suspended the settlement
to be in the afternoon and found that our
Authorities Friends only required about one
fifth of the population and also the large in amount
which I did the preparation to the Queen of
the two Boards, on account of Mr. Carr
so willing to have all equivalent on common
School matters, and to day the celebrated Correspondent
of Cobden and Delaney the Adam Times Editor on Politics
matter such as Communism which he accused Cobden
of having uttered at a meeting at Rockdale where he was
addressing his constituents Cobden is a shrewd fellow
and it was Diamond but Diamond for both are very
clever

FRIDAY 8

To day I sat up late Monday and all day my receipts
put me into the books so that I am now ready for any
business that may occur in the Clerkship ~~which~~
then total into an estimate on School matters and I
found that we could effect a saving of about \$350
In the evening the Board met in Library room of
the Museum Institute we had a long discussion
on the question and finally adopted a resolution
to unite with the Union on School day as no
news of much importance to day we will
likely have a heavy frost to night early they
ketched that very cold this morning I got
scarcely up the house early & got some very good
wood sawed up to day and gave ~~up~~ shelter for it, the
night was very cold.

SATURDAY 9

A Saturday was very cold and the thermometer below zero
~~free~~ news of any importance, I did not stay long at
the Hall the ~~afternoon~~ day in the afternoon I came home and
copied my minutes and went out and did some
shopping in the evening and at the Globe, where I saw
that they had arrested in Toronto Greenwood at Forte
of Arson that is of burning the house where his mistress and
one child was living dead he left leaves all he has, the
and now as he evidently was the murderer of his mistress
and child there is evidently some desperation on the part
of the French and Irish party to have a control in
the school business, no other news of much importance
no news came and told me what he had done at the school
arrangements at Sandgate

Bought a load of wood for snow ball \$2.

MONDAY, JANUARY 11, 1864.

Yesterday I was very unwell and did not go out any where I was very anxious I had a good deal in the Marquette Walter on Sunday and other works and on clouds today on Sunday taking went across the river this morning and bought a cold from \$3.35 American money when I got home I found that an absurd number had got together that no small pot was in the next room so the protestant grammar school. So I sent Dr Culbert examining the premises and I published his certificate in the Record we had the election of officers of the Purchasing Institute to night first in Marquette yesterday and about the same officers as before we had a good business meeting and transacted a good deal of business

Bought some boards for fence \$2.

TUESDAY 12

To day I was busy getting up some work for the business of the Catholic James Hale came up from Colgate to day anxious to get the school as an assistant to Mr. McLean he brought my good references and I suppose he is a very good teacher there has been considerable change among the two wings of the catholic party to day all sort of traits have been laid out & the Rush being that if they don't take the Christians nothing they will decide we had a trial today of Bush a darky for throwing boiling water on his wife and burning her much less committal to the greater lessons in trial his wife or woman is badly burnt Mrs. Hayes made an information to day against a stoddard in Steely a tramp from the local police the same met this evening and finally settled the persons business. Bought 2 loads of wood in catholic school \$3.88

WEDNESDAY 13

Weather still fine crossing on the ice road above the bridge by the dozen lemons but evidently there is going to be a change as the wind which has been in the west for the last fortnight to day has turned to the south and blowing north. The school trustees were all elected to day Donald Clegg in the first ward Patrick Conway in the second and 1st Langlais for the third I had some difficulty in getting Drayton and Scott to agree a rental for the great apartment. We half a century of the houses in the ground and joined the two boards together after which I asked Drayton to see what was wanted changing and my husband all of a sudden the absent committee of supervision were appointed and the Board of Directors however without a shot from Scott who told the leather trustees that he would not submit to their getting the appointment of a catholic grammar school trustee as they never send a child to school therefore they have no honorable right to any voice in the matter. The Board agreed and on this evening it was a great noise but at last the public board Robert Thompson to day \$1.50

THURSDAY, JANUARY 14, 1864.

To day I was busy recording my Minutes of the last day
having the day has been unusually fine and cool and
the weather evidently preparing for a change. Walking on
the ice still good sleighs going on it we thought
the man on the last boat by having case to get
which I thought was a great hard ship. Still Boston
apparently had got a previous beating from Washington
Fleury and some other man he says he was robbed of \$150
from banks, he had information to that effect, cannot find
out who was robbed of \$500 alone and \$75 in bills last
night no one to the thief can be obtained it is a good
sign for somebody snatched himself is away on his wedding
tour by leaving myself a post card away a few days
ago I procured a ticket to day from G W R for a passenger
to men at the commandation of Col Langlois I paid \$15.75
Mexican funds and two dollars Canadian funds equal
to \$13.50 Mexican funds I had some trouble with the station
of Staten Island

FRIDAY 15

To day I was busy in the morning making out all the warrants
on the file then we had a trial of Washington Fleury and
John George for assaulting and robbing Jesse Brown. The trial
was adjourned until to morrow for want of evidence
in the afternoon he handed me By Laws a letter and made
out some summons I had an audience with the Mayor and
a Cormier Miffling to be Mrs Ward from St Louis collected
the Mayor \$100 for some money to St Louis to be sent
to be a woman of great debility after a long stay I came away
with the Mayor and wrote a letter for him to the party who
had the money. When he took the letter back again he found that
she wanted to borrow \$13. in fact she was a regular harridan
and he was sold. In the evening lot had a long consultation
of the Board of School Trustee on the gradation of the ~~Board~~
Schools while in the room we felt a smile of burning fire but could
not tell what it was. The Board adjourned until tomorrow morning
at 10 o'clock for a warrant on the passenger ticket to day \$12.50

SATURDAY 16

Bast night half after eleven o'clock we had the matter very well
brushed about the fire burning two carriages stood in the third
stop floor was all in fire and very badly burned we looked
like heroes and got it out without doing much damage to
the goods the fire caught from a gentlman store who had very
carelessly got his ashes into a pine box, and that was the
sole cause of the fire. The whole case was the best manager
I ever saw in my life perhaps from \$500 to \$1000 well say
all the loss, of books we had the trial of Washington Fleury
in Robbery he was committed but subsequently got bail
nothing further done at Police Court to day. The weather fine and
windy a fine time for wood haulers and draggers
I worked at my mounds this afternoon after I made our
the warrant against Fleury \$80 a pair of new Pantaloons
from Sherry to day that is got the making only from him the
clothes ordered from Carron, nothing new or any importance

MONDAY, JANUARY 18, 1864.

Yesterday was a fine day I said my ps to church at
at all went to Sabbath School. Had a very interesting
talk of Ruth Morison, of such life to day the weather
was very severe I was busy all the forenoon on
getting ready for the council at noon they all appeared
and took with the exception of Clestra and Lem Langris
Bloomfield was elected Revd Cull Brown the Deputy Armonia
and Charles L. Morris was elected Auditor, strange that
they turned out Blackader. The afternoon was very
stormy and a little snow commenced falling and they
in the afternoon Mr MacBrule together with the commissioners
from London came in and a colonel was asked
to go forthwith to tender the sum due for the use of one
hundred soldiers that had been ordered to London from London
what the reason is I am unable to say the colonel gave it
to them as we must be clear out we started the last night
around for Town Hall on Saturday night 83. 92 ^{today}
Paid for wood to Town Hall 82.50 men Williams Father and Son ^{London}

TUESDAY 19

The weather still very stormy and cold we have all
been busy today preparing the chain our of the boat
and all our other traps as the soldiers are expected
to morrow I send George to help me I made a contract
with Battie to fit and repair and paint the whole of
the chains for \$40.00 Royal wanted \$75 but I would
not give it to him I showed Mr MacBrule 8 boxes
of chains and took the rest to Battie Williamson
paid out to day for \$75 and for the contract for \$6.50
for him and for the boat Williamson has done very
well indeed I intended to suffice to copy my
assessment note in Bloomfield as I understood by
he has the casting vote in case of a tie for board
he seemed very anxious for me I should not get it done so
promised me yesterday to support me in the Clerks Office
whether he will or not it is hard to say I have no friends
to speak from them no news to night they all start in
the snow early east

WEDNESDAY 20

To day still pretty cold but not so cold as yesterday
I had to see that all the place was properly washed
out for the reception of the old swags what a lot of
old hen bags they will be I was very busy going minute
of my time copying my assessment note I usually
do for them that the council were postponed in
giving the date to the old swags we are going to be at
a great loss without it in every way no lectures
no amusements in fact no nothing as long as
they are in the Town Hall all our businesses
institute arrangements are hindered in the head
for the winter I promised the commissioners to day
that I would see their like the bills were paid and
make out a note to him no news of any important
gold rising now 1815 from time being irregular on
the road etc

THURSDAY, JANUARY 21, 1864.

To day was a fine mild day I was busy copying all day at my desk no news of much importance till Sarah Moore from Amherstburg to day she took dinner at our place, and gave us a general idea of news from Amherstburg who the folks were getting on the old stocks of dollars around to day by mixed traps a pretty hard looking lot many of them have evidently seen service having medals on me the board placed them up to the date \$802 a letter from Mr. Bell to day about James Cuse, had some difficult work around Cobourg the school today he is certainly a very foolish man he talks of going into print to break up our war improvements if he does he will get over it State Govt of Buchanan Mrs Buchanan and a daughter came in to night and sat and chatted awhile then James left and early the evening very well drawn piano

FRIDAY 22

I was still busy copying to day all day no news of any important this day was very quiet heard to day that our role was not the largest role in the County that Sandwich Capt was Captain of the Prince and Oberonites are drawn on the Warships so far will be the upshot is so hard to tell I do think the South is in a desperate condition when the mate is the want of provisions for the Army and men to fight they are evidently at the last gasps the London General appears to have a herd well John it is surprising the count of arrests here to day all his night but the attorney general says he is strong enough notwithstanding I nearly \$12 through the ~~for~~ ~~and~~ ~~and~~ to night copying a clear moonlight night & night

SATURDAY 23

This morning clear and a slight frost but towards noon it became quite hot and uncomfortable underneath although I was busy as long as I could at my assessment role we sent an amanuensis to get to day for being drunk in the streets in the afternoon went across the river and bought a minute book in the Bond & School Masters at Richmond and Barkas store I paid for the book \$4.80 American money and fifteen cents duty I bought a Latin book from Raymond for \$1. the river to day was getting clear of ice as far as the Islands above and down to the Welland River on the river but all the ice was very loose and evidently fast melting away before the having influence of a thorough thaw long afternoon of a complete break up No news of any importance from the state everything indicates the fact that I think we are soon to see the end of the war, no lobes this evening the trains from the east are to run an extremely irregular

Bought two boxes of wood for colored glass \$4.35

Paid Byrne per Mayor's order \$3. American money

MONDAY, JANUARY 25, 1864.

Today still cold and thawing. Yesterday it shewed the whole day and rended the walking very slopy. Afternoon I went & hear the first in the evening we held the Sabbath School in the Soumire School room in the afternoon and in the evening teaching of my class. I was presented with a handsome pocket Bible the first I ever fit in my life, but in a day disappeared from the room in front of the door. I heard that Captain Watson had been suspended from his functions as Master of the Union what with the upholster it is hard today to say I expected my colleague and gave it to him & take down with him tomorrow I made him take the Declaration of Rose and Brown that of Deputy Rose and gave them their certificates. I also took my own affidavit before Clerk of the Peace on the lessor part. We tried three things to day one we sent to Gaol the other two one was fined and the other suspended it was Susan wife that was fined I paid \$2 for the Society I cleared the Sheriff \$2.00 in American money to day given the sum due at Toronto wanted of March on Saturday

TUESDAY 26

This morning the sun shone very bright and the roads getting very bad we tried Repairs, tried to day and sent in to Gaol for thirty days for breaking and entering into the house. She is an awful wicked creature and nothing like her. She is very strong & day one for County Clerk the last Governor General corners our Clerk of the Peace & dropt and the Return of Marriages to the Register from Mr. Bent's Register. The County council met to day and settled single without opposition as their Warden reluctantly agreed that nothing could not do anything or in world have tried it. Her Royal Highness the Princess of Wales was safely delivered of a son on the 8th January instant all doing well save to day that she had been examined on a plan of St. Richards Hospital I heard a couple Preach to night in the Methodist church he preached for a very long time Peter van Nahn \$3. in reward of goods & Lowndale in damages

WEDNESDAY 27

Still cold and a beautiful sunny morning the sun shone the whole day without a cloud on the sky in fact the day has been more like a summer day than a spring day than any thing I ever saw the lesson of the day like held the trial of William Coffey an absconder from Boston. In express it and was fined three dollars and the costs which he paid at once and was done with it in the afternoon so speedily in some minutes into my book was Bent's name in for the afternoon & was very much astonished to find that they had appointed him before as a summer school master in the place of his brother John and also tutor in law of Dr. Dawson Bowring Esq. who I promise will that tomorrow morning understand there will be a sort of Constitutional battle on Capt. Watson who had the Union what will be the result is hard to say I read the annual Review of the Toronto Tribune to day it was very ably written and a great many suggestions in it which is very usual especially with regard to the various branches of business.

THURSDAY, JANUARY 28, 1864.

Today the day beautiful and clear not a cloud in the sky
and as full as a summer day, the most extraordinary
weather I ever saw, not having any police business at
the office today I went to Sandwith and drew the grammar
school money for the town of Wmson \$200. I paid Mr Shul
\$98 for land returned two dollars for myself as my partner's
in debtiness to me paid \$100 to me for work as he had
of it and so despond of it all, I said that Matthew Geng
had \$1200 bill put out of the superintendents office for Rochester
and so despond of his connection with the Board of public
Instruction I mentioned the matter to General At Sandwith and
a person will be brought over on him to have it removed. He did
not wish to go back and back again to day. The ~~Superintendent~~ and
General folks had a shooting match to day (the Detroit folks beat
the five birds the General and his opponent was a tie the
first day's polling 825 each. The town council election for the third ward was
held at night and by a majority the Farmer and Minster won. They polled only eleven
men marked to the area.

FRIDAY 29

This morning there was quite a change the wind in the east and blowing quite cold there was not much news of any importance but the defeat of the Solvita special by a Majority of 75 shabbly brought about the retirement of John A. McDonald and Harry Lee. The water in the upper yard closed the afternoon for bicyclists by the shelter of Sabo's by a majority of one that is 8 for Macartney and 9 for Bunting Lee issued summons today to two colored men for breaking Mason's windows in soaping the chimney of Farlin. No cameras either was held this afternoon I attended it and brought \$794 of a dress caught the local of expressably high, enormous prizes were paid though the full value of the goods although they had been avoided heavy damages I got a little cheater in what I bought. I wrote out a petition to the County Council this evening asking them to reappoint Mr. Bell as Civil Superintendent. I got Mr. Dougall Mr. West Jr. Brown and Mr. McDonald to sign it. Paul Robert Thompson today \$6. for scrubbing out the hole in the troughs

SATURDAY 30

Today gave a change in the weather it commenced to rain last night and rained at intervals during the night and was quite damp this morning we had two old creatures up for drunkenness which we sent to gaol I think the former was sent to jail recently they were from Glasgow the two men did not appear their wife demanded in the trial of Masonic Initiatives so a warrant was issued for the one that did not and did not appear the County Council did not re-estimate Mr Bell in spite of fees the County Council adjourned for this time this forenoon not much of any business done the globe thinks the Ministry are seriously damaged with the loss of the Bolton General what may be the upshot it is hard to say there seems to be a general move among the amurans to break off the Responsibility Party which I think will be done I settled the extra insurance on the Loan state today by paying £4.50 for the next two months

MONDAY, FEBRUARY 1, 1864.

Yesterday I was miserably unwell with a sick headache
so that I was unfit for anything. I went to Sabbath
School and that was all to day I did. And last evening
the other part of the day the day was now spent.
I was much better to day. we had two cases of drunkenness
before the police court. One was sent to jail the other
~~and~~ and his fine I was busy in preparing on the
muster of the county. The Division Court to day
in the Dawson House where we hold our session
again. They demand to be afford many less before
the court. In the evening the council met and appointed
all the officers and also appointed assessors. I and
appointed Mr. Andrew Clegg Commissioner for taking
the census of London within four and half weeks with
Mrs. Park to night who is very ill indeed. She seems
to be so ill that it is doubtful whether she will
ever recover. Her nerves seem to be quite unstrung. I am to help the
Baby

TUESDAY 2

This morning State held its first of any note &
it along admirably with the baby left till just
after dark during the night Mrs. Ruth is very little
better Mrs. Richardson is also very ill with erysipelas
and so is Mrs. Thayer Lurah Mother is doing very
strangly but so many people are sick we have been
sober thankful that we have enjoyed such good health
ourselves we had two cases afar to day one was
sent to East and the other was who could not go on the payment
of most of the damages to old men now follows our
country the ~~old~~ Commissioner who paid me my account
as well as Mr. Thompson for his work failed entirely
with respect to clean out our Party at the
battle for them that is the military route a Bruce
to higher it took some like ground whether it will come
or not is another question there is a spark of war
in Europe what will come of it is hard to say it is very
like Helen has gone and she explained he was drawing but as today

WEDNESDAY 3

This Morning the weather appeared as we were going there
some snow weather the frost was much more severe
than it has been for a day or two we had a trial this
afternoon of a man for being drunk and disorderly and he
paid his fine in American money say \$7 or 8 I visited
several charities this afternoon with Mr Strong in the first
ward and Mr Kennedy in the second ward I had to pay
out some money I think six dollars for the poor and gave
some rags in wood. I paid William Stevens in his
book for soldiers to day. There is now news of Northampton
the baby is very troublesome at being located, when is very
tired of him and tried with sitting up too Mrs Lusk was
very ill today and Mrs Richards is sick. The doctors have
very little hope of Mr. Willm went and sat up with her to help
her out with a party at Shippy's to night I stayed at home and
had an idea better or his letter from New York to Montreal. He also
had an excellent article in the American Congress wherein Lord
Bathurst measurable follows that he was applied to great advantage
as a diplomatist. Saw that the Revenue is going to be equal to the expenditure
for all well done for Boston but a little beyond salary day

MONDAY, FEBRUARY 8, 1864.

Every day I work and have to go up with my twopenny
I don't hear him often I like him better for he was in
the Resurrection. The day was fine but a strong wind
from the West so much so that it threw me up against
the stone in the Colura and I turned my front over slightly
The fire soon rekindled and his children had the
circumstances which we wanted me afford deal the
rest of the day when went down the road to the day
to Mrs. Richard she signs writing on greatly Mrs. Lark
is slowly recovering To day I have been busy writing
his minute of the School Minutes and reading them
in the meeting this evening Mr. Mac Donell went up to
an arrangement about a Lenten Day We had
a meeting of the Board this evening and it ended
in passing a bill the power of the Trust Board and
I was ordered to forward a copy of the By Laws and Minutes
to the Chief Superintendent

TUESDAY 9

To day I was busy all day in preparing the documents
for the Chief Superintendent as ordered by the Board last
night, the day has been fine although a little cold
A man was fined today two dollars and cost for being
drunk and disorderly up about the Dauphin House
I received a cheque for \$12 to day from Mr. Sandy
of the commissionership a amount to be signed we
had a very full meeting to talk about the
Purchase Institute letter and the soldiers & the Reading
room Mr. Hurst was in the chair and Mr.
Gibson opposed the affair with all his might as the
Deputy of the other members of the Institute from Dougall
St. too, I myself the letter to the Superintendent
and also a private letter of my own explanatory of
our difficulties and what we have to contend with
in our difficulties with our friends

WEDNESDAY 10

This morning the frost was very severe and
the snow was covered with floating ice, it is the coldest
night of the year since the first of January cold
straps we had a hand at the house
like to day we sent two money to Mr. Bailey
or Edwards was one and Sarah Campbell a white woman
the other they were the most thoroughly abandoned
victims I can find yesterday was as Wednesday
no school yesterday in the afternoon we commenced an
inquest on the body of Mr. Ready a brakeman on the & O.R.R.
who was killed about 5½ miles west of Windsor, by commission
of the Brain and having his arm and thigh broken he was about
30 years of age he performed the Inquest until to noon
at 4 o'clock P.M. I find this living an excellent work
from sale on Canada very much to the soul and giving
us great credit for many substantial fine buildings and houses
made a little to her assistance yesterday at Shattock
Mrs. Richards is improving slightly

THURSDAY, FEBRUARY 11, 1864.

Stole off early with the appearance of a change, I copied my minute and the minute book of the School and after the letter I sent to the Secretary we passed our session on John Reilly at 4 o'clock the verdict was accidental death. The volunteers turned out this afternoon I made out two informations and summons one against the people at the meeting of Devils another a notice at the instance of his wife for assault. William Russell came up this afternoon very badly with a carbuncle on the back of his neck it had been very painful he seems to have packed up again wonderfully. Bella went down to Mrs. Richards again this evening to sit up & read an excellent article on the uses of lantern slides as being only a sort of microscope for exhibiting small animals.

FRIDAY 12

To day a fine morning left Weston down by the stage I was rather disappointed at not receiving a reply from the chief Superintendent to day. I went across the river in the afternoon and bought a pair of shoes at \$1.00 of Amherst money Mr. W. Donald, is busy engaged in getting up a library in the Town. I think it is a grand thing and I hope it will succeed Helen was up till last night as ever with Mrs. Richards. She does not appear to be beating much heavier yet. Mrs. Lusk is much better & with a vote to her Bill to day his son James came up to day from Colchester & appears that my short communication to the Read on the affair settled the atmosphere of Colchester just late I think another of those splendid letters of also on the Amherst in the midst of the topic we found a fellow by the name of Northrop \$5 in beating his wife

SATURDAY 13

A beautiful day today very much like Saturday we had a great deal today between a Doctor named Drs. and one Throde and a neighbor set them down I little in business matters worth the Mather's Institute today I paid in \$75- today in excess of the money now to be ready for the return on Monday night. I also buy \$100 of the Department in town in the Mechanics Institute Books to the with the list of Boston when has been at Mrs. Richards today all day. In the afternoon took an information of Partridge against Munsie that stabbed Ruthen in obstructing and assaulting him in the discharge of his duty as a constable. No warrant issued a ~~Warrant~~ for his apprehension but I understand he has left. Across the river we also issued a warrant for the apprehension of some boys for beating a poor little slave. Bob did not go home today he is going tomorrow morning

MONDAY, FEBRUARY 15, 1864.

Yesterday was a fine day we got up as the usual time and I went across the river and heard Prince of the Westminster Church at the back of the church the motto is "The Lord Our Righteousness". He is a fair preacher and frequently a pious will meaning sermon had to day has been a fine day we had to a number of plain uses to day among the darkness in police books for the chief Superintendent left to day which was just a fortnight of the old one to myself at the command of the Board, in the afternoon I wrote some By Laws in the evening we had a meeting of the council when a variety of topics was discussed and very little business done and the Board a journey until next Sunday when they will be deaf Westo the trustees and others the business will be finally known and completed

TUESDAY 16

This morning the day arose with a tremendous wind
and frost with occasional sharp showers of sleet.
I rarely ever saw such a sudden change unless it was
the first of January this year. The wind was excessive
and like to freeze a persons nose. It was the least
exposed but I kept in doors the most of the day and
kept in a good fire both at home and in my office
I read in the news this afternoon in a meeting of the Board
of School Trustees, which did not take place on account
of the extreme frost we had. That is the snow and sleet
down to the river who was on his way to Parliament
this evening by train he seemed in good spirits but
willing to bubble on his arrival in the afternoon again
in town after a boy to go to do in Steely a little
and back from one neighbor a man was found two
dollars & Roberts in my trunk when went to sit
up with Mrs Richards to night.

WEDNESDAY 17

This morning has been excessively cold even as cold as the first of January & all I happened there is very little of any importance to day but a splendid speech of Mr. Hayes in the Spanish legislature, he is a splendid speaker and the session will prove a noble one to his laurels if he don't pluck them from his brow at noon the wind still blows very cold when we come home to day very cold and cold to the toothpick. I have not been well to day & could not eat any breakfast towards night I got better and we left in ~~without~~ doors all the evening the volunteers have suspected ~~the~~ night by colonel Grant and Major Moffat. But the evening was so intensely cold that I could not go and see ^{the} law or rather read the globe this evening on the Panama ^{new} commerce a rare pure & interesting & words, I also read ~~the~~ ^{new} papers the young of the leaflets papers a rare treat of literary gossip, I think it just as interesting as any pure of writing I have read for a long time I have not finished it yet.

THURSDAY, FEBRUARY 18, 1864.

It is very cold and frosty the thermometer at 5 or 6
blows cold and the snow blotted up this afternoon so that
we shall be invited to Uncle Sam's domain once more by
bands of ice. I bought "Good Word" and also "Chambering"
Journal & also read incombe the "In Memoriam of Charles
Dickens" by Hartley and also of Anthony Trollope on the
same characters and a very fine account of the funeral, especially
as to the characters attending the funeral. I also read the
"Gow of Pyroin" was quite an excellent story. The Globe
had another instalment of the corruption of Parliament especially
with the Baby contracts showing an awful state of abuses.
I saw a post article in the Grand Jury Court Martials in
the Temple bar. In the evening John Cleas sitting quietly in the
Apse a man came forth a letter from Mr. Mackenzie
saying that James Brush had run away with his
wife a young creature of 18 years of age and had taken
\$313. Alexander Murray with him

FRIDAY 19

To day it is still very cold although the frost is not so
severe as it was yesterday. I left out the recognizance
of the case of Partridge versus Murphy. And made out
an information in the afternoon in an attempt on
a Wednesday in fact they ran was between Weddell a
friend of Simeon. We had the trial of Young Munn for
Assaulting Partridge. The case was a trumped up case from
the beginning in the afternoon I read the story in the Evening
and saw that the government will recommend a Bankrupt Law
and several other measures respecting these trials. Very cool
but up with Mrs. Richards this morning and I take care
of the Baby. The snow was like today and consequently
no school. The evening was very windy and blowing from the
South. I passed the evening of the 18th on the Telegraph paper
& highly and very interesting. Such a passing of a fellow in
Michigan named Costello in another's name. The sun
made a large opening in the clouds to day.

SATURDAY 20

To day the weather is much moderated, and the wind still
from the South and much moderate snow by the papers
that four had commenced between Denmark and Prussia and
Austria with varying success. I read to day Bright's Lecture
published on the London Review of Education. The Doctor informed me that
the snow had got to the depth of two inches. Mrs. Richards is still improving
and getting better. He is very tired
Kirkland has opened yesterday and the Globe contained
the Governor's speech which on the whole was a very good one
various numbers were afloat in regard as to the future
the government were divided some saying one thing and
some another, what the result will be time will tell
I read the census return costs as prepared by
the Finance Commission. What a disgraceful arrangement
it is. The world to the corruption of those below
the idea of it existing more in Town Canada than in
Upper Canada is really too bad. The country does several
votes in the State. This afternoon from all appearances
Monday will be a full day in the Police Courts

MONDAY, FEBRUARY 22, 1864.

Yesterday I did not go to church I did not feel very well ~~but~~ in the afternoon the day was fine getting off and the weather seems again to become more like spring. No news from either home or abroad. Mrs. Amy and Miss Charlotte Brown and other matter in good words. No news of much importance today a slight shower last night I telegraphed to Miss Williams to go to town and take a short ride in consequence of her sickness. Open ~~to~~ Mr. Brown and his family she replied that my sister would come or other news of much importance the Doctor does not speak very confidently of the recovery. The Council met this evening and despatched of the license business that is to say of the sum that shall be paid for license and the number of licenses to be issued - there is evidently considerable feeling in the matter.

TUESDAY 23

To day we had no Police business in a wonder the day is very fine and the temperature very mild. No other news of much importance in the morning except the arrival of the books and letters we expect news from the election going on appear to be very good and will doubtless give considerable attraction here to day thus the Bohemian and the American steamer I was told what gross carelessness there must be somewhere in the management of that contract line, the news from India is not very encouraging I went down to the cars to wait for Miss Williams but she did not come by the five o'clock train there is no other news of much importance the weather is mild and favorable yet quite dry and the roads pretty good I did not feel very well though.

WEDNESDAY 24

This morning I felt very unwell and a very sick headache. The house of parliament met this morning and sat till Mr. Shylock and a black man the flaunting flag British Hotel and Moyne the Baker or rather what was the British Baker I then went home and fell and lay in my bed the most of the day towards afternoon I got better and went out and saw Miss Williams in town and who is getting better and came down town and found the council in session open a proposition from the government please they down town it was agreed to the military authorities for £260 per annum to be left the sum as soon as they took it in the evening and the Doctor with nothing but very business with Col. Sandfield we have certainly been very injudicious and remiss.

THURSDAY, FEBRUARY 25, 1864.

To day the weather opened beautiful and the sun shone a few day it had rained a little during the night but not enough to do any harm I was much better this morning than I have been for some days but still some dysentery still that is a good deal of便利ness we had a long trial to day on the side of the Army Drynes who had been trying to kidnap a fellow from the side of the Army but was conceivable ignorant and failing among the colored folks about it it appears that the Northern hall shot at the proslavery It was by the time there was crossing on the ice the proslavery was removed until to now in the afternoon belongs to colored Burns colored troops In the afternoon I saw the religious census from Wm. who thus applied \$1000 Protestants to 935 catholics a precious difference truly in the evening we have ~~had~~ a school meeting but could not get a quorum than the ~~other~~ went away and the Catholics all leave in fact so we could not sit with them it came on with a snow storm this afternoon

FRIDAY 26

To day there was a small amount of snow on the ground but it was all gone before noon in the forenoon we had one case of ~~diseasiness~~ and he was found \$3 in the vest which he said he was a bandit from Bermuda our kidnapping case was disposed off by committing the man for trial to the lessers. The news did not much stir until evening when about 8 o'clock a few broke our window in Alfred Bailey's room and consumed two books we had a great difficulty in preventing it from spreading but succeeded in getting it down we had a great difficulty in getting what had broken I saw two down from the settle and took them down then there seems a rolling of the globe over no end to communication and information which is going on in parapet the opposite appear to take a green copy of doing things all quiet and fine out at the blank

8

SATURDAY 27

To day the weather was damp and at intervals throughout the day there was a occasional shower of sleet and rain I was busy the most of the day in making our program at the theater lessons uses, the snow came down to day in the library he is very active then and delicate looking one of three men Ruff of darkness came in in the afternoon and lodged information against another one for collecting evidently a fit up sake I saw by the globe ~~to~~ night that the chief Justice of Lower Canada Sir Louis Lafontaine had dug a fat bath for some one left open some suppose that Drivon will take it others that some of the present judges will be raised however takes it has his \$1300 - \$6000 in his hand other no news from the way the north appears at present to have the best of it but how long it is hard to say I received a package of Passports to night the evening threatening frost wind round to the west

MONDAY, FEBRUARY 29, 1864.

Yesterday was pretty cold wind west I went to the Westminster Church, Victoria Hall, where Mr. Richards took care of him and let the young one to church. James and his son George were alone with me. Mr. Prince preached an excellent sermon. I read all the afternoon at Mrs. Stowe's library. Many memories in foreign lands and it was generally well pleased with her observations. So dry hard and dry wind from the west we were engaged all afternoon in the interesting case of John Cash versus Thomas Brown a mean scoundrel evidently a pug up on the part of Sam Pat and the darky. I made out four bonds for licenses and paid the rents of four of them, thus £200 came into the Treasury this day. In the evening we had a meeting of the council very little was done by Mrs. Marshall was authorized to petition the Governor for a grant of £500 for a drill shade. Bloomsfield was passing as usual in arms while down to the whole time.

TUESDAY, MARCH 1

To day the wind still west and dry, cold I am afraid the weather is a good deal harsh but we cannot tell yet. I was busy to day in making out bonds in the tavern license and also writing up my account on the cases for the Quaker sessions. There is a very great amount of work to be done about these embargoes etc. I secured two passports here by the way that the draft will shortly be issued on in all the states when the frost is over complete. We recd books this evening from the library for the first time. I took Lord Cockburn's Memorial of his time. I saw by the globe today that Custer had spoke in our last hours the globe says it was the greatest lot of baldness that ever was spoken. I had a good deal in Cockburn's memoirs some very good telling anecdotes in it. It is based on the gathering of that day they seem to have been useless followed. Helen has a very sore front tooth she is troubled with it a good deal.

WEDNESDAY 2

To day the sun has shone brilliantly all day but the wind is still in the north and made it pretty cold. I have been busy all day to day making nearly the papers in the session & above taken two messages and made out two bonds besides. A speech was given in the hall today when a man was rooted out of the schoolroom and a general strike ensued. The day has been fine throughout, in the evening I had a very interesting account or rather of measures England and Hawthorne's old home. The thing was done well. I also had a very good paper in the Westminster on Parliament which he had written himself. That there is scarcely a leader able to lead the people after Palmerston. Mrs. Gladstone great credit but believe that he is too impetuous to lead a side of commons does not think there is one left able to lead on either side the Conservatives are just as bad off as the others. Helen had a very severe toothache to day and had a tooth pulled by Miller who had a good tooth pulled.

THURSDAY, MARCH 3, 1864.

To day we had a regular field day in the Police board, the Grays were brought up and found two in Retiring up a road among the ditches and one on Tuesday up a road among the lots in the Hall Alley they were all quiet. All going there fine but Mr. Colvin made a point immediately the Committee of Council on Petty Licenses sat to day and they had a long conference on Petty matters Mr. Macdonell seemed to grant them all they require but Douglas stuck to them against the Mayor and did not want to give them the whole control of the Street by building a gate across the same. I called four friends today & went across the river in the afternoon and got my address books and papers to do me in the night two hours at least I am of that opinion in the evening I had the globe saw that last and Mr. Douglas had had a talk and the address was passed without amendment the day was sum total

FRIDAY 4

To the morning opened mild and soft and cool a fine day all day I was busy all day with my conversations and I made out by Patchins lecture we are evidently bring the Patriots up to the scratch the soldiers approached a man a day for entering and giving another man to desert what will be the upshot of the affair I do not know the trial is postponed until tomorrow as we require two Magistrates to sit on the case so I got three of a good deal of business we had no case on to day but Holton had laid the public accounts on the table last night and our deficit for May is written or something less than a million I paid some very good tribute of charges in back bills ~~for~~ off to Mayoral of his bonds some of them just rate it amounts to \$19.50 to return him my hand to night in payment this afternoon

SATURDAY 5

Quite a change this morning we had a slight raining of snow on the ground and it freezing I work hard at my conversations this morning until the trial of the man for stealing the colors to desert. The lesson was less difficult. Mr. Macdonell was the magistrate along with Mr. Richards the man was sent to prison to day I judge the sentence forty hard or greater quite a little longer and a number of soldiers and others were present. I saw that the address was presented yesterday after which a good deal of work was done by the ~~to~~ house by way of appointing small committee and other matters it has kept us all day and been very keen the word from the west to inform me to day that he was going to Montreal on Wednesday night to New York we must try and get a meeting of the Board

MONDAY, MARCH 7, 1864.

Yesterday I did not go to church any where neither did John. I had some very interesting papers for the Canadian Monitor and also for the National Republican. I like to read those kind of papers especially in tranquillity. I passed the whole day very pleasantly so day I took an information in the case of a Soldier against one Henry a clerk at Coulthurs Hotel the rest of the day I was very busy with my papers I made out a full list of conventions and the papers I wanted therewith we had 38 convention and ten criminal cases last ~~last~~ month it is an abominable shame to have me doing all the work in that amount of labor but I must just see content & suppose until I try them in the ensuing of it the other soldier had a monthly meeting of the Society to night but they did not come, and so we had no meeting at all.

TUESDAY 8

To day I was busy with Sam Parks account and made the bill out and the amount to \$146 altogether this from below from Wylerton came down and was paid altogether \$654 he was so nervous that he did not know what to do, I felt sorry for him we were busy till the afternoon with account I made out my corners fees and handed it into Mr. Baby Amozetly to \$8. Donald Mac Kay and ~~George~~ Robert Mac Kay went away to night to Edinburgh and British Columbia while went across the river to day about half the time to get an addition to what he has we had a meeting of the Board of School Trustees tonight and every thing went on very well, the Captain is all they wanted. We then had a church meeting and we had for \$360 to 400 dollars subscribed so much we were not able to get up a church shortly they all turned in their eastern road \$1.64

WEDNESDAY 9

I did not do a great deal to day I mainly fixed up sodough with his account and also Sam Parks account. Sam was not well they had blistered his neck and he was not able to do his work as a witness the great question to day was the law of ~~stating~~ against sellers for \$200 as the price of a horse & a Clark was the principle witness in the case from what I could learn the case was simply this sellers bought a good horse as a sort of family horse this may witness of legitimate law he had one and the horse was lost on but the horse from what sellers thought was not quite equal to the one recommended and could not take him and Clark as the agent of sellers sold the horse at \$100. So they sued sellers for \$200 more being the price agreed upon as that one to be paid for the horse if sellers took his sellers bind Mr. G. Murray of Toronto and he upset poor Albert Prince and the consequence was John said the suit another year creating this ^{and I think and I think and I think} was that the Montreal lawyers said that John Ashby Payne had been approached in Montreal for passing Bogus money got a signature from John Lehman that no documents

THURSDAY, MARCH 10, 1864.

To day I was not so well & lay and could do no
any writing we set a young fellow Perry to jail to
day for God months for beating his mother a very righteous
sentence I think I want to say death to notify a
mistake in my account or rather record the verdict in
the accounts at directed by the department of Audit
why I went there the home fighting over a case of
treasurers attorney Manders and a case about a farm
than has been more tumultuous at the Quarter
sessions than any that I have had a memorandum
of for a long time. I did not do much today but
frame home and intended to get up as well as
I could and towards night was much better
Parliamentary news is very unimportant in fact
nothing to send at all. Morrison had a child died
yesterday of 11 months old. Aylen is not very well
I sent down James of the morning this morning Gold \$1.64
Hannah & Ruth and Miss Curtis wedding today Gold \$1.64

FRIDAY 11

This morning a heavy rain fell the South & Allen
State sickly and a heavy cold, the Quarter Sessions
over, a fearful amount of criminals, the Judge
had made an elaborate speech to the jury
of the county, we sent two men to lead today to
Court break and make an examination against
Park Hanahan. In consequence a man in Town
Johnson's Saloon, I interrupted to speak for more
present, and invited them to sit me down with
my custom a good deal of rain has fallen yesterday
the day time that they were going very little in
the house of parliament & gave a dollar to
Mr. Morrison to give Mr. Robertson a testimonial
who is going to British Columbia, and leaving the
form of marriage and Robertson. No news of
any importance from the state

SATURDAY 12

To day it was a little cooler than yesterday and
west, very little frost the Quarter Sessions was pushed
to day I had the Judge Chipp and was on the whole
very well pleased with it but I think he would
not be very to thank the Secretary until no
doubt he thinks he is right but why find fault with
a society that has done so much good. We issued a warrant
on Park Hanahan to day he having failed to appear
on the summons. A bigger villain hardly exists than Park
Hanahan in the afternoon I was busy with my
school accounts we found that there finished today
Mr. McLean is busy with the Report of the news of
much importance to day the Government news to the same
along very well I have the Public Works Report
but it is evidently very good the cartoon in French
to day is very good Mrs. Ballance is telling little John
to lay down the pen as he has got him into a pretty mess

MONDAY, MARCH 14, 1864.

I did not go to church yesterday but stayed at home and had very slowly all day. Started over the life of the Poor Old Man Bill and also in Robert Peel and also a short sketch of the Cathartesians. Weather pretty cold the sky was not very well but slightly better than what he was on Saturday & think he is better today would beat a heavy white frost and rather ^{Coldest} than mailed a ^{Wash} Passer to Thomas Bush and also one by express to John Brown and Thomas Brooks in the evening took boat towards Medway the weather changed and drove a shower in the afternoon I went and held an Inquest on the old man Lawrence in the afternoon he died very suddenly in his bed in the morning about ^{dead} by the Resurrection of God ^{Midnight} Past President shooting Saturday about 10 birds out of the fifty a great deal of money said to have changed hands I was very cold when received 15 passed today I came in from Inquest

TUESDAY 15

To day we had no cases in Police Court. I was busy with the three matters in getting ready accounts with Mr. Myers of any importance. I went round with the church collection papers today and got an addition of about forty dollars head today. Mr. Robertson Marqued Partner had left last night for the cold depths in Columbia. The day has been very cold though our and quite angry for appearance. Real Martha weather. Mr. Brown brought forward the resolutions on the representation question and evidently made a very good speech. He also charged home heavy on Collier & Mac Donald whose whole staple of politics was personal inveteration and he was the mere tool of leather and nothing more. Poor old George Duncan was very drunk this afternoon Received 15 passed today

WEDNESDAY 16

To day still very cold and stormy I fixed up my bound matters and, reading notices for a meeting of the Council this evening we had two cases of drunkenness and this ~~after~~ ^{after} luncheon they were fined one four dollars and the other with pain other fines quite a sum little expense occurred with the old Irishman he was blackguarded by his wife fearfully. He often they was one of the roughs there was no other business before the court. Frank Doan all lost a child today of scarlatina or Scarlet fever we had a meeting of the council this evening and Union Bankers Francis Leavens salary \$300 they now give him \$600 per year a pretty nice sum truly and one which you know by the terms of the wards will be paid back I think from the very thing to going it is truly humiliating & the way men who wrong the money of the tax payers sent school April today

THURSDAY, MARCH 17, 1864.

This morning State bateauxs and old men & west with occasional showers of snow making it very disagreeable we had a case of larceny today in which a negro wood was charged with stealing some furniture. After hearing the case, was determined of justice spashed him to day on his right of self defense in fact I have felt quite ignorant over the affair boy here and all night our babe is not very well by some means or other fagged and had in his bowls & meat soups chela was buried today heard he had another one boy if I made out my minutes today and arranged my papers very little news from Parliament saw that the President they'd called out 300,000 more troops Gold 162 today towards evening the wind increased to a perfect gale from the south west blowing into shore and every third a very disagreeable day got a letter from William Hobbs to day saying that Will Hobbs comes to-morrow to Detroit

FRIDAY 18

State bateauxs long frost with a heavy shower of snow about 6 o'clock in the morning quite cold and very disagreeable had three cases before the Police court today they were all heavily fined two for gambling and forfeited \$5 each and the woman servants in house of bad fame \$8. The two fines were paid and \$4 50 on account in Police book of the date no news of any importance as regards either the American war or our own Parliament I was busy all the afternoon in pesting the tax of 1863 so that we may have a thorough list of our non resident taxes we believe it appears a large amount of non resident taxes still due and in arrears I did not go out anywhere this evening I was so weary and sleepy the wind howled a perfect gale all the evening interspersed with occasional showers of snow

I used thin fashions today

SATURDAY 19

To day it stopped snows and blows at intervals the morning very cold and blowing a light snowfall on the ground. I wrote a letter to James Hobbs to day enclosing William Hobbs letter about Adjutant Hobbs funeral. I was busy with my own residence funds several post wanted to make my returnation against Shultz for selling without a license beer. But the mayor not being present we could not accomplish it so we were obliged to leave it in abeyance until Monday long before has got the funds given to me I hope we shall be rid of it our baby is fine and strong and very peaceful. The news from Europe is that the frost is in crisis what the winter may be is hard to say but I know the time may be next year one year I pray. We have sailed out for \$14000 the night passing very hard and blowing before stock our last supper messengers

THURSDAY, MARCH 24, 1864.

Today still frosty and clear but Mr. Putty so cold as it has been for the last few days I was busy & day going round with the church Marshall at that place fitting all the necessary Apps made a rather taken down that is those that the soldiers have spoken or damaged it is quite uncertain yet what will be the disposition made of the tools, in the afternoon I sent the convalescent and papers to Carson who is confined at home with a sick child Mr. Shelly informed me today that Governor Seward & Shelly that he had made the proclam and we now hope to hear it be very shortly. Stay in a Lyman Day I wrote to Swinburne today about the fall of General Butler the want of base g's. No news from Huber further than that ~~the~~ Carter had failed to form a Ministry and Huber was called in with what success we do not know Mr. Collier not invited to night

FRIDAY 25

To day being "Good Friday" I had no office I visited two bookshops one in Charles & Rolls in Fleet Street and one in a man that still remained from Hanover Square across the river in the afternoon and looked over the bookstores and bought one Photographic & took one after in the afternoon and too I bought two books and 80/- some gifts above 10/- the slow in the evening and knew that the leader of the Free Party here Mr. W. formed at a meeting that Campbell of Brighton had arrived or would arrive today there is a good deal of excitement now in town and I understand that Mr. Bright's friends have got it pretty badly and whether they will go through or not remains to be seen I hope so. One own book is not very bad if and I do not know whether the book is really done much good

SATURDAY 26

To day the weather has moderated greatly and very appropriate of a beautiful day we had a trial to day again on trying such delicate or rather delicate soldiers to desert the men was found guilty and sentenced to six months hard labour in the Gaol at Newgate what I think of the matter is that the soldiers are anxious to entrap the men with their clutches and do everything in their power to draw the men out concerning the wages inflicting etc. On the other side I make out the soldiers and have in sight to day they was in great form all the last night Mr. Campbell had arrived and he appears not to be able to do anything more than follow it is just the great bugbear in Carter and it appears that none of the upper classes will form under Carter under any circumstances I was busy all afternoon posting Mr. Respite Linda letter with his bill up to first January 84. 10 1864 which little his bill up to first January

MONDAY, MARCH 28, 1864.

Yesterday I went over to Chink on the river did not hear
anything was though disappointed. The day was very
beautiful and when we had read Rich Stanley and
Nelson in the Columbia River or rather a river than
I said Stephen Ben Franklin history of England said by
the River to be just late, now news of any importance
of any from the Federal side of the River from Dublin all
is confusion still and evidently the forces are in a great
quandary and what will be the upshot over the matter
it is hard to say they are evidently in a fix and about
universally of being called into the boundaries of Antietam
men we had no police force to day & Rollin
was burned down to day as the bark of Army house
nothing else of much moment further than that we
did not have a council meeting to night only
promised to have one tomorrow night to day we had
no look by us from a tremendous day to wind you
the South the Baby not much better to day

TUESDAY 29

Rained to day our last very heavy Navigation commenced
some days ago but not regular to day morning started
with Chamberlain and Sustad ward yesterday coal to
Bay City. I was busy all afternoon in preparing
up my non Reside land book the evening
and afternoon too was very bad then was
a regular gale blowing all the time and made
the day was very disagreeable in every way
I was very glad to see that confusion loose
confounded state arms in theигривине camp
and that no government was not formed worthy
of the name but it was expected to be formed
to day whether it will or not remains to be
seen they are a great pack of scoundrels at
Stevens Green the other men made out some
informations against Robins for breaking and destroying property
sold \$1.68 to \$1.70

WEDNESDAY 30

Still incisive and inclined to run no ministry red
so days the times of this morning we have had a regular
gale day in the police court Robins went into it very
he was fined by Mayor for the assault and he was remitted
in damages for the breakage of the lamps to the extent
\$15 for his Ball Alley arrangements his were converted
for drunkenness and one was given him to pay
and the other paid at once, he police book no news
of much importance otherwise \$1.82 a letter to say
from Aunt Christiana of Lodge also a Banffshire
Journal from County and a letter from James A
Ross enclosing \$1.70 in his present I wrote an
answer to Christina to day and enclosing a portrait
I lay in it I do by the 10th of February that William Adam
died at Bonniac on the 18th February and a meeting
of the creditors was taken on the fifth March one before
of my old acquaintances are passing away in the land
of my birth so it is every when I too will pass away
before many years sold \$1.64

THURSDAY, MARCH 31, 1864.

To day the weather was still very heavy and the ground softy and, in fact very disagreeable there is no news of any importance yet further than the formation of a new Ministry under the leadership of Parker, a regular whack of the feather Macdonald administration soon came appears & have gone in as a sort of myrtle bough and nothing more. The globe of this evening is as bitter as gall and wormwood I hope they will give them fits at the polls if they can only defeat Foley at the polls they will be as afraid of him as he deserves all they can give him and as does Mr. Fox we had now political business to day only I inclosed the money in the usual of the previous day R & Whyte came in and assisted me in the Non Resident Lands to day for half a day. The baby is getting better

FRIDAY, APRIL 1

To day has been dull and raw just much external go news of any importance from the United States further than the arrest of a Doctor today who used to do in Canada doing business as an agent for McClellan's publications. So it is said in Canada, the Americans were much annoyed by their legislation and also their action. Their terms of the former opposition setting up to power in Hamilton the Mayor is going to try his hand whether he will succeed or not. Wm. Davis to be seen the globe had a thunder-shower against Foley last night I suppose they will try and oust him from Waterloo if possible. We were busy yesterday all day on Non Resident Lands the division court was held in our Room and we went into the Merchants Institute Room and ~~the~~ ^{our} ~~room~~ worked at our work no news of any importance transpiring in town strong cold his farm on Tuesday last to Mr. Crawford

SATURDAY 2

To day we had quite a time with 3 Studdards who had robbed Bassett the brother of \$134. Innumerable it appears that the big one of Seneca as he is called is the one that done it which they will stand at the assizes in county jail Canada to be size clerk and Hobbs went his bail for a sum I don't think he will stand the trial no news of any importance from the other side our own Canadian politicians will be at work in the beginning of the week again whether they will succeed or not it is hard to say another thing it appears that and some of the late Macmillanists are setting on the other side and will in all probability oppose the new government of either Mr. Fox and company the globe gives William Fox a wife who is now traveling with the bait held out to them

MONDAY, APRIL 4, 1864.

Yesterday I went over to the Weymouths church and heard a very good sermon from Mr. Storck on the topic "We do always seek the best interests as your Father did so I do it". Mr. Storck was very much delighted with him my first visit has become a sort of her worship. With him the day was fine throughout we were with him to church in the evening to Mr. West's friend a good sermon there as well. I did not had much rest. James Bigelow was not well he was troubled with asthma I hope it will not take hold of him. To day it is raw we that is Mr. Whyte and me was busy with our lots all day Mr. Polin took to day we hope that we shall now have any for some days of continued raining to day about twelve o'clock and continued all day until night we had a council meeting to night at which a good deal of business was done and a return given to measure my salary.

TUESDAY 5

Foggy and rainy most of the day in Polin business to day of any kind Whyte and I were busy with our lots I went round with Bloomfield and Remedy and to see the poor and those who were indigent and finding help and we saw a good deal of Squatia watchfulness and misery some especial cases where we found the task intolerable and unbearable. No news of any importance from the South our own Canadian politicians after being shaking and working to take them right Mr. ~~McGillivray~~ being into the Ready Room this evening we had a couple of hours conversation about matters without he seemed to be in pretty good spirits he was in hope that they would defeat Polley and Corkburn but it is hard to say what may be the issue the Ministry have agreed to meet when they both ^{will} have passed through our Baby is still poorly with his brooks telegraphed for now passport to him.

WEDNESDAY 6

To day in the morning the weather was still drizzling and I went out faced off a little toward Hudday David Shul was married to day to one of the Mayor's daughters they were married at the church of Beaufort at nine o'clock and then left by train at eleven we committed a last command many items to day for laundry & some clothing Whyte and I looked at our lots for some time until 2 P.M. considerably though we finished the sum 1861 this afternoon, we sat alone Polley now news of much importance the American war stands still George Brown putting onto the new government without election he gave Polley by the right begin last and to night he gave Mr. Corkburn a dressing the Quebec folks are evidently displeased with the appointment of Langton as Minister several have passed resolutions of condemnation of him Mrs. Rhodes it appears is likely to choose Mr. Charles Allen Hanks from the Regist of the State, Laria No. 11 down Street Quebec.

THURSDAY, APRIL 7, 1864.

To day it looked a little heavy and like rain it
kept up until about 3 o'clock then we had a shower
of snow but little and gone leaving the new Frame Store
this afternoon on the West Side of Cameron & Thompson's Store
I got the loan of the North British Review from Mr. George
I read a part of a very appropriate Article on Tuesday
and one written by Dr. John Brown of Edinburgh. The
globe was heavy on Isaac and Harry the two and also
on Joseph Blackburn, the article was very seriously
written evidently by a man in earnest we see through
it going to Sandwith to be tea party for a fence round the
grave and but the baby was so small that we did not
see Mrs. Rhodes here is now expected to live to day with colds
on the brain the weather was clear and beautiful and
evidently inclined to frost.

Our Negby was restless all last night and was very bad today
Gold \$7.68 after

FRIDAY 8

Today it appeared beautiful and clear in the morning
and looked like a fine day but towards noon it
changed and became cloudy Mr. Whyte and I
started on our non Resident Lots. Some Mastermen
came in and informed me of the death of a
young man at his house which had happened soon
What mysterious I was out accompanied by Gilbert
and held the funeral and we found that he had given
natural causes we had considerable difficulty in getting
the matter fixed so as both then and back as local out
the buried took us a mile beyond the place and in jumping
off I cut my own head in a bed of Canada Thistles then
when we got through we walked over miles from the station we
found that we could not get on the train at Bell River so
went down on the Baptist road on a freight train and we
got on the express train and were home very soon an
Irishman in getting to the train so we had a regular
chapter of accidents yesterday it rained on and off all night

SATURDAY 9

This morning still rainy and wet and ugly a very
unpleasant day throughout I was pretty tired this morning
Mr. Whyte and I started on our lots again as usual &
ordered a coffin for the man killed a team and sent
it up this afternoon and got the thing all squared
and right we are going to send him by express to
Winkley on the lake via three wool wagons of
importance to day the Political news unimportant
the Corporation needs to day to choose a successor
or rather an opponent to today the globe is about
better on poor Skars Buchanan he says not leave
a stone unturned in trying to keep him and make
him appear ridiculous the baby was not well this
evening but after a bit we got him to sleep
and the sleep soundly when went away to
see up with Mr. Charley Rhodes who is not expected
to live the doctors did not give any hope for his recovery

Ran out 30 passengers to day

THURSDAY, APRIL 14, 1864.

Today Showy wind went I have a man digging a drain
in our yard to lead off the water from the door
I found the old drain full rotten and I was obliged
to take it all up No news of any importance from
the war less going up to 100 today Whittle and
I were busy with our lots I added up a good deal
of the leftists roll today As he is about getting his
roll poor Whittle suffered a great deal today from Embargo
and Remington he seems quite joined the Globe is very
soon on Corkbury and Foley together they will be
defeated or Mr. St. is hard to say the last election
showing appear to be an indication the signs of corruption
and bribery The body I think is getting into a good
deal better

FRIDAY 15

State very bad and showing the wind from the west
sometimes and sometimes from the east during wind
will fronts of the compass. Under the day very cheap
we had no police business to day but John Prof brought
up Shibley for Sibley without a lecture of any kind Our idea
is to bring him up every time he gets
some of them sign to be of opinion that our By Law
is not good but I would like to see it tried the
Globe had a long account of the Cobourg nomination where
Mr. Corkbury and Mr. Salt were both nominated
they are evidently getting out all their strength
to defeat Foley and Corkbury together they will
succeed Remains to be seen Salt is a very fine fellow
at present make a straight forward speech he seems
to full of trick and jink and long list of quibbles
word to word a little no other news (but then there
young George Duran has the small fort)

SATURDAY 16

So any has been another miserable dressing
rainy day we had the boys up to play but the case
was postponed on account of several of their men
apprehension Shibley came to day he
at first denied it then when Bill was brought
up in the afternoon in the shape of some 6 miles and
he thought he admitted it and was fined thirty
dollars and the costs and he is to appeal again
as usual the Globe had Foley's nomination in
it by carried the nomination by a very small majority
to his own strong hold I hope he will be beaten
William Jones always was there and he was well
and we saw but they did not make much of it
he made a fool of himself a very bad
this afternoon at the little Cedar Bridge beyond the
Grand River we walked through the mud and
rain but could not find a fish to catch
so big as they used to be so bad we had to take
into

MONDAY, APRIL 18, 1864.

TUESDAY 19

WEDNESDAY 20

THURSDAY, APRIL 21, 1864.

FRIDAY 22

SATURDAY 23

MONDAY, APRIL 18, 1864.

Yesterday we assembled our Inquest and took evidence on the case of the woman our name was Amanda Blumson about 30th years of age, a single woman the Doctor opened her and found that she had died of inflammation of the stomach she was evidently a County hard case I did not so much care when we were at sea at dinner in the afternoon he seems still to be a good deal troubled with dyspepsia much fainted all day this morning we did a little in the Police Court line ~~and~~ we found one man three dollars and costs and another we let go a woman by the name of Helen Plate who lives next door to me that had been one a whoring woman let go. The day has been fine a little frost in the morning but it has kept dry all day I am still getting in my dray up slow work I issued four Passports yesterday no news of master important.

TUESDAY 19

Today still frosty and clear we had the trial of Father German and the boys today and from Father German \$2 beat in want of evidence he was put in in the costs, we made out Shays papers today on the appeal case, and our own return of Wm. H. Weller the Globe this evening had the Hamilton women after and from all appearances the Mayor is Dyer Saar a hard man if Mr. Cole beat him Haar makes such a fool of himself that it is hard to see how any body could give him a vote we shay earned the Administration by several hundred and Saar has to demand a poll which begins to have been particularly bad upon poor Saar I hope he will be beat we had a voter up today for Survey and we sent him to cast his vote at the assises he is evidently belonging to a bad lot of men if a defeat of Banks today.

WEDNESDAY 20

We were finishing up all our non Residual arrangements today the morning was still frosty we had no Police besides today to any moment I made out my cases for the assizes and handed them in to J. M. Mull we got through with posting up today the defeat of Banks appears where our confirmed up news comes a very article in the Globe in the Cataraqui division wherein it appears that Batton who has some sort of a connection with him on account running neck and neck with him on account of some very unpopular opposition in a case of an Irishman by the name of O'Reilly it is noted he said that Batton will soon complete a victory over I am afraid he would soon be a powerful in that district that Campbell will be able to gain a hearing today of the death of a little girl Hughes who used to attend our Sabbath school they called the Sabbath

THURSDAY, APRIL 27, 1864.

To day after a little work on Police matters in the morning I went to Sandwith and then started all the town residents and rates work away with me myself until late in the afternoon I ride back and while was busy making out By Laws for Matthew Lumberous Oppen in the Shely Guse, there was not much news today Steve Poll had a fellow that jumped off the cars and then going at the rate of 85 miles an hour he appears to be a desperate fellow however he was picked up and now awaits the arrival of the man who has he grabbed the money from him to day that Garibaldi had arrived in Newfoundland about Southampton he is going to get a grand reception in London the people are overflowing with enthusiasm wherever him the great Stating Patriot the car is not expressing very fast the day has been fine and pleasant although a little cold I had my garden plowed today

FRIDAY 28

To day I went to see work and finished my lots and came home about one o'clock heard this morning that Corkburn was 380 ahead of his opponent last night is if not too bad that such should be the case a message like him that he should ~~ever~~ be taken up and palmed off in the style he has been is truly lamentable but so it is he appears to have gained his election in spite of all the opposition that was made here to night in the afternoon that Foley was 200 ahead last did not believe it it commenced raining this afternoon from the east and rained quite hard the globe being quite dampish you Yorkburg election heard late to night that Foley and Bowman was a tie last Macmillan says Bowman's election is safe they seems to be some difficulty running with the mail bags they have voted two already and the will be glad of Foley

SATURDAY 29

Rainy heavy this morning and ate through the day first is the Lexington of Shakespeare but day hub is a very dirty one here I heard that the matter was almost a failure in Detroit all but Lothrop's speech we at first were going to have a full day in the Police Court but it ate downpiled down to nothing at all but one poor fellow from Walkerton named Glynn who we had up once before and who appears to be very gone in drink. He was fined \$4 and costs no news of any importance from the other side saw by the globe that Foley was two behind the first day and would be a good deal more before night Corkburn is by 446 the rain continues my dragnet at night we received the news that Bowman was elected over Foley by a majority of 1163 a very good vote and so may all Electors be they are a numerous to the number and long body else

MONDAY April 26 1864.

Yesterday the day was a little better and we had a good Sabbath I went to speaking church in the afternoon and heard a pretty fair sermon on the Lord's Condemnation, and had a good deal of discussion on the matter. To day the weather was very cold and miserable. I was busy all day with cases and also other matters belonging to the column I got a letter from Matthew & Elam on a day entirely confirming our idea of the By Law and that the By Law and provisions were both good in the evening we had a meeting of the Council and several hundred bushels we disposed of a good many bags and then gave me a list of 120 additional to my salary for 1864 though Isaac Buchanan is yet behind

TUESDAY April 26

To day we had a busy day in the Police court we had a young man brought to day up for being drunk and disorderly and he also had rashes and information to make out against Sherry and Rockford. The day has been pretty fair throughout and we also the preview of the trial Queen's Bush and Mrs. Burns to day at Cincinnati a number of case they had in trial Sherry the German White Lumpa of the cars was allowed to go to day, on account of no one appearing against him there was no man come up on the cars quite a little excitement occurred this evening on the arrest of a magistrate and press as the outcome of the Bishop's conspiracy

Isaac Buchanan joined to night by 15 negroes

WEDNESDAY 27

To day we were up all the morning in trying or rather examining the witnesses in the priest case it took a long time and I was very nervous and very unable to do my work so much so that I was often told whyte to do part of my work for a little I went home to dinner I came back I found that the priest and the magistrate had been sent over to the assizes for trial but then our trial was taken and for this appearance and so the matter ended Rockford was fined today \$20 and Sherry \$45 in damages with a load of people appealed but Sherry they were rather afraid thus we would demand no attorney the County City on him

MEMORANDA 28 April

To day we were busy with by your Gracious
but we found on Monday we had today you
the and the coats which the said we that
had the whole day on the body and that
use in conspiracy which resulted in my
whole to the assizes for trial, but I think
they will not be able to do anything in
the matter although I believe that Beatty was
badly wounded in the wife against
a Ned Adder last Friday up to day on the Four
guilty act and that was despatched of
by messenger the we a new information was
lodged against Shelly and Dennis issued
in the following Monday or rather Monday next
no news of much importance till a little
from Mr. McMillan West coming

29th April

To day we had no case in a corner in
the forenoon and in the afternoon we came in
and I went round on the church a little
and succeeded in recovering our bill to
nearly \$1000 because Mr. McBrown too we
S. & H. & Co. our lawyer which is the
sum on the first of May between us the sum
on my application for a bond leather to night
we had to charge the sum of the Committee
did not come so we took \$1000 to allow
it remain in abeyance the lessor came
over and today the present case did not
go to the jury but issued other summons for Shelly
today but don't know whether we will succeed
in convicting him no news of much importance
to day the assizes closed this afternoon

30th

To day we threatened again my house
and he was told today and Cameron began
in on the Building Society account for \$700
I talked to Mr. Leod about the affair and
seemed willing to let his name stand before
I got a chance to little all up with the
people to whom I became responsible ~~black~~
for William & intend making a proposition to
all the creditors at once and the
for many of the whole thing doing the present
you saw McMillan to night who gave us
a very audacious idea of the fight between
Holey & and him on the Waterloo election
paid \$70 to day on my house corruptly
Assessors returned their role today we appointed
a usher for cloud shot today

May 2

Yesterday I did not go to church in the morning but went in the evening friend apod dead of brother yesterday no news of much importance no Police work to day up to the exception of our Sunday friend who was us to day as their evidence was sufficient and the magistrate would not expect so he was discharged the day has been mostly blustering and threatening rain all day but the wind stopped about the west and to day and blow blustering showers like gales weather instead of the bust of may fine seems to be general opinion among the good Canada liberal that the ministry cannot stand and that they will be voted out immediately whether that will be so or not remains to be seen comes put up some ranks on my grapes today

May 3

Today as a woman stand was no Police business I was busy all day without intermission at my assessment role making out an alphabetical copy of the Roll. The day was very cold in the morning ice made a heavy frost on all day a shower of snow fell in the afternoon and to day had a very ugly day of it got a letter from Mr. Simms on Privy arrangement and I wrote and sent the script about the matter to him and said and wrote and introduced the new teacher to his work among the colored children there was no news of any importance yester day there is constantly a stirring of the plot between fed and confed

Wednesday May 4th

To day I was very busy with my assessment Roll and I finished in finishing my test in first Ward last worked until after my hours five o'clock the day was beautiful through out and what may be termed as first spring day of the season clear over head we passed a summer day to Thomas Mason to day for trying a gambling house what may be the upshot of the affair he does not know not much news from Dublin the teacher says Marsouale is going to give Brown a heavy dose at the first chance meeting the Leinsterfield Macdonald did not make his appearance as yesterday nor the McTullies Mr. Ringo was present and so was Mr. McEvie no news from the states to day of any importance save that ~~also~~ Mr. Walker of Carroll was dead he died on Saturday last left a letter to Barbara worth six pounds sterling

THURSDAY, MAY 12, 1864.

To day it appears in the morning like any other of a
good day, the news from the Army of the Potomac unchanged
greatly (appears) in State in front of us, what may
be the ultimate upshot of the whole affair is hard to say.
The free Press of Detroit has editorials very depreciating
of the whole movement evidently with a view to alienate the ability
of Grant. I was very busy today all day at various things until
the Committee here had finally decided ~~not~~ on
the Deep River case all the Obstructions are now
cleared out of the way of Mr. Rankin but one that
is John demanded that he be heard before the Committee
because his name was mentioned in the petition of Rankin
but they will probably be swept away
we had a pretty full meeting of the Volunteer Committee
tonight and we appointed the various Committee
of leather and otherwise every thing passed off
pleasantly.

FRIDAY 13

It was a fine day all throughout for to
our Comittees & the banks. ~~comittees~~ Companys
of volunteers and took the
Signed and sent off
The flags of Detroit were all up today and great
activity evidently at the good fortune of Grant that
he has Mastered Lee and captured a large number
of prisoners what the exact number is it is not
yet said various estimate from 20,000 downards
it is quite evident the North has worsted the South
in the Vicksburg Battle or Thursday battle Old
Gentry ^{old} was at our place today until noon
he seems to be about his usual
we sent a Mrs Bobb to jail to pay for thirty days for
attempting to kidnap Lee is now left alone to test his
luck to see if all obstructions are turned away
we had a very so so meeting of church folks today
night the number was not very satisfactory they are
a lot of cantankerous fellows

SATURDAY 14

To day a strong wind from the east dust blowing
the news appears to be confirmed about the Federal forces
in the forenoon we had a man up in trumpeters repair
part of his gun and then the magistrate gave him time for
the balance, but he will never pay & never run a
risk yet the news together is that on Thursday Grant
had been able to drive Lee about 4 miles and take 35
guns and 3000 ^{prisoners} Our folks are pretty eager on the situation
of volunteers whether them shall rise over us before
the time or not remains to be seen we had a long
meeting to night on the amount of stuff required
and the thing was finally arranged to meet all
matters and task the assistance of the ladies
Mr. Remond and cordenay are going cold that
for us
Mr. Brown issued a vote of thanks of confidence
on the new ministry last night what will be
the upshot remains to be seen
I walk across the river today and bought the numbers
evening and Saturday's newspapers

THURSDAY, MAY 19, 1864.

Today it was a very fine day and I copied out a
Speech by Law and attended in the evening a meeting
of Committee on Revenue. I find the feeling against
Rucker is increasing and that the difficulties in his
position as he did in the House does not help
him much he is a most consummate bargainer
and with all his huckelling at the end of the chapter
the slaves article of rations is real good and that just
lets the nail on the chest.
No further news from the Potowmack all quiet
rumors of another battle told at \$1.82 per day
high sounding and no mistake when bought in
of a long time ago across the river.

FRIDAY 20

Today I have not been so busy as perhaps I ought to
have been the day has been fine and I have a
very heavy cold which cause me a headache I understand
that every thing is progressing favorably with the
Liberation Committee we all went down and saw
the car there today and arranged the way the tables
ought to be set. The public is getting more and more
interested in the奴兵 Bargain and sale I trust
that Rucker will be safe in his aims for it is
most disgraceful to bargain and sale away a man's
son in this way Rucker has done better work
across the river today and bought 10 yards of carpet
at \$1 per yard (leaving) money and the
and money program is over this afternoon I sent
a letter to the globe today to indicate his in with
the Sheriff I hate to see the Sheriff with all his faults
asposed of in the way he is to be

SATURDAY 21

So day still very fine and the weather good just
as well but at breakfast this morning a terrible
explosion took place of the Propeller rifle she was
all blown to atoms in a moment what may be the
loss it is hard to say she was just going into harbor Williams
dock on the other side of the river at Detroit I got a letter
this morning from McRellon in which he says that Rucker
was very anxious for the dismissal of the Sheriff and that
within five days when they will come or not it is hard
to say William Grant Division leave Clark dock
last night at one o'clock and is to burn on Monday
at eleven o'clock save by the gloke to night there
is one A is to summon the Sheriff to the door of the
house by a notice on Monday next I wrote
to McRellon and senior Brown to say I understand
by the papers to inform them there has been 6 or seven bodies
found and that there is quite a number still missing
from the Propeller rifle she was not long into the dock
she was being out and suddenly had fall in body
nearly and when the cold water was in it exploded

MONDAY, MAY 23, 1864.

Yesterday morning we had a slight shower and the earth seemed much更加 the world was east all day and it was quite sultry I went over to Mr. Primes Westminister church heard him preach a fair sermon and in the evening Helen and I went to James Hobbs and had tea about seven o'clock a tremendous fire broke out in a spinning mill above the Milwaukee River in Detroit and burned with unprecedented fury ~~and~~ sometime destroying property to the paper amount of \$20000.

There has been some thunder during the night and a slight shower which however in fact it has been quite warm all day. The Committee are progressing fairly with their preparations and I think they will have enough of every thing we had Mrs. Ostrander up this morning and sent her to East for 30 days for helping a house of refuge or pay a sum of \$100 when she came she was not able to say. ~~not~~ the globe to night with my letter in it it was rather heavy on me about the Sheriff's sale the globe today

TUESDAY 24

Today was a full day for Wounds as the Detroit Free Press says it put on its best dress and luster for the occasion 7 companies came on the round from Sandusky one from Chatham one from Landover that one from Amherstburgh the Rifles and the Wounded company. They were put through a battery of movements or evolutions on the field by Captain Brown of the Rifles who was the commander after they got through they were marched down to dinner at the San Jose where a sumptuous repast was provided for them the eat their dinner more like boys than decent men and many of them behaved very badly the pie that was served up to them soon began to fly and it soon sent many of them into a singing the song like a pandemonium in the evening we had a couple of young men to tea with us who were acquaintances of James Brown at Gainesville

WEDNESDAY 25

Today we had a sort of ~~Wednesday~~ all teeth the weather of a warmer trial trying Lehman and Robison for a Malicious Assault on a man that came from the other side who appeared to be in the middle the whole case was a miserable fit upon the part of the Police Magistrate and County Attorney of private a colored man as they were nearly defending themselves when the Judge took the stand we will see that the master does not drop here as they have a chance for a cross against them by presenting D. Rankin then long a tremendous excitement the court room was full to overflowing and very oppressive the taking of the evidence the day was hot and disagreeable

THURSDAY, MAY 26, 1864.

Today we got out an information against a man
in Stanley a pair of shoes another for me all with
the day has been cold warm and humid though
I was busy in the afternoon helping Helen with
the furniture and other matters she was cleaning house
I went and bought a basket from Batty in the
evening we had a meeting of the Committee
but we did nothing until Mr Strong was ready
with all his records which he said he would
not be until next Monday evening the
soldiers began to move this evening out of the
Town Hall and we are all glad at the prospect
of getting back our old place again we saw
in the Globe to day that Mr. George McLean and his
Deputy McLean and Paul Clark Kelly were all summoned
before the Bar of the House of Assembly as Quebec
next Wednesday

FRIDAY 27

Today we have had a field day in the Police Court we had no less than six Convoys ^{Guarded}
and ~~one~~ One Party of ^{of} Guards and one ~~of~~ Guard
one was sent to lead together a miserable disorderly
lot as can appear before us
The Soldiers vacated the Hall this morning and
we expected to see and took it down off their stands
the day has been free no news of any importance
The Army of the Potowmack appears to be going near
Richmond but how it will pass Urbans
to be seen the Globe published my opinion this
evening but Mistaken the time and also added a foot
note which was not very much to the point no news
of any importance otherwise the Army of the Potowmack
will in one days march to Richmond whether it will
be three Urbans to be seen but he has a hard road to travel
The evening pretty cold and wind east

SATURDAY 28

To day it was still dry although we had some
appearance of rain we had ~~an~~^{some} very
little in the Police court today ~~had~~^{had} them to pay
the amount of a drunken Englishman I made
out my account of money which I shall have
to pay at the first of July and the amount
to \$200 and one month of the bill now to go
there is nearly sixty revolutions in this gun
alone the gun appears to be perfect we
hauled down the copper this afternoon and
as hard as we bid at it there appears to
have been some considerable sprung in the frame
last night the breech is an exquisitely fit on
a bed of roses in the frame without the frame
at all I a man ^{and} a boy who had had his
be crushed or they talked of and suggest on it for
Walpurgis against Davelly and finally gave it up
the evening was pretty cool to night we could all
wear our overcoats almost

MONDAY, MAY 30, 1864.

Yesterday I went across the river and heard Dr. Frazee on Shems or in other words Abingdon preach a most excellent sermon he gave us and very much to the point. A man died at Mrs. Davis' ~~to-day~~ ^{yesterday} named Jesse Dixon. a mulatto boy and they say his treatment even though our best boy little fell no further news to day we had a rather poor night when was quite terrible all night and has not been very well all day we find the bus were quite locally and trouble with me less we had one case this morning of a Roman who was drunk and disorderly. He was sent to jail for 12 days sold went back to society to day and is understood closed as such as yet had nothing of the Negro Committee to day and we done pretty well notwithstanding the lavish expenditure of Weeden and others

TUESDAY 31

To day was very warm has had a trial this morning of a young person for stealing a shirt. He denied to be tried before the magistrate and was sent to jail in County Jails. his name was Sarah a ship daughter of Foster Williams. Mr. Robinson and Collyer are against Weeden & further examination the man that left truck it appears is very true and likely to die so that it is kept from his final commitment until it is seen whether the man gets better or worse. he had a very long session of the ~~jury~~ court at the Board of Health till late after noon so put up no news of much importance just appears to have some clear down to Richmond around with the in front of him at Fredericksburg prison. Of a short session there are very fast the men the had quite a thunder storm this evening and also heavy rain doing much good

WEDNESDAY, JUNE 1

To day we have it still raining the provision boat in the river no news of much importance this morning the committee on our side met and agreed what was to be done and Thomas least brought me some papers to show in the committee on their to add in it raised a good deal at intervals all day the like between Weeden and Williams and I was there to day at the crossing point. Little Houston was up to day in cutting his wife some trees that he cut his head open with a Spatle I looked good deal in my garden to night and played out some cards and sewed some shirts and beans and dug up some ground for Potatoes. Then appears to have had a regular quarrel with the press and the house the press at last wrote was striking off and what had happen will be known to be seen. No other news of any moment took the winter grain is written down null of Richmond Gold \$189/-

THURSDAY, JUNE 2, 1864.

To day a beautiful morning I got my Tomatoes this morning and put them in they were almost in blossom they are splendid plants the sun shone out pretty clear all day although not very warm they think is the plants watered a little but I think they will stand we had no Police Magistrate to day consequently I did not have any Police work to day goodness brought a woman from Leuthan their stole some clothing during the fire at Baby's house I commenced copying my Roll for the County Council I have a good deal of work to hand and will do it in time in spite of all opposition Press and Parliament State at Logan heads and likely to remain so from all appearance some important measure passing through the House no news of much importance that is clear down at Richmond or within seven miles of it what will be the upshot of the matter as here today is starting to him

FRIDAY 3

To day we had no Police Magistrate again because Dick and Marshal Battina the consequence was old Heyston was discharged and the ~~loman~~ man for stealing was Maranda back to the Gaol Lock-up until she be brought up on tomorrow the rest of the day I was busy with my Assessment Roll the rest of which I am now making out in order to be in time for the County The Sheriff appears to be all right from his examination before the House we shall not judge that anything wrong has occurred however we shall see by and by my opinion is from a letter received today from Waller he knew that nothing will be done with the Sheriff and I think it is right that it should be so let Reckin find some other method of turning him out than the bargain and sale it is positively disgraceful tonight I read a little of Henry Adams Thackeray's new novel

SATURDAY 4

Today the morning proved fine and warm clear a beautiful day we had some time passes before the court the Police Magistrate was much the same and after doing me his place in poor books no further news from the combatants I got a letter today from the Commercial gent on Mr. Evans' behalf and letter it up with him by giving him \$5. out of \$17. with this getting all clearing on Master Evans' side by the globs to night that there will be an additional animation on the Sheriff's case which I think was more damaging to the Sheriff than the previous day about Pray's evidence appeared to me to be very good & Sheriff be having stated that he was a violent partisan of Abomin and against Reckin no further news army of the Potoway state going on and fighting overmuch a word can be said that he is sick in Richmond from fatigue the evening looks rather stormy and troublesome

MONDAY, JUNE 6, 1864.

Yesterday I did not go across the River I came
unintended to cross the river to Robert Brackets
Wife's funeral ~~at~~ who died on Friday last of consumption. She
had only moved to Detroit about a week when she died in
the afternoon I went there to pay respects in the
Methodist church and a Capital sermon he gave us
thoroughly practical and original the day was
an stormy towards night it rained a little the
weather turned very bad last night. This morning
the wind opened strong from the east and blew that
way all day & into the night threatening frost to day
we had the hearing case of Ruby's fine and the two from 6
unruled on both accounts until to now I commenced to
making out my convictions for the January sessions this
afternoon. The whole was very heavy on the Sheriff of him
and nobody can hardly blame it he deserves all he gets
The Committee on Tax Court and found Brown's ledger \$150 while
Sorrel's ledger was \$250 such a little difference is as nothing
had and ordered more

TUESDAY 7

To day the weather was very warm we had quite a
number of cases before the police court to day one
woman a Kate Wilson a small protestant woman
she seemed to have been half of all temperate qualities
she talked incessantly the most obscene talk and
and evidently had sometime or other been in better
circumstances. In she had some education they were
all found the trial collected as its share \$12
which was doing something the Parliament was engaged
yesterday in the sheriff's case and the opposition carried a
resolution against the government that he should have
returned Arthur Rankin by a majority of six the
case as to me up again to day I was busy all
the afternoon in finishing out my convictions for the
sessions no news of myself unfortunately from the
Potowmack road and Lee state, our lack of other
we made an effort to go to church to night and found
that it would be built on \$1600

WEDNESDAY 8

To day I was busy all day in making out my
convictions for January sessions we long forgotten than
of any police business to day hence I was left a
free course with my work and I was on with a
until I found that James Noble was sick and
I went to see him he was not very bad
the case appeared to me to threaten inflammation for
the lungs I heard of a peculiar case of a man's
wife dying out about five miles she was well
in the morning and dead in two hours from
her illness I made I found that she was a weak
woman and had had the small pox during the
winter season. To day Abraham Lincoln was
unsuccessful in presidential by the Republican convention
as Presiding at Baltimore I saw that the Sheriff
had been appointed by the House and determined
that Rankin is to stand again no much
matter he deserves all sorts

THURSDAY, JUNE 9, 1864.

Quite boary and windy today I was still busy in the morning writing my convotions they we had a trial of a man by the name of Grimes in Steamer a Quaker Arrows except half with all his medicine and Doctor Butters quite a left from other stores place in Belknap but the poor man was laugher and sent to jail for trial at the session we had a real case of Walter Henty and her husband today she was sent to jail for assaulting her she seemed to be a light person I was quite unwell today and not able for my work in the afternoon we held a Hennigh Patterson against Swift today saying he a boy with no less than she was an old servant of Thomas Hobbes and aggravated with Helen a child of southerners blacks died this morning very suddenly from inflammation or congestion on the brain

FRIDAY 10

Today it was very cold and disagreeable I was out very early we had quite a race with an old ~~man~~ off on today between me and a John Brown the John Brown was not his right name he was an Irishman from Maryland cross Bill from his firm and Brown was sent to jail I made out my best of volunteers in the afternoon and quite a long string it made in the evening we had a church meeting where we resolved to build a church and we appointed a committee to carry the same into effect Mr. Marsh news today sold up to \$148 which is the highest it ever was but is not making much headway and there is a great shipment of gold to England so that is the reason why the gold is so high today James Hobbe was able to be at his office Parliamentary news unimportant Isaac Bachmans Committee is the majority of them in its so Isaac may have a warm time of it have out another sum no af ames Shely

SATURDAY 11

To day it was very cold in the morning we had Shely on today but the weather was indifferent Philo Pepple was such a blundering scold that he could not conduct the day and so was John Lee and Pratt the whole thing was a mess up affair totally wrong from beginning to end I found the Obi this afternoon I bought a book called Butters anatomy a very able work \$82 it for 30cents a Report was readed that afternoon that Lee was dead but I didn't think the word is facts & thought in the Northemers sold his father about I cuts today hot news of much importance Sheriff we know arrived to day not much in the store today this evening very cold quite cool I made out parts accounts for the day this evening Helen was not very well to night the felt bad with her stomach

MONDAY. JUNE 13, 1864.

Yesterday I went across the river town and have a walk with Mr. Bent along with me in the forenoon the bad on the New Street, went back again in the afternoon and heard a particularly ugly sermon on the state of the church to the time & he gave them a good talking to and his remarks were very frank, but much to the point the day was very wet throughout like the season of the year I read a little ~~on~~ Dr. Arnold's life by Stanley Today I have been busy with preparations for the session both with my own and our Port accounts, no other business today Peter was up at Mrs. Davis' Peiping this afternoon I saw a man that had bought 500000 lot at Shantung late, I warned him of it and did a little research on the head of it but I dare say he will go or all right the close of today has a terrible excitement on the news of the Smith attack Victoria College MacLennan and Kelly the Deputy ~~and~~ ^{and} Clerk from London express positively that the latter ^{attack} has taken place in the Shantung Office

TUESDAY 14

I had no time today we were busy preparing for Master sessions and I made out Port accounts and my own and got the certificates of our books on them No news of any importance today I went and moved my things in the cupboard down to the office below and got the cupboards moved down the hall as getting into a situation they commenced the ceiling falling and it is becoming loose from appearance there will be a test to before the house this afternoon what will be the upshot it is hard to say but it is confidently expected that the ministry will be defeated and then a new election we had a fresh meeting to night and pretty near decided to take a vote to separate lot on Shantung street

WEDNESDAY 15

To day I have been very busy sending off my accounts to the Seignior Committee in Toronto being to a little over \$32 kept copying my lists that is the assessment roll in the ~~receipt~~ council on the afternoon saw by the close this morning that the ministry were defeated last night by a majority of two on a motion about \$100 000 that had been given to the Grand Trunk Railway through the city of Montreal which has been entirely lost to the province last evidently got very much help out by the vote as it appears he threatened Boston with a cessation of all personal friendship between the two had an extraordinary sum sent to our house this evening a sum by the name of Major that live in the rear of John Black's house was so ~~bad~~ vain and foolish as to celebrate his fifth birthday by a general invitation to the children in the neighborhood and others they passed and around themselves all were and were so popular to station the whole neighborhood in poor health to day

5

THURSDAY, JUNE 16, 1864.

To day we had a real fight with Shely. We began from Toronto and went up and conducted discussions on the Corporation and Pharr and Peoman for Shely he kept them all in the utmost good humor by first refusing them close to the law in fact they backed out of every question to having been on the side and pitched into Kinn and Mrs. in fact he raised such a cloud of dust about the eyes of the jury that the just men gave a verdict against us but the other two juries gave it in our favor and they accepted a verdict in the third case so that we are all safe and well put Master Shely ~~through~~ on all occasions I paid him £100 on his fee and he went down to the evening train to Toronto along with the ~~gentlemen~~ who left this evening in the Lakes to attend the races tomorrow. The day has been very hot no appearance of rain long strings of parched and hot

FRIDAY 17

To day I spent my day my assessment Roll all day I was very busy here I did not go to my office I wrote a short sketch of the Shely trial in the Kinn and I printed up a good deal and I gave George a copy before from the Globe this evening they have no change in the ministerial position in fact it showed to me pretty clearly that something is out of joint somewhere the absence of the Colombe as all South Richmond now on the James River the day has been very hot and sultry I was hardly able to write in my room we had no other business to day the Quarter Sessions finished today and the Judge last round of the business of the Pleasantry Wallingford has gone back to this

SATURDAY 18

5 To day I worked hard all day at my assessment Roll and got ~~to~~ ^{the} about one hundred of business in we had no other business to the evening when a letter from Detroit came open and made an assault on and the in the Great Philip Temple arrested him and he was paid for thirty and paid five dollars and costs the day was one a great day in wonder over the arrival of Mason's Jubilee the account was well papered over written by Mr. McBrown and exhibited the whole company in a very ludicrous light. I understand the blacks in the depot are very much annoyed at it and don't like being held up as under the influence of the room, but they must just give and bear it I gave the teacher to day of the colored school a check on Mr. Brown for \$15. The weather is very warm but no appearance of rain It appears from all I can learn that Brown and the Ministry are settling the government difficulties between Upper and Lower Canada

MONDAY, JUNE 20, 1864.

Yesterday I went over to St Pauls Church Street
and heard the celebrated Dr Lightner preach from the
one of the best pulpit orators in Detroit. There was
less noise than in his sermon but there was
exceedingly a poor deal of variety and as the
sermon had a good deal of power in the body of
delivered and another statement of the Dr. Wards
life by Stanley yesterday, so day is still very
burnt. I added up my book that is the Ashland
roll today and I find that we had in hand
numbers about 40000 taxable property in Warden
the weather was so unusually hot this evening that
I actually went home and sat outside in the
garden so as to be able to add up my roll
The arrangements between parties are going on as
the government buy wife so the Globe says what
they the wifes it is said today
gold started up today to \$205

TUESDAY 21

To day intensely hot and as appears we have
had a terrible day in the Police Court today two
fugitives had stated a Porter book from Nibley the
sherman and he hurried in arresting them and
they were both sent back as they confessed that
they had taken the porter book. We had also
two on being drunk and disorderly and we had
the trouble some use of Robinson and Coleman for breaking
Robert Long in the Summerville day. No news of any
importance today further than that gold sold Marshall
\$2.75 and arcade back again today to \$20 which shows
a painful state of affairs that is the money
open only with ~~the~~ 145 rolls to the dollar there
appears to be no conclusion made yet as to the
negotiations between Brown and the Government
but it is expected that they will be unable to day
but will tomorrow. Not even give us a general
idea of couldnt this evening Mrs Clark died this afternoon

WEDNESDAY 22

To day I was very busy I therefore avoided
this day to the schools we had the examination
of Raynolds Miss Williams and also of John
the Swans. The children are evidently making
progress Miss Williams girls did well in
writing. Louis did very well in geography and
the ceiling in Louis school was put up all praise
Today we had an unusually hot but we had
well shown which must have been the
most a great deal of good of hundred trimming
at times wet and Mrs Chapman came up
to night from Newmarket or rather Collingwood
we found them with alba like and Mrs Chapman
evidently torn out from my imagination attending me
daughter I went to the theater to night to
see the great English actor Collyer and
his daughter in the play of the chimney corner
and well he did it he is a splendid actor

THURSDAY, JUNE 23, 1864.

State by us ready at almost noon without audience I went to his rooms at hotel in the morning for you. Then went as a full mark to Mrs Clark's funeral we had a very hot time of it and she was looking very bad and very disagreeable in the afternoon we had our excommunicate of a meeting for the name of Jesus for styling a pair of high top boots from Miss Clark the southerner he confessed his guilt and was sent for trial to the next Lecture meeting in the evening we got the Globe with all the ~~the~~ ^{the} news to no purpose and also Brown's speech which was on the majority production and whether he will succeed or not he evidently doing what he could to do the best thing for his ~~country~~ country mainly Upper Canada we went to James' pub for a short while this evening with our friends folks who stayed with us to night.

FRIDAY 24

Today Mr Hayes gets up early in the morning and I went to work his office the day was excessively hot all day this being John Abbott's day calm was no present, and there was no police business to day I did not do much in fact our office is so hot that we param can hardly stay in it, it is like an oven probably enough to say I no news of much importance I sent Mr Black back his ticket with a note stating that could not be with him at the excursion no news from Parliament of any moment additional what we had intended the day going on to finish the business of the session and then the numerical arrangements were to be carried into effect very little from the army the Potowar etc a paper from George Russell today from Ryne showing that he has commenced business there

SATURDAY 25

To day the very warm and sultry I did not do much work today my fire was as intensely hot and sultry but this very hot & fresh air stirring in the afternoon however we had the trial between Braudleman and Robert Griffin Griffin was fined three dollars and costs on the sum both day and he was discharged toward night & closed up a little and remained very hot & apparently ended all in a flurry with nothing else but a gust of wind it kept very warm all day the day the thermometer was between 90° and 100° all day sold \$2.20 better business across the road and bought a few things with the American money for home my old dog today and put it down in its form all appearance it is to be a great help dogs Parliament is going on with their work and will propose about the thirtieth of the month no further news of any importance

MONDAY, JUNE 27, 1864.

Yesterday I did not go to church all day but stayed at home and kept the day very hot and sultry and very cloudy with the frost kept about & I think my old comrade who the clouds stopped wind to the west and blew a gale from the east and apparently produced a few thumps being quite lost today it is quite cold and a thing the wind still in the east and as far south there is a report that there is a great fire in the woods north of Muskegon what is the truth of the matter it is hard to say what may be the aspect as the weather is very dry and the crops suffering badly in view of rail road news money state going up and up Amherst dollar goes only worth 143 cents or equal to \$3.45 for gold that is about what will be the end of the American Civil War it is hard to say it is dreadful the amount of blood shed on the Potowatamie the council was this evening and appointed Genl Hiram Mullings

TUESDAY 28

To day we had a trial between the woman and French and a man at Walker's Mill No Bill and his daughter came up to day so as to attend the examination tomorrow the land has been very dry and rain of late the crops are suffering badly for want of sufficient rain indeed the whole country has suffered and getting parched and very dry Mr Bill told me that he was sure he saw bats flying out at night in his neighborhood which is very flat however the sun was scorching when he went down to night and thus is some appearance of rain which we hope will take place here has been some fighting Sherman is said has been repulsed and has driven of his men there was no much in the streets to stop them all went along up things and will doubtless proceed perhaps to day Miss Brown the wife of George Brown Esq died today of consumption she was a nice girl as far as I understand

WEDNESDAY 29

To day it commenced raining about six o'clock and we had a good shower before it stopped, but we sent a man by the name of White to jail to day for stealing some money from Charles Daniels Mill it is thought that we should be compelled to take care of those individuals in the long run as do really a law ought to be passed setting them out of the country the odd fellows had a very fine procession today a large number attended and went on the Amherst for an excursion excursion to Newburgh Aug 1st last again I understand that the Board of ~~the~~ ^{Amherst} ~~trust~~ what everything that was done at the board last fall and decided to issue their trust certificates and also conduct the examination of all and consequent the whole work of the Board was of no avail all the sarcasm of long description have been used and indeed it is very doubtful whether a grave claim might not be made against the board on account of it went to Miss Morris funeral this afternoon died poor Mr Joseph in the church who appeared pretty wealthy or the members of the board

THURSDAY, JUNE 30, 1864.

Today we had a beautiful shower and the vegetation
is progressing at a great rate. The weather is warm
and sunny during part of the day. There has been some
lime in the corn crop. We had a man up from Youngstown
and desirably. At noon by the name of J. G. a
Mother from Detroit spent across the river to
buy and bought a chain hoist for the Hall at 35 dollars.
American money. I waited a long time to get it
as far as I can and I put it off. I did not know
of anything very exciting & my father then thought
back to the still adoring and secretary that had
designed from a difference of opinion with the president
and the House. Whether the boy is a fool or
not remains to be seen. A dreadful accident
occurred yesterday morning on the Grand Trunk Railway
in Montreal. A heavy freight train consisting of many cars
of iron was the track was run into a bridge at the
Rivière du Loup. The bridge was open through the negligence

FRIDAY, JULY 1

To day I went to the office very early and I missed up my traps from the room over the store to the front hall, I was busy all morning arranging my papers and getting them into ship shape so that Patrick Perry today fifteen days for a busine campaign in the States we were busy at the Hall all day and we could not do much in having ~~too~~ a town to set down in so I left in the afternoon saw by the Globe this afternoon that ~~that~~ George Brown then Morat and William Mac Dougall were soon in Cabinet Ministers ~~but~~ yesterday and started accordingly. Nothing else further than the prostration of parliament and the new ministers are all coming back to their constituents for a election heard the Windsor armatures to suffer and was rather displeased with the whole affair in fact it is a regular curse to have three floors although stage noting solo still using \$2.50 a good deal of rain fell to day no bill would come to day

SATURDAY 2

To day received a letter of remonstrance from Mr Worthington Joseph & Nigerian Buren Collier Mr Brown Sheriff of Essex and one Sir Regis Forbes as Collier Mr Brown Sheriff of New York as we know \$1000. 20⁰⁰ less levied to day
Payments made 187 2 20 " owing to day
Gold tumbling down to day they say the Gold will be upheld
and that the Gold will come down to \$200.00 in October
it will do so or not remains to be seen It is said
Fessenden is to be secretary of the Treasury in place of Chase
resigned the Army has been given him instead And John
it will continue but until a few days. went to
the house and picked up "Truth or Words" A very nice
little book given by the Colon to night that state election was
being ruined by a paper called the St. Catharines Post against
the very comittee man of Brown and John C. McDonald
given by the leader that Mr C. Cameron no to oppose
our Dougall which John is mean

MONDAY, JULY 4, 1864.

I did not go to church yesterday forenoon but had
the excellent paper of Dean Alfords on Monday
and also a paper on the State of Paris by
Lambton I heard Mr. Hurst in the evening on
Death and the Judgment he preached very
well indeed. Today it has been very warm and
there is some appearance of rain, there was a great
outpouring of the people of the United States today
of course the anniversary of their independence on
that day crowded all day with patriotic meetings
to see and to hear committed one woman Bratt
today for assault and battery of Anne Stuy
from Mersia until tomorrow I saw two girls
arrested who was drunk and lying on the street
that is a man and a woman. There was an
expression from Ingerson to buy a gun and there was
a few people at our opera to buy two noble & two duchess
and Mrs. James Butler

TUESDAY 5

Today we had the examination of the boy that
and we sent him to the assizes, we also sent
a drunkard about 15 days in, drunkenness and
offered an Englishman to go who had been slightly drunk
I gave him a quarter to pay expenses the day was
unusually fine not too warm, there was a grand
picnic today at the rope of Mr. Park it cost \$2.50 up
under what might be termed secession principles but
a large number of Canadians attended we had a hot
time & drove out Miss Noble & Alma just before and
Alma Park first and Mr. Avery next and I gave many
and give a ride a fellow by the name of Stuart with
up and delivered a speech after which they unfurled
a Southern flag to the great blow and cheering the courage
of the Northerners or Northern failing people who were on the
ground. Saw George Brown's address tonight in the Globe
it was just an echo of his speech in Parliament told \$240
Reasor Bank the Alabama of the coast of Frank the other and

WEDNESDAY 6

I was not very well this morning and eat sparingly
we allowed one bowl clear and condemned a turn to
pay a fine for being drunk a beautiful rain to day
about noon it continued at intervals all the afternoon
I did not do much to day or was very down and
not feeling well I was not in a good plight to work
I wrote a letter to Sedgwick the Agent at Toronto
to day in answer to one received sometime ago about
Cornel Lott I met a the Hall to day to Mrs. Lott for a party
to be given tomorrow night I also invited the Hall to
Mr. May's residence in McLean'sburg night next 207
of the man was laid down I served a dinner
to each the house of Dr. Dugay in McLean'sburg
but no money of the things there being still to be paid to the
staff saw Brown's address to the citizens of Oxford on
the crisis and also his article on Matthew to burn
in opposing Mr. Dougall I went across to Detroit
and ~~had~~ conveyed home Mrs. Brown and Matthew Noble
I conveyed her to the Boarding house

THURSDAY, JULY 7, 1864.

This morning it commenced raining, and continuing about six o'clock I received a visit from Mr. Washington of the Sheriff's office. I went to Sandwick after the boat business was over but the Sheriff was not at home so I had to come back again. I examined the County Clerks Office and did not find anything against the Sheriff so I shall have to work against him as soon as I see him or hear some other one gets on ahead of me. In the afternoon, I was busy with books making out what we had spent last year and above our estimate. Saw by the Globe to day that George had been tried well and found that a grand demonstration was awaiting to day. He arrived on the train I read to day a detailed statement of the fight between the Revenue and the Alabama from English papers in the New-York Times. I found a brief notice giving to day the news of the battle of Boston occupied longer for an anti-slavery Bill. Also some points

FRIDAY 8

A beautiful day the sun shone out bright almost unusual. During the whole day the wind was from the North East the greater part of the day but it was now thence by noon the wind was making very rapid strides towards growth and strength we committed two men in trial to the assizes for entering parties into the American Service. In the afternoon we took an information against John Button for an assault on ~~now~~ a colored wife that is servant there, no additional news from the war of any moment the armies appear to be in full position. No news of any importance in the Globe just then that Dr. C. Leavenworth is opposing Collyer in Georgia with the leaden says every prospect of success. I was informed to day that by the Sheriff himself that he had no doubt that they had been sold at the instance of the French & Upper Canada. I had my tray cleaned by Evans to day,

SATURDAY 9

To day it was very warm we had three drunk and disorderly that day two of them were kept in jail and one was allowed to go free on promise to pay no more of much importance to day the wind came into Maryland appears to be gathering in proportion as in 1863 North where the effect will be it is hard to say I was very nervous to day and lay down a good while this afternoon however it ultimately left me and I was then all right towards supper no news of much importance fixing the case further than that Collyer, McDougal is going again opposed by Mr. Leavenworth very determinedly and also a General Dr. H. W. to oppose George Brown will let Colby try it if he does his political career is at an end I find by the Sabbath Telegraph that a testimonial is being got up for Colby to be inserted in him on account of his return from the Ministry by the advice of his medical adviser

MONDAY, JULY 11, 1864.

Yesterday it was very warm and sultry I did
not go to church they when I had an interesting
lecture on the morality of words from Dr. George
or words and also a lecture on the trials of Paris
and walked about a little, Battams lake was
denounced yesterday to day and a case of drunkenness
and abusive language was also reported of he was
given five dollars and costs there is no further news
of a political character from Canada to day it is probable
Brown will be elected without opposition and I daresay
he will then move the Southern Rail into Battams
or rather a severe affair. Battams is rather threatened
whether anything will come out or not or if he
and Dolley it appears Brown is determined not to move at
all events and let Lincoln find his people to have been
by him forced the Northern said he ought to have had a
meeting of the council this evening and by some mishap it did
not take place

TUESDAY 12

To day it was a little colder than yesterday I went
and performed my duty till 12 o'clock of the sheriff's goods
to day I found that the sheriff's goods, in the sum
of four hundred dollars on a debt of his and I met with
W. G. Hall was the corner in the afternoon pursued matters
a little in the council all sorts of vague rumors
to day about the taking of Washington in by Battams
but as we believe them I saw by the stroke
that large Brown was returning with our opposition
for the first time in Canada the council met
to night and appointed John Watson a constable to
as to be a night watch and also passed a key law
to incise by long of day \$ 25:00 for outer works
they also had some talk about a cemetery on the
southeastern farm which John will be planted
the coming fine and beautiful

WEDNESDAY 13

Today the weather was fine with a breeze from the
east the news of the rebel raid appear in a little
more reliable communication is again very much
with Washington although it has been interrupted for
some days. I gave the by law here it set by Battams
to day no news by the stroke today I went across
the river with Mr. Green & Co and got a statement
by the name of Mr. Green out of Canada who was there
on account being a deserter & was into the Adjacent United
States and some solar from his regiment
he his office this afternoon I turned to him to give him
and me more reports by just while we were
and a lot of other papers lay on our table there
coming up tea we had a great set to us early and
on the subject of bulletins stating the bill between
and the that I read the mail to night with an interesting
debate on the Irish Schools & moved my bill
into the New room down stairs

THURSDAY, JULY 14, 1864.

To day it was very warm and sultry we had another
of those recruiting lists today John a name was given in
future parties to men or rather to enlist in the American Army
he was a poor boy fellow who had been in Bradford
whether he did anything or not it is no bad day I was writing
my papers & they all day until 8^o clock along very well
old Asylum was placed to day for being drunk and he
left his fine and went away I read back 13 hours
spoke & lay on ~~the~~ his bed and a majority of it is
was one of the very best time can not give him
communication appears to be re-established with Washington
and the Rebels fled away so far towards lowwards
& day is closed the young \$250 so that it may come
down to its old place again less than two hundred
Mrs Macmillan had a son this morning and
all going well congratulates him on his marriage to you
was very worth to day about the B of Law large sum being sent
to you

FRIDAY 15

To day it was very warm I got finally moved
in to day with all my books from my room there
we had at late of a colonel man to say who had
been drunk and dead yesterday he was allowed free day
of pay in the afternoon we had a disgusting case
of rape committed by a Southerner on a Philadelphia
woman at Parkman's whether the case is actually
is or not now is to be seen but it looks rather
suspicious, the Southerners seem to get strongly about it
and are anxious for the man's release whatever anything
will be decided to morrow or not we can tell
then I gave the man stealing our currents this morning
over the fence I gave him a bit of my mind and
told him that I would pay my respects to him no
news of any importance to day so down to \$250
to day I read Lord Palmerston's speech on French affair
to night but did not like altogether the tone of it

SATURDAY 16

Received this morning 30 passengers in answer to my Telegraph
we have been busy all day at Whitechapel the Cape card but very
little news came for lack of news of much importance to day
we are all very warm and though 70^o in London, in the
afternoon the police magistrate set the hearing of and the
case for three o'clock and did not come back until
four o'clock in the afternoon, we then went into the Strand
for two men for writing and set them both to do well
stand the trial at the assizes one of them a low
appeared to be very much annoyed about the affair and
pleaded strongly against the master when some of the
hand cuffs on him he seemed afraid and was
almost crying he said he never was hand cuffed before
no much news to day the who appear to have some sort
of plan and with all they both and have taken
of South the weather has been very hot and sultry
to day it looks a little like rain to night

MONDAY, JULY 18, 1864.

To day I went across and heard Dr. Rogers at Detroit he gave us a very good sermon the rest of the day I did not sit long they had well I read the In Memoriam on Lord Nelson and also the day dreams of a school master in the North British Review I would like to see it we had several showers during the day which were as a great deal good To day it was very warm and sultry the girls were acting in the Morning to a few Misses Mr. Scott's Sabbath School down to where they left town Island there was very little Police business to day only a Tagen by the name of Lee which we saw dug up before I acquired a \$20 green back as a pledge of the pay next of his fines or part of the fines I made out all the school warrants yesterday we have no hearing of General last night in want of a shovell Mrs. afraia who would be back last night but she was sick I made out my information against Mrs. Steppen for beating a boy of her nephew Smith President called in \$50000 more to pay his bill

TUESDAY 19

Very warm and beautiful the sun shining but Ballymally this morning Heard this morning that Mrs. Thornburn had a son cast night On the afternoon we had quite a treat with Lopoff and another man ~~man~~ ^{Member} of the Grand Jury was paid \$6 and the cost the Mrs. Steppen case was not tried yesterday on account of the absence of Mr. Fiddle I went across of the river with Mrs. Leavenworth and Mr. Jackson in the afternoon to see Leavenworth the architect about the church plan but could not find him in I bought a lot of photographs of distinguished men of modern I saw that good at half price returned without opposition by the folks in South Hartland I sent Miss Williams salary to Toronto to day together with \$2.50 pay cheques & fed of Boys dinner for the whole amount was \$8.64 No news of any importance from the South today \$2.62 and holding these received a letter from Mr. Bell with cheque on bank for money of cleary news

WEDNESDAY 20

Today we had no Police business to day & a windy wind north to day nor rain so hot as last day I send the morning that the thermometer stood yesterday at Ninety eight in the shade, an information was brought to day against Smith for making Noise and disturbance in the streets on Sunday evening Mrs. Mrs. Murphy important today I did not feel very well to day so I got Mr. Bells Money and loaded it to him in the afternoon did not do anything else in the afternoon I read to day in the Morning paper that the Parliament Government had been sustained by a majority of 18 but had been defeated in the Lords by a Majority of 9. The vote in the Commons was very large being 313 on one side and 295 on the other in a House of 609 No other news of any importance told standing steady to day at about ~~about~~ \$160 few come running down about the Arms today our Philps did not come in getting them arrested

THURSDAY, JULY 21, 1864.

This morning Mr Anderson the architect came
over and got his instructions about the church.
The weather has gone change by day and become
quite cold. I recd a letter from West Williams
to day acknowledging the receipt of the money. Also
for my book on prisons it is small but very good
and useful. We had the trial with Sturgis and
trust to day about abusive language it goes with
alimony. Truth was found this dollar and costs
we went out to a Picnic this afternoon in Niagara.
Snow beyond the border it was very cold and chilly
to walk. Miss Shapell noble was going to have the
afternoon off. We went and so I was gall for
that chattered bravely just as if he had the
upper willow is only building a bush store. Some
days had an exciting to day the Amherstburg some
talk of negotiations for peace to day what this worth
I do not know no name of the French Canadian Mission was her this

FRIDAY 22

To day the weather has not been much warmer to day and
on the whole has been rather a disagreeable day. I have for been
very well to day I was busy fitting my affairs ready for the
county attorney as there are some of the friends that
want to go jail there is a meeting to day of the committee
of Alberta Seneca and Sherman's organization of it which
was informed this evening & now truly and some compensated
Commissioners have been meeting at Niagara Falls for
peace but nothing has come out of it as the only is
the thing to slavery. I had to hear President great speech
on the non confederate Western against the government
it is a majestic effort and goes very fully into detail and
gives despatch. The before Correspondent says that he
intended Lord John's big language and Malvern when he
was addressing to his diplomatic. No policy lessens to
day make out trip other information due for assault and
one in a search course will about some neighbors
down beyond Mr Banks their names are Miller Rubin and others

SATURDAY 23

Mr. Smith left this morning I finished Gladstone's celebrated reply
to Mr. Israels I think it is rather the best of the two speeches
and seems to me to be a triumphal vindication of the
Ministerial policy. From what Mr. Israels wants to Africa
it will I was busy the rest of the day writing out
orders and fitted in the City Books who were all anxious
to get their luggage out and then I did in a post office
or prosecute the little boy who was running in opposition
of some very rude all the afternoon and then I was
able to hold up my head and I did go and a while
there was some sort of a play in the hall to gather but
I had great difficulty in collecting the sum and
in consequence I left it with Mr. Glaser to do
for me our little boy Nelly does not appear to be
very well we think he has got cold he has a stiff
neck wrote a letter from Mr. Bill Achard today
the receipt of the money sent him by me on Wednesday
in for gold \$355 Atlanta paid Mr. Glaser
this day it is

MONDAY, JULY 25, 1864.

Yesterday I did not go to church in the morning, in the evening we went to church where we began the affair of the French Quadrille dancing. It was well pleased with his discourse and in fact it is the best discourse I have ~~seen~~ seen in a long time. No other matter worth speaking about there was a very heavy shower at noon which just as we were going into church, today it has been very warm and hazy all day towards night it changed and lightened a little and we had a few drops of rain. The ferry boat men made an unfortunate against Arthur Lee in favor of the Ferry while a Justice, with a steward called the little eastern they seem to be in an awful fever over the affair and are going to do their very best to upset the arrangement of the Ferry, for this took up a meeting of the council in the evening last failed for want of a quorum. We had a disgusting race today between a Mrs. Miller and a Mrs. Jordan on account of the extraordinary speaking of Mrs. Jordan's grand mother who was put in for the loss of poor noble son burnt last night by many with a lamp on his life by

TUESDAY 26

Today still very warm and humid the Ferry men were in a great sweat over that eastern to day because a person had not been made or him the captain he having been absent when sum served him with the summons. The Ferry men are like a lot of dangerous children, totally unable to do business they guess they and think because they have stuck the same of 65 dollars that we must be all down on our faces to them and all more be their servants. I was very busy today in making out presents I made out my passport the next day lost in sometime the news of much importance some talk of a guard being put on at the Ferry stop paddling from Conway orders, not much news in the close the seems to be a sort of pull in that sort of thing I went to the panorama to night, & the view good one the painting is indeed very fair

WEDNESDAY 27

To day it has been very warm and sultry we have been engaged all day in the Ferry race Mr. Moore appeared in the Services and had in the Pindar. It was very interesting and the By Laws and laws of the Province were very fully discussed and various opinions from the magistrates finally to the contrary Mr. Arthur Lee in the sum of six dollars and 20 cents in the afternoon I was busy getting ready my school estimates which we brought our the young at a meeting of the School Board we agreed to make a resolution on the council for another of \$3000 for our fees estimates it is pretty steep and will be felt by the people but if the people will insist on putting in such men as Conroy onto the school board what we cannot help is they will keep down on Bush a state of things the baby was not very well today and Nobles by that was about as very bad and of course inflation after his discharge was \$112 behind him on the first day of Milling

THURSDAY, JULY 28, 1864.

Today my term and salary. I was busy all day in preparing my estimate for the coming meeting of the council. Heard today that our people had been beaten by the hundred majority. Strong numbers to play off another number of Rebel Raid into Maryland. What it will probably do is hard to say. No other news of much importance told Supply down town to Stewart. Will be pretty large for rear the Council met and passed them all through and imposed a rate of 25 cents on the dollar which is a pretty stiff rate but we agreed to take about \$10,000 by assessment so that it is a pretty stiff on the whole. The by law was put back August Month, and the special assessment an estimate to be made by a practical man well skilled in water works. James Bell left the Metamora today in being disbanded with his pay and the work. Saw my assessment roll to Stewart to-morrow & day

FRIDAY 29

Today is most intensely warm. I think the hottest day of the season I spent my minutes of Board of School trustees and also my minutes of council over the day being so intensely hot that I did not do a great deal of work I am going to make out my minutes and therefore have no work. But thus leaves me, a sort of general leisure the whole of the people is much fagged out and they by the warm weather I went across the river this morning with Mr. Bell and Grays and got them aboard of the train to the settlement. No news of any importance from any place I believe Young Great is considered dangerously ill and scarcely expects to recover the old man however thus now alive in our of Dr. Green's house died today before yesterday and was buried today I understand he died of consumption the sickness case of Margaret Hudson was postponed until Thursday next

SATURDAY 30

To day most intensely hot the hygrometer ranges from 94 to 698 in the shade. I copied some books and things for Mr. Dowell yesterday which I forgot to mention in my diary. The relation of the care of poor persons there in the country. Mrs. Bell and Stewart were home from the settlement. Mrs. Davis was not very well to night, it appears she had something like cholera morbus or something complaint. I wrote a short paper on school matters for the Negro Education the action of the Board in uniting the schools together no news of much importance over a letter from Adam Bell at London enclosing \$30 Canada funds to purchase him an escutcheon ticket by Grand Trunk and keep the balance in their bank which I did. I also sent the whole affair remittance and letters to him by noon blank mail. Very little news from the coast today or from any place else farther than that Major the minister for Pittsburgh died on Thursday

MONDAY, AUGUST 1, 1864. Tues Grand-dad Saturday

Last 18 to
Date
for purpose

Yesterday I felt very unwell in the morning and did not go to Sunday School but for a little while in the afternoon and went with Helen and Mrs. Hill to the cemetery in Detroit and saw Willie Hobbs grave and took a stroll round the grounds they are beautiful. It rained out and was very pleasant yesterday was hot and sultry there was considerable of storm passed north of us on the coming this is the great Parker day to day when all the Sundays will turn to day. The Western Court sat to day and a few Republicans were here despised. There was not many of any interest I have heard the news of nothing true but don't know what the result will be. It gone on a tremendous rain above three o'clock and thunder and lightning it pound down as if it had been out of buckets. The poor colored folks look like dragged mice or drowned rats. All their dresses were spoiled and ruined with the rain. Total to Uncle James with a tax to higher. The Federal have been repelled before Pittsburgh Gold up to \$2.00

TUESDAY 2

Much cooler this morning it rained pretty much all night the wind shifted to the north east and last so day I finished up my minutes and finished them in time for dinner. I wrote the Provincial Secretary applying for the Niagara license agency also wrote to Rankin regarding the same but I did not do as Mr. Dubois with the right of the longitude I spoke to him about the matter and his going to write to Hardinge & Co. tomorrow about the same thing I went to my County funeral in the afternoon the Militia or rather Colbyton company turned out and marched to the grave with him they marched very slow and it was darkish before we returned from Sandwith so how was the procession the band a salute over the grave no news of much importance since the ~~recent~~ confirmation of the Republic before Pittsburgh had a long talk with John Smith who has recently come from Texas.

WEDNESDAY 3

To day it has been very warm there is no news of any importance of importance my other business in the Municipal election we had our Police business to day with the exception of a woman who was up in stealing and who was discharged on account of no proof appearing against her I and Helen went across the river in the afternoon and saw Mrs. Bell on the road I took the communion service of the Amherstburg church down and put it in the hands of James Bell to take to Calumet I also wrote a letter to William Russell by James Bell relative to his brother's money the day looks beautiful Thompson no news of much importance worthy worth recording here

THURSDAY, AUGUST 4, 1864.

To day I wrote a little sum on my voters lists and we had the examination of Mrs Hudson today for Savery, it was a very foolish and impudent case but Charn did not give pledge ~~that~~ in or later tomorrow.

In the afternoon I got the rest of the Sheriff's Money and I mailed it to Austin and Sullivan as directed by them in a letter received to day, also as follows ~~for Austin~~ \$600

One order	13.70
to which add sum of money due -	213.50
being the whole amount of Money collected as follows account of debt and costs £57.4.3 with £8.3 months interest. My fees are ten dollars and ten cents on the whole affair as yet although the Sheriff owes Mr Austin dollar, Mrs Davis was at tea with us, this afternoon. I heard a rumor to day of Raetz and all his men being taken together with three other Regiments of Cavalry. No other news of any importance. No papers at any time during day in the state.	214.30

FRIDAY 5

To day we began to discuss the case of George vs Fisher Lasson & others Mrs in the court of sufficient value in the articles and then being no felonious intent apparent in the transaction so that each party was allowed to take the things they could swear to. No Lawyer came up to day and we voted into maps & in the schools we agreed that the Catholics should have \$30 Protestant \$50 and colored \$10 their loss what we considered an even matter between all parties I issued us passport to day I was busy the rest of the day on the Roll for the State by chance when in the evening I received the globe stating that an unbroken line had come to between the United States and England governments relative to intercepting Coal when the latter agreed to prevent the importation of the article from Canada. And Gull's letter to day, which is very clear on these and his financial bubbles. No other news told 8200 to night

SATURDAY 6

To day received letter from Capt Sullivan acknowledging receipt of money in last mailed to him & Avash no police business to day I was busy all the morning writing out my voters list for Mattocks election there is no news to much importance there seems to be nothing in the papers going into Whalley and going down the way of Pittsfield whether they will run or not is another question I sent a letter to the Govt Superintendent to day saying that the name of no man at our Superintendent's home across the river from that time to day has not pay anything I came home and found father in bed both Mrs Davis attending her and about seven o'clock she was safely delivered of a daughter mother and daughter are both very well and so we are all at ease and anxious for her to suffer down the best we can to get along nothing of any importance in the globe & higher up in the newspapers about the chase of the murderer of Longfellow in London England

I saw I yesterday we got along the best way
by road and stayed at home all day with
children quiet. And when we along very well and
we seemed doing well so day it has been very warm
and it was busy in the forenoon making our papers
against a number of boys that come to swimming
when they are appeared to have charge excepting
two foul if them were found to be a pair and the rest
the balance were summed up to money no more
of any importance today farther than the reverse
was bulletins and wage numbers I sign one
hundred dollars to ~~to~~ Toronto today in maps
of the schools it was divided as follows \$50 in the
white Protestant \$30 in Catholic and \$10 in the
colored. I mailed and signed the letter & that
I advise it all went safe when had been a little
bothered with some complaints of night and pains
using them from Richard ~~for~~ passport to day

TUESDAY 9

To day style very ^{warm} and oppressive we had the
two boys for dinner and the wife this evening in
Gowrie in the tone found the same as the others
and then the men very fond in being drunk
I made out my Roll to day at one and worked
at it the whole day. I do need that ⁱⁿ some large
work our by law of water works again and that
is required a preparation of two months before the
vote was taken and then months before the said
passing thereof and also an estimate of how the money
will be spent. I wrote a note to Mr Small calling
his attention to it I received a letter from Mr
Ple to Major Stating that William Russell had not
received any word from Scotland about the money
so I intended to write tomorrow on the Walter
& Binnie letter progress pretty well to day
no further news than that Berger was likely to take
Mobile and that he would be up into the City soon

WEDNESDAY 10

All last night I have been up with the baby he has
been very bad with his eyes they both watering
and pulsing all night pale & worn this
morning heard that Emma Rice Ryer's daughter
died the last night of meningitis by the bursting
of a blood vessel. The baby a little better today
we have kept him a good deal under the influence
of opium all day so that he has been easily managed.
The news the late few days appears to have been favorable
to the liberals they are especially young Blake made
a speech at a rally from William Clark & Brewster
gave tickets to Boston which I did and sent them
by the evening mail I sent a letter to Babie this
evening and also wrote one to Mr. Bell to be
sent to-morrow morning I have been unusually
unwell today all day I eat nothing until
tea time so that I fasted 24 hours, very little
news to us but a dreadful news I think the South
is as trying as ever for a while to day the number of
Southern sympathizers have sent over into Canada headed by

If it is still unusually warm and I should not be surprised to hear that this is the warmest day. When we were it is said yesterday was ~~too~~ up to 98. And to day in the afternoon I saw the thermometer at one hundred (100) on Mr. Taylor's steps. I believe it ranged to about 100 to day for the first time I think in Wmson although I did not feel the heat so bad as I have on other days, but I was pretty cool in bed this morning and I made out about 80 degrees to day. So that I did very well in a pecuniary point of view we had two cases today from the soldiers detected, to which were both discovered the one was Mr. Butterman who had an unlawful weapon in his possession namely a rifle said to belong to the government of England but as the man had no evidence that the gentleman knew about unlawful possession of the instrument he was discharged another one was brought up because he said that he had been offered some money by a Negro to try and betray Roslyn over to Gibralter but as he had never spoke to any body on the subject why we could not bring him in.

FRIDAY 12

Stay extremely hot and disagreeable. Had rather a curious
experience with a Baby which had been transported in on the train
and left in the car without a mother. The station master
tried to have it fostered on the tour Mason or
now but I bluffed him off and sent him about his
business with it. Good people has been after the child ever since
we had no Police Officers today sent an information against
a Mrs Shryock for assaulting the Rose Martin, by throwing
stones and bricks at her. The day was very hot all
day and the wind from the South west third was a good
many thunder storms passed round to north of us. Last
evening, though less we saw a good deal of lightning. I was
easy all day in exposing my legs. On the Waterford
election I gave Captain the order from duty for my
Balding to my Island to Accrington to have a reception.
The evening was very warm and disagreeable. The Baby
was some better & they had no news of any importance to
any

SATURDAY 13

A little cooler to day and some appearance of rain. I was busy writing over & the day had a long chat with Mr. Barber, the General. He came to San Jose last night by boat as soon, apparently, nor a bit older, we had up the ship to day for delivering the mail against the Rose Makers. The was paid \$3 and the cost of my passage the day in the afternoon and the time I spent trying done so that they should go much better than yesterday. I bought back / burden by Lemmon a very beautiful tray, but only a trifle work. I also obtained a few photographs of Palmerston Russell Boden and other see had a good show to day about twelve o'clock and also saw drops now and again in the afternoon the Ruby was or rather her little chick is very beautiful his colors were very nice in spite of dark eyes hope you shall be enabled to get him through although there are afraid very lame to night.

MONDAY, AUGUST 15, 1864.

I am yesterday I stayed at home all day and
mussled over alie. he was very ill and they stemed
the getting weaker and weaker and his bowels was
very bad and in a very deformed state I read the
beautiful Poem by Semper of Knob Arden & even
read anything better but had a very poor nights rest
alie was very unwell and very troublesome all night
I went for the doctor this morning and he gave
him an additional dose of medicine which left him
in a stupor all day but I suppose it stopped
his bowel and kept him quiet until we could get
time as it seem to do something by having rest
us on the stretch all the time he passed a very
large form today or rather threw it up I have had
a very ~~bad~~ ^{bad} day among passengers today
several ^{of} attempting ^{about} \$13 to 25 to 30 from
passengers today no news of the money sent to educational
department yet received a letter from James May Jr
a letter in Grand Frank to date TUESDAY 16

Today it has not been so warm the was a slight
chill on the night which lessened of the air in the morning
the day has been cloudy and threatening rain all day
there was a large exaction from London and other parts
to day numbering about one thousand people I was busy
all day at my voters list, we had no Police business today
but boy alie is safely back to day but he is
very pleich and had take care of Helen and the
Baby are doing very well I sent James May tickets to
him to day with an enclosure of \$50 American money
hereatably leave in the ball this evening playing
the Lady of Lyons I had no time to go up & attack
at home and took care of my boy very little
news from the tour to day I heard of Carafuts going
into Mobile bay and passing the fort making the
officer blow up and one of them surrendered death
wrote they to hole expeditate fleet with a loss of 240 men
one of the monitors was blown up by a torpedo

WEDNESDAY 17

Today we had the look-up date heat as on many former
occasions, the celesticent case all ended in brush
the witnessess were bought off and consequently the man
went clear the other two for being drunk and disorderly
were convicted and fined four dollars each one of them
spit the fine and the other went to jail I wrote
the chief Superintendent the morning after noon about our
maps, I also worked all day at my voters list getting
it ready so that I may be able for my work on collectors
roll I was told by some to day that he had been
misled by George in the sum of \$600 having paid him
wrong or rather by George Whedon him self for it
is so an awful state of affairs when a lawyer can
let his agree to settle another man's money by
judges he will have to pay in partially finds some
right and he will never suffer for his devostion
to \$600 per

All is slightly better to day their state very vacantly
and the roads very bad one of the skirmishes between
was nearly killed this afternoon by falling out of an afflete

THURSDAY, AUGUST 18, 1864.

To day it was much colder than usual we had the guest
an Englishman in the morning who was drunk he was
 fined \$2 and the costs. A MacDonell was here in
 the afternoon he has been sick for sometime. And became down
 town for the first time to day he looks rather feeble and
 under the weather bad but will soon recover now he gets along
 or how he manages matters. In the seems to be a very foolish
 man in his opinions I went across the river today and
 bought another Philadelphia for the town hall at \$1000.
 An American money usages the date I bought a copy
 of Jennings Poems today they are old one or two
 years old to help me recall his globe it as usual had been
 left out of the train somewhere there is not much news
 of any importance to you I have not heard many reports
 today as there has been few applying to them it appears
 that the draft is up on the 1st or 2nd of September
 last when they will put the things in force or not is hard
 to say also its slightly better today

FRIDAY 19

Today I was busy in sometime on my books but
 after it was in the forenoon in the afternoon I was
 busy getting up the 6 chamberlain I bought in the town in
 & drove and getting them put up there is no much
 news of any importance either one way or another
 today the day drags along its slow today
 the day has been very cold and aish wind from
 the north blowing steady all day the smoke has been
 quite dense and foggy in fact almost obscuring the
 days of the sun. There was an excursion of the Methodist
 Sabbath School today but the day was so disagreeable that
 I feel they had not much enjoyment on the health toll I saw the
 people to day with some I suppose concerning his Jimmy
 Hopter I wrote a little in the evening at my last visit
 some folks came in and stopped me
 It would rain to night wind still last and
 cold no news of our money from Toronto yet
 nor maps in the

M

SATURDAY 20

Moving and running from the last heavy the morning
 and continued to fit intervals all day Gross busy
 with my books all day with the exception of the
 time when we visited a man of Greenbank and
 sent him to jail. In the afternoon I took my books home
 and worked at them all the afternoon until news oblate
 at night when I finished making out a duplicate
 list of the second ward. There was not
 much news today Miller Baby died last
 night and is to be buried tomorrow his master
 has been a singular one of drunkenness and shrewd
 and fraud a son they who pays nothing and
 has claimed nothing his family has been kept by
 the kindness of his friends for sometime I had
 a little of Jennings today he is beautiful in
 some expressions, but is not very well yet he seems to be getting
 down to chronic diarrhea

MONDAY, AUGUST 22, 1864.

Yesterday I voted to church and Sabbath School
and spent the rest of the day at home. Today
the day was a sort of dull plug of day all day
the boy was very poorly his bowels worked up over
enormous size and his evacuations were very
large. To day I finished our votes lists and found
315 names in the State bound 145 in the first ward and
27 in the third. There is no much change in the
political complexion of the affairs least I should judge the
agents have lost nothing in the new list, I handed
them over to Mr. Wiley they left of the Place this
afternoon. I spoke to them before their and Sarah
Wiley I left the Hall up Mrs. Cowley and I
was not entirely pleased with the Agent &
thought the 18 business would have done better than they
had. Issued a good few passes to day and I
received the following 20 passes from Wiley. Mail
from Quaker

TUESDAY 23

Poor Jim was very sick all night or at least
most part of the night his bowels was like a perfect arm
and he could not be at ease at all. Spoke to the
doctor about him today and he made out a
new prescription for him. I got some that lentable
on a collectors role today and had it served up and
commenced to make out the collectors role. Then poor
made out an information against Shely today in
Sibley liquor without a license. I read out the Summons
in the evening we had a church meeting and
we came to the conclusion to advertise Dr. Stevens by
the first or second of September. There was a poor
party in the hole to night Murphy got up by
the bad frame in gambots etc. The day has treated
him a little to day he sent me back to bed
to day for drunkenness.

WEDNESDAY 24

To day it was quite warm and sultry and
towards evening threatened rain. I worked in
the morning at my collectors role then the Shely
else home on and such another case never was
heard of the boy Wiley swore that he never sold a
glass of liquor. In Shely that he had orders not to
sell from Shely another scoundrel came up and said
that Wiley sold was about the bus the inferior Italian
I believe done to a falsehood it is positively disgraceful
the way the scoundrel lay on but we will try and
match him. Then heard today that old folks had taken
upon Dick Christian son and sold him as a substitute
to the Substitute bishers is it not awful to think of
the thing. We found a man for being drunk to day
\$400 and the cost which he paid in jail.
Also state about the sum of anything I think
a little better we had mess balances to pay this morning

old Tom hole and to day

THURSDAY, AUGUST 25, 1864.

Today it threatened rain in the morning and we expected a heavy shower but it passed by south of us and then blue & heavy sky all day from the west. I was busy with my collector's roll today. I made out an information against Phelps our leader today for January 1st long term of peace to day again it is said commissioners have gone to Washington from Washington to offer terms of peace or some kind of truce. I gave Prentiss a certified copy of Lecture By Law to day for the purpose of having it up in time. I wrote to Matthew Clemens enclosing a copy of my law to him with instructions to attend to the matter before the court of Queen's Bench or whatever court they bring it up. I left 815 to the government today for my passport and stayed a few to day again this to day that the murderer of the gentleman in London Railway carriage had been arrested in New York he will get his deserts. Some bad news heard today

FRIDAY 26

Today it has been quite bluster and showy all round but very little affected on us we had up Phelps man for perjury today he had escaped to London and law was obtained to London after him and brought him down on the train this morning nothing very developed itself on the case today in view of intervals. Mr Worthington made a patriotic attack on me today on account of not being taking the evidence right. He is a stupid infatuated blockhead and evidently knows very little of the common usages of Society. In the afternoon I made out summons in a large number of places among the set was Hinton Portion Leavenworth and Garrison. I was busy in the afternoon with my collector's roll I wrote at an hotel lying or when I say late excepting the time when we took Dick Wilson I had a late ride of him the evening last quite cool and a bare blooming. Very little news or any importance

SATURDAY 27

N

Today it was quite cool and looked real like Fall weather. Mr. does not improve much Dr. Gilbert has a little child something in Adelaine way but she took tonics and got paralysed on one side the other seems very down about the matter you had a long trial today on the perjury case the whole of the evidence taken brought up by Garrison the most hearing as heard by the superstitious that was served on them and when they did come it came as though they wanted to stretch their consciences to save Shely. There is something really remarkable about Shely, now there very often men I have seen in my life how he got off with impunity his master & dad had been discharged for local n. widow which I think was all right though no news of much importance further than that Gold has fallen as low as £1000 & 1/2 which is the lowest it has been in a long time there has been some desperate fighting on the Wildon Road below Pickering & it would appear that it is a battle now with them.

THURSDAY, SEPTEMBER 8, 1864.

Today has been a fine day all day I spent on the whole day and finished my Appendix to true very nearly complete but how tedious is the job there is no end to the repetition in the legal documents in Police business to day James Noble was taken very sick to day with ~~yellow~~ Colic and was therefore unable to go to his business There was a Land Sale to day on the Cuthbertson farm When they sold about \$4500 dollars worth which is doing very well and very good prices were made so same total we had a meeting of the church bodies to night and resolved to go on with the building as far as we have means this is to cost it in and plaster it I had today a very good speech by Howard at Auburn in which he tears the Democratic platform to shatters and shows that it was the work of beaten commissioners sold bill to \$230 to day

FRIDAY 9

I finished up to day all my paying and read it over with care and took up two to three hours to get on ready and mounted a most terrible business as was but it was pretty well done and became very fine sometimes James Noble was a little better to day No Police business the Committee on Church Affairs met again but did not sign any contract so we allowed it to stand in abeyance until tomorrow we discussed to agree on the lot and for that Master Grindall Calumus seems to me a heavy weight on the affair in fact a perfect dead weight he seems so much afraid of risking anything that he could not sign any documents or take risks to night Prince Edward Island convention was about closing the Canadian delegates had succeeded in impressing the others with the idea of a Union of the Provinces

SATURDAY 10

To day I finished the whole of my evidence in the Wm case and forwarded it to the Provincial Secretary to be laid before the Governor General we had no Police business to day but there was a crazy creature put into the cell who had been wandering in the fields I also wrote out a warrant for the County Sheriff's luggages in settling a sum I went across to Doctor Cull bought myself a pair of Prussian boots which I found were very easy in my feet and I think will surely tend to the suppression of the Swelling on my right foot sold as state failing it marked \$220 to day with a falling market there was rumors of the fall of Mitchell to day and it may have gone up I was very much out of my convocation to day I made them all out excepting System But I got a terrible cold to night with a violent headache there was quite a storm this evening and an appearance of rain

THURSDAY, SEPTEMBER 29, 1864.

The train did not come in until one o'clock and there was a
public dinner at about eleven o'clock St. Macdonell (who
was coming from Toronto) and I got into sleeping cars and
left immediately at least I did until the train came to Bala
when we arrived Northesk it was raining and thundering at
a great rate and in every way a very disagreeable
morning when we arrived in the winter station it rained
in torrents and fortunate it was that I had an umbrella
with me found all right at home and also right
at the hall and also found that the only trial of
importance was a trial of a man in fully four
some tollgate signboard but on the grand road
he was fined heavily I found that Collyer had issued
all my passports while I was gone the day has
been very raw throughout and miserable and
I was a little tired and did not do much today
Spent on a little time in the Police room today
Received a letter today from a man named Rigg paymaster for
the first sum of

FRIDAY 30

Today it is dry but very cold we had two fellows
in for drunkenness and both were fined one was
allowed to go as he lived near Newbury and informed
of said it the other one was fined four dollars and
the cost I was busy copying of my Bill of Lading to
be printed in the claim of the streets I was
very much annoyed today to find that Shely had
been hoodwinking us about our dues I found that
he had been doing out a writ of attachment to take
the two contractors into the house of Green bush
I enclosed the notice of writ to Mr. Crampton and
asked his advice whether I should issue his address
a distress warrant and if he should say so we will
do it at once the contractor being half that he
is I received County from passport today
and issued some this day but the day has been dry but cold
cold and from the east

SATURDAY, OCTOBER 1

Today the Division court sat under the new law
men are now into free and bounded them a good
I issued them passports today and took \$5 our
of price for two certified copies of my laws the
first of the trial you know it has been appeal
day in the police court today the Judge set him
out until seven o'clock in the evening it has been
all day since twelve o'clock come very interesting
cases came on today for hearing especially those
connected with Dr. O'Halloray. I paid Shely \$21.50
for my arrows which pretty nearly cleaned
out out of money altogether there has been some
fighting at Grants very bad what it is to little
indefinite Isola keeping from \$170 to \$200
however fluctuating

THURSDAY, OCTOBER 6, 1864.

Today the wind was over but it blew furiously from the West all day with occasional showers, the slaves continued to fly. The Judge was detained very late by the boat men coming down, however he went down and espoused a lady and true a case between him and Duff we had a meeting of the Mechanics Institute at night and resolved ourselves into a committee to fit up lectures and other matters so as interest people in the coming winter, but the meeting was fair considering all matters but it was a very boisterous kind of night and after we were very disagreeable we issued summonses against Shely today and no news of any suspension from the war things always in state goes we issued process against Shely again

FRIDAY 7

To day it rained a little and was a little blustering from the west Mr Shely case did not amount to any thing but slave served his man today and he replied he to them will be a new case in that Shely evidently denied being a foreman shop kept and that his master was beat by Duff and that the lead was beat by Rankin well I also understood Eugene Neal Prince in every case where he was opposed to him I had a great fit too with the Licks to day in which I gave him and Dorney a lot of my mind which I trust they will not do me forget I hope the grand jury will be convened and sent to trial the Penitentiary Court \$15 to government today for first part and \$5 to George; in the Sabbath School Treasury

SATURDAY 8

To day we had Shely up again and he bail us on account of the representation of James Forbes and William Hutton in fact it seems that men can twist themselves to do almost anything under the pretense of an oath in just from appearance he has a sort of paleodocspir of fascinating power over all those fellows about the bank, nor much news today here seems like some activity among the troops at the Potowmack and in the west the slaves closed today all but one late and then two old Licks who sold the boy Houston, The Judge went away to Toronto this evening the weather a little cool and bleak to day have not heard that any candidate was coming out against Walter MacLean yet Spring Bullock's account to day \$4.50 four and had a talk with him about Master's Affairs

MONDAY, OCTOBER 10, 1864.

Yesterday I went across the river and got a dinner from old Dr Price or the New York Observer and a very good one it was. The day was pretty bad throughout our people brother had a meeting in the school house this afternoon at three o'clock. So day was fine throughout the rest of Cole was very today and they succeeded in convicting him and he was sentenced to pay a fine of fifty dollars. It mythos in jail and if the fifty dollars is not paid, Benjamin had wanted like a Duke but extremely vulgar had given Cameron the lie on several occasions and in fact made a most desperate effort to stop the whole affair but he did not succeed Cameron stuck to his like a leech and he was beaten in spite of himself. And he could not be beat in a more righteous cause. A black was fined for swans the confederate convention of all the prisoners but to day

TUESDAY 11

To day the weather was beautiful we had no cases before the police court to day other than Dick Anderson who was fined \$10 and costs for a murderous assault on a man by the name of Tows poor baby is suffering painfully with his breasts indeed it seems doubtful whether she will ever have to bear the baby it looks to me very little or at present (This is the day of the election in the three large states of Pennsylvania Indiana and Ohio for local officers and members of congress it will largely depend upon on them to day whether Lincoln will be president for the next four years or not. The convention is going well as usual and in all likelihood will adopt something that will be advantageous and useful)

WEDNESDAY 12

To day the fair was held as anticipated and I would have gone out for the confederate election Paul fought and John Clark assault & putting Clark was beat as he could by those and assault the race was mainly pushing up Masonville on to Clark and the trampled his top team arrested the race with costs but Clark says he is going to appeal the case to the rollers and when allowed him time to do so if he does, I read a good story out of Chambers Journal to night entitled the Dry Well a story principally lived in Memphis are one the typhus Spanish as news of any turpentine to night further than that from all appearances Pennsylvania Ohio & Indiana have all gone Republican by considerable majorities

Gord using \$204

THURSDAY. NOVEMBER 3, 1864.

To day I did my ad much Potow looking one
black man in Arising & was fired. The
wind to day is from the south east and blowing very
cold and chilly evidently blowing through Royal
Woods or any importance to the gathering there
the arrival of the delegates from the Lower Provinces
in Toronto and the grand opening they met with
and payroll will apparently be started to Laval
by a large majority notwithstanding the mean
day in which the orangemen have acted some
time I went down town to night and told them
of a meeting of the Committee of Management
on the 4th December last but did not
attend. The country was very bad after a very
cold day in fact the day was cold enough to
have snowed and so did rain but only a few
days at night received by express from Michael \$24
in down in the flesh.

FRIDAY 4

This morning the ground was covered by an
inch of sleet and very cold and raw the day
was throughout the whole day the grand opening
case of which is called Cape against Jack Buchanan
a day. I had woman from Detroit come and
lodged an information against Jack in Cape her
turn advised the law until now didn't care
she did not make her appearance and Jack was
united until to morrow morning at ten o'clock
the case was loudly as case I read the
legislative news of Towns spark today
at the Toronto Budget to the Lower Province
deputies and an able argument it is full
of meaning and full hope notwithstanding
what the Leader says no salt made a good
spark and was well received cold \$235-
a tremendous turnout in Detroit to night
being the grand decorative procession

SATURDAY 5

To day state rally our drug store was
closed as I expected there was no prosecutor
appeared as was expected there would be no
other case was before the court for a note
from Mr Murray to day or rather Mr Scott
that Mr Murray was to speak on Sunday
Sunday I did the best I could in spreading the
news of Mr Murray's appointment to Monday
and also went and bought a Parlour stone
in the front door it cost me \$6.38 altogether
laid down at the door I got back all upon
and put up my stone and banner \$1.79
worth of paper at 14 cents and the stone
does remarkably well. The old man came by
the evening train and we visited him all night
He seems pretty pale and heavy for the winter
and nothing out to day on Reunion
no news or any importance to day

THURSDAY, FEBRUARY 4, 1864.

We had considerable of a shower of snow during the night but it appears rather small this morning after the day got up a little it soon disappeared. We sent a colored man & boy today for being drunk and disorderly I wrote Mr. Bell today and sent him a third notice to the hit & run against Garrison. I made out some warrants to day and Mr. McDonald signed them. No news of much importance arrived except on the taking the census to day. Helen came home in the morning from Mrs. Richards she said the Dr informed the family that he did not think she would get better they were all very much grieved Mrs. Park is much better to day and seems to be on the mend. William Butler has been threatening with the Treasury I went across the River today and bought an Collector but there is something wrong in it says James Porter in Detroit to day he is the same old man he seems to be very better against the wife thinks she is not doing right with the family two colored Burns Regiment of colored troops when going over heard of their master the State Guard only knew no news but a hundred has called out 5000 more men again by the tenth of March

FRIDAY 5

It is still a little today at intervals all day I was busy to day trying to get into my office for Robert to coach & out the room and I brought a load of wood in a corner we had no police business to day so I stayed at home and looked in a few of the proceedings of the School trustees in the new book purchased for that purpose by Mr. on the other side of the river, Mrs. Park was not so well today Mrs. Richards was gradually sinking when went down this evening & sat up with her and I am taking care of the baby I went across the river to day to help my collector. I cleared part of the article on the museum arrangements to night they were exchanged able to look through them when they were to seven. Mr. Porter the trustee Marshall has got the copybooks in the last they cheapable weather appears to be getting worse very rough snowing into a shower this evening but it is not too cold to do much good

SATURDAY 6

State drooping a little with the wind North East, but too much. I last night moved into our new office to day in the former block when the Centrefire was, why let fire to the building. I got down the chairs from the second by the lower wall and got down my books I shall be much more comfortable than in my own house I wrote the chief Superintendent to day asking him to do a little & commissary General Lundy about the clearing out of the privy. I sat in the armchair \$15 I promised him \$13 I heard of another case of small pox today in the course of call the colored man Mrs. Richards is still sinking is not expected to get over to night Mrs. Park is slowly improving but Mrs. Richards appears to be above the danger I called Mrs. Setters one from New York at Worcester and the other from Miss Williams an interesting and instructive letter. I read a very nice piece on Shakspeare in the London Illustrated News to day

MONDAY, MARCH 21, 1864.

Yesterday was a very fine cold day. One of the coldest of the season I have seen such a cold day this time of the year, all the time I have spent in the country, in fact the winter is passing as full of ice as ever and a few days like this would evidently shut up upon what may be the effect of such very cold weather on crops is hard to say but it is very trying to the constitution this morning I think to still colder than ever and evidently we are having the coldest snap my health we ever had before. The whole day throughout has been one of intense cold the wind is from the west I took down my stove pipe day and cleaned it and put it up again in order that we might have a good heat without fear of burning we had no calls of political business today we could not find a magistrate to accost with whom to take the information against Shely will try to-morrow I sent a letter to Robertson to do as instructed by Mr. Cameron Minister here State continues with some frosty & cloudy weather

TUESDAY 22

The very cold and stormy wind in the early morning whatever the day may bring out we get the information against Shely for selling without a license from Barnard and Bloomfield we also received summons against a lot of fellows in the township for violating the laws day afterwards I was busy making up the non-resident land books to day wrote until after five o'clock I saw by the globe that the ministry had resigned and that Ferguson Bligh had been sent for to be the successor while he did not receive but there seems to be considerable confusion throughout a man by the name of Baden was killed this morning in the yard of the local Western Railway we hear an instant the earliest account he met with a car across a rail in front of a car in motion and it almost cut him in two

WEDNESDAY 23

To day still very cold and frosty but the day clear throughout and Amherst was busy part of the day with non-resident lawyers and Shely was informed of selling liquor without a license and fined \$20 and the costs were paid by Shely but he intimated to appeal so I understand at least he said so to me I made out the constitution this afternoon then went to the office still a good deal of confusion at Leiper's corner has been pulled in to form a government whether he will succeed it is hard to say I hope he won't and then he will be obliged to move away and let some of our western men try their hand again it would be an awful state of affairs to have the old strongholds back again in fact I know nothing more to be regardless of this he got the Dr. this morning to the baby he was as very ill he came twice and saw it to day Mrs. Eaton Noble and Mrs. Rutherford were here to day

MONDAY, APRIL 11, 1864.

~~Wednesday~~ yesterday I was very unwell up to two o'clock after four hours I was much better having Rhodes died yesterday morning at five o'clock they are all very sorry poor old Robert Thompson is gone up by the train the day was rather raw and miserable all day so day it was better than it has been for days day we had no news business to day poor old Robert Thompson died this morning at 8 o'clock and R A Whyte is an applicant for his wife I got the body sent away to day and all the accounts settled up and some little left to send along with the body I wrote a letter to the Father of the deceased along with the corps I give by the Globe this evening that a man by the name of Bremner was selected to oppose Hovey with very prospect of success the bats were on his track and few likely give him a good bout up the combash as suddenly and very hard to night that

TUESDAY 12

To day we had a ~~sudden~~ summary conversion case of a man for any assault he was fined three dollars but it was not paid we made out a warrant against Peter McHugh and I believe he joined us fine I made our one present to day very little news from the South Gold \$174 to day that is going up with a vengeance sum Port Arthur a great office or rather made an information against him for obstructing & taxes on my Ranch Farm \$87 another note to day from the Great Western Railway telling me that the train going to Fox the Card for old Robert Thompson was buried today but I could not go to his funeral I am inclined to think that Whyte will get his cut to the state forties in to these follows about the new money whether they will stand or not among the sum few John Hovey the banker to day all the way from Washington to New York and I still busy with our lots N.Y. and I

WEDNESDAY 13

To day was a kind of boisterous stormy sort of day wind from the west and blowing pretty firmly I received a note from Patterson this morning telling him an addition of \$50 in the time he was at the Superior School I also received the Great Western Railways Schedule of assessment and handed it to Langlois. Gold State going up at Kinsella yesterday \$175 and to day it is said it has reached \$178 which is the highest yet reached. There seems to be a good deal of confusion in money matters and long other matter the Globe says there is an opposition of Cockburn and likely it will succeed they look more reason and worth of course being if the can / the rest of the minister have all been returned with the exception of them who are not considerable or to men I sent a letter to County to day to George Russell containing the letters of Sir V and enclosed to him and also with arms enclosed the Telegraph showed me a letter from Dr Smith of Toronto to day urging him only as a candidate for Upper Canada to stand and make a good point of his lecture on the growth of English debate which was splendid

THURSDAY, MAY 5, 1864.

To day was the most beautiful day of the season (there was not a cloud on the sky) and it was warm and humid and very pleasant. I was very busy with my work this whole day until the departure of the train when Nelson was tried for keeping a gambling house. He was fined five dollars and costs. Washington took us to day that Osborne had been telegraphed to go down as the Committee were going to tell him he should not be surprised to see thing settled the Standard by his action. I read with considerable interest the publications in the globe of to day the Ministry gave after they were seated James Hale came up to day and about a dozen

In evening of the Potowm an again on the same for a little one Mr. Bradford to day and asked him

FRIDAY 6

To day in the morning still very beautiful with a high wind from the west blowing due until about 3 o'clock in the afternoon when it commenced to thunder and lightning and rain soon the wind stopped and with the east and blew quite cold. James Hale visited Shrylands because to day and went home by the afternoon boat. This was Mr. Blen's business today. I went round with the barrel master in the gall in the forenoon. No good fellow of master presented to us this morning in the Methodist church a pretty fair sermon he had a short meeting after the service. I got down with my roll to the letter S this afternoon I think will be able to finish to the moon

SATURDAY 7

Today it was very warm and humid and warm and pleasant but a tremendous change morning it has been raining a good deal at intervals all day and thunder and lightning a great deal and the rain is tremendous the whole earth is one vast sea of rain I worked at my roll to day and graded in finishing the third yard of quilt which will not take me long two parties have come and to day for being drunk and disorderly cost and fine for the day - \$3.50 and \$10.00 altogether there is not much news from papers the rest election Committee at least did not give any decision on Dennis been to the seat of news of any importance but "dry rain". Many fighting going on in the popular no news of any importance yet

MONDAY, MAY 9, 1864.

Yesterday was a very fine day in the forenoon we went to church at 10 o'clock that is to say we many say now and I we heard a very full sermon from Dr. Garfield and we also had a very pleasant walk a very light shower came on while we were coming home I say ice myself being back across the bay and read a good deal to day the morning was warm and humid vegetation is making rapid progress and everything appears springing up with great glee I was busy in the field this forenoon after having two glasses of tea for breakfast so I posted up my assessment roll in that ward I was engaged in the afternoon in setting up a society for the aid of soldiers in the country we held a meeting and appointed a large committee and chose a full corps and soon put on the committee of collection the committee has not done anything on the Rutherford case yet they seem to be lagging a good deal

TUESDAY 10

This morning a frightful rain went from the east and poured down as if our of buckets it was most disagreeable morning the far cloud still hung heavy over the United States the gathering from all appearances was very heavy and very soon Union has it that from 10 to fifteen thousand are among the wounded and missing they have & are very likely at Tucker Guards by probability of that number getting his first from from the Leader what the shot may be if so hard to say I went to Sandusky to day to make some inquiries and conversation with our President said best for Union numerical less number than the 1st and 2d regiments are going to give the government a trial on their strength as soon as possible we sent two buds to east to day for starting a letter and notes of a more material

WEDNESDAY 11

To day there was no rain in the morning but not very heavy the weather seems a little cooler and perhaps we may have a little fine weather but it is somewhat doubtful however we shall see what we shall see James and family came up from New-Hamshire today they are staying in the Sheldons house the day has been fine Canyon and I went up to Walkerville and visited the magnificent farm of \$13 in the church and came back again I then took up to James Hobbs house and we all sat all work again at the house I went out a little in the evening room in the country just that built had remained since on which some 15 feet in section it will make sufficient in all probability of \$7 or \$8000 to the Neighbors the news was that on May by telegraph and then is to be something on Saturday to night we had an unusual who with the house well as it is a regular hole house where all sort of abandoned watches stay a most abominable place

MONDAY, MAY 16, 1864.

Yesterday I was not very well I was threatened with a sick headache but fortunately I got through without being very sick we have been awfully bothered with a dead Rat under the floor so to day I went to work and took up a Board in the front room and found it and we laid down the Board when all upon Sarah they were come up on Saturday and has been trading all day to day preparatory to my going tomorrow we had a trial to day of a man in an altered bill he was committed for trial and sent to the lessors he seems to be one of a party of Ruffians who are resisting the plan all black legs together In the afternoon Mr Dougall made an information against parties in favoring a regular of animals being driven to the public stand against Gibbet Turnour and Antalla No news of any importance to day was exchanged Parliamentary news unchanged

TUESDAY 17

To day was a very fine day all through out we had a good deal of pleasure of thunder showers but none came over length we had quite an audience trial in the forenoon between Mr Grayall and Messrs Armon Wagner Gibbet and Antalla the evidence seems to be conclusive against them but they put off the case in the afternoon I was busy with a sofa in refacing the springs and upping it and quite a tough job still there was very little news from the war to day Rankin has got his rear to night to day may be fit up or off the scaffold to hard duty but be that as it may we are no certain they he is to have his seat Sarah they were home to day we had a meeting of the committee to night and they showed a large amount of provisions for the Review but turned out Revised their payents yesterday

WEDNESDAY 18

To day we finished the trial of Armon Wagner Gibbet and Antalla they were fined \$3 each and costs Mr Grayall gave Antalla's fine or his share of it back again the rest of them to the expenses of the judiciary however the day has been fine throughout and I enjoyed part of my sofa relating to the shabby to day I have yet to look at it, w^t the globe has arrived and was not disappointed at the course Mr Rankin was pursuing we have given the ministry his vote and sustained them and his name in power it appears that they have agreed to dismiss the shunp^p and suppose appoint a friend of Rankins we had a meeting of the general committee last night and chose a treasurer in and made some appropriations and then adjourned

MONDAY, AUGUST 29, 1864.

Yesterday flew to Proaths church and heard a few
words from a man whom they said was a lawyer
~~I~~ had a good deal the rest of the afternoon and
passed a very pleasant Sabbath altogether till it was
should his own master told the master is getting
unto told as him what or very terminate in
is hard to say we had a number of cases today
but the only one that attracted attention was a
fellow by the name of Robert Taylor. There was
tried convicted and sentenced today months
unpunished as hard labour for uttering a false
oath. I believe he was a citizen of a false oath
but he might complain as I know that he himself
lived on a falsehood on the side case so that he
was caught his desert this time I worked at
my collector's roll the rest of the day as busy
as I could

TUESDAY 30

This morning it was quite cool and had
continued very much cool only that the
ground was dry. I sent my son to Bearborn
today. And went back and we sent two woman
to do in assizes and largely from the press
we also sent a man to do in aggravated
assault committed on the constable. We had
quite a busy time up Leodac today in the
afternoon I was busy with my collector's roll
wrote until 10 o'clock. See that the refugee
convention has no nomination a candidate
yet but likely today there will be a good deal
of opposition to Mr. Lillard and he figures a
two third nomination or vote to carry the convention
He appears to be improving very well I hope
he will survive the ordeal pretty long very little
news from the army of the Potomac sold for down
to day to \$2.50 but closed at \$2.55

WEDNESDAY 31

Received fifteen (\$15) presents this morning. The
morning was very cold and threatened frost I
should think today we had the long use of heatstroke
under the treaty of peace count for postage currency
The audience was rather large and I should not
be surprised to see the men displayed the last
was conducted on the one side by Dr. Wm. H. Brown
and on the other by Mr. Barker of Cleveland. They
were rather explicit on the matter, and a great deal
of care was taken from the constitutionality of
the Union States came down to the question
of slavery. We were at hotel by Block in the
evening and in all likelihood will be at it until
tomorrow evening so much fuss and bother to them about
the matter

Mr. Lillard was nominated by the Democratic Party
to day and a man by the name of Puddington was
nominated for vice President sold to us for \$3.40

THURSDAY, SEPTEMBER 1, 1864.

To day I crossed to town and bought a gold plate and a half year of legal case paper at \$9. American friends we had as usual our whole day. The American were and only examined their victories. No news of any important further than the following topic of the Union party Mr. Gilpin and Davis great Calification masters and all other sorts of desultory talk and has, our trials are tried by a very promiscuous population all trying away from the draft on Monday next some present to voting in several parts whether they will be voting or not. Remains the day no other news of much importance. Very little in from the Little near to day and Henry and Annie went out along with Helen Hobie who was going to the settlement to be drafted or rather selected to jury last night Thomas B. Johnson and Joel Lupton as assessors and myself neither the Mayor nor the other Assessors was present.

FRIDAY 2

To day it was very warm and comfortable. We finished the case we had as the evidence was. I mean the extra case. The lawyers then addressed the Police Magistrate on the case in question varying from half an hour to two one hour Mr. Brown spoke for the prosecution and Mr. Bassett for the defense. Bassett spoke extremely well and very much to the point indeed as was one of the ablest efforts of the kind I have heard and he is evidently a man of great ability. Brown is a very gentlemanly man, and evidently well cultured. I was sorry to see such unscrupulous manifested by Washington. He is a complete scoundrel contemptible and it is too bad that all the Americans should suffer for the perverseness of such a man. The case was adjourned to Monday for the magistrate's sessions. The upshot to night was that Atlanta is taken.

SATURDAY 3

To day we had not a great deal of business at the police court we committed a man for cutting trees to join the Northern Army. We had no other business further than the commitment of George Walker for striking a heavy blow at Habs son as mentioned before. He was held over until Tuesday no other news of much importance I worked at my collectors office and almost finished the second ward. I bought some Stuart milk on Liberty and Longfellow Streets this afternoon the news seems to be confirmed that Sherman has taken Atlanta they are having a great repelling in the door to night with fireworks. I have a mind of low foot to night either by the trestles or by the river or something lower my foot is much swollen and holed up on the broad of my foot there is no other news of much importance.

James Muller the English Railway Minister left for England today in the hands of the Detectives

MONDAY, SEPTEMBER 5, 1864.

Yesterday I nursed my foot which was unbroken
Brother all day and then you did not go out
anywhere to stay the celebrate extradition case was
decided to go to his excellency the Governor General
I think Clegg decided against the step which he took under
commendation in Albert Place came up and he
began to argue the case from a point of view but it was
of no avail as the thing went on as usual how
he feared that Clegg was to be influenced by his
position a very pretty thing indeed such a place
of importance I never saw before, dear old
friend this afternoon who had been maltreated by
Death by shot July people and the court with majestic
appear to be very heavy against poor Martin
but one man to say he was drunk and two others
were found to be drunk no other news of any importance
Poor old Dan Taylor and suddenly at John Davies' they
the volume did nothing last night of any importance

TUESDAY 6

Today it cleared up beautifully and it has been quite a
dry day all day the drums and pipes were heard
on the streets this morning at 4 o'clock beating up to
the Review I understand quite a number of the people
went to London the less were turned back, and could
not obtain accommodation I was very busy all day
copying my letter and it along with Cork so far but
it is a tremendous job the copying by such a lot of
staff there is not much news further than the
confirmation of the taking of Atlanta and the scattering
of Hood's army out of it Atlanta and his
troops escaped the town late to night I collected
the fare from them, I am determined on getting
them kept the upper hand any more soon Rags Valley
slowly now steady about \$12.40 saw that
Augus Morgan held our election in Georgia over
no Brown So day George Walker was liberated on
Bail for the blow he made at Hale's son

WEDNESDAY 7

To day the London, Avery people appeared to be
quite tired and to say they were in attack
from o'clock this morning and from what I
could learn they had been a perfect fire
and nothing went the RailRoad facilities
were quite unequal to the task and under
such gathering extremely unpleasant scene com-
es near as I could hear 2000 troops on the
ground. The day has been fine to day and
I have been busy copying all day and got pretty
well through with all my carding to day and
will only have to morrow to copy the appendices
such as the Advertisements and other matters but
my task is a very heavy one I have to be
at work from early morning until late at
night no policy business but one from Atlanta
to day heard that Mr. Long, Garfield & Arms had been
killed in a RailRoad car down between Island Park
and Portman when they were running from the Indians
with many killed and 12000 with us

MONDAY, SEPTEMBER 12, 1864.

yesterday I did not go to church but read a good deal out to good words which I obtained on Saturday. No play was fine throughout and only ~~theatres~~ ^{Ram} were ~~the~~.
To day it was beautiful weather indeed. It's a little cold with the wind from the east. I was busy all day with my conventions and making out the list of questions I have made our 54 conventions settled a number of dismissals and I think about fifteen ~~return~~ ^{return} ~~came~~ ^{came} into a number in such a place as this we are now having every church meeting to night. I went to the cars to meet Margaret Etta Nible who was on her way to the fair held at Holyoke in Massachusetts. She is going to carry out a mission. So she says. I think the cause is quite foolish but she has the money and let her go. Perhaps it is just as easy away of spending it as any other way.

TUESDAY 13

To day our organiser the whole of the conventions and they came out to the city office in the afternoon. I went to the circus with the children and saw a lot of rope dancing and jumping at a great rate. They seemed to be good performers. We had Helen Noble and Alma Etta this afternoon. Helen Davis is very ill and there seems to be some doubt as to her getting over it. She was very ill this morning when I was up there. We agreed to go on at once with the church has sprung and I scratch out the contract by and between the parties and we will at once go on to collect our money the money mentioned here and still gain a little as a late tax.

WEDNESDAY 14

To day we paid Mr. John Gurney and I was here so busy today ~~I~~ ^{we} found across the to day and saw young Brown the lawyer in the higher warmer but he was going one rather a hard case of. After dinner he appears to me a lady here and one of Uncle Peter's biggest opponents and a little of ~~Johnson~~ Longfellow's Spanish studies today and I caught his way like him and I also bought some little pieces from the Butter girls who are going away next Sabbath that will be in with the last Sabbath with things for a while at the Sabbath school they say has been a fine though poor but there were thunder and rain during the night.

I sold butter for other news further than the election of Colonel Stanton in Peterborough

THURSDAY, SEPTEMBER 15, 1864.

Today I did not do much but I read a little from
the Longfellow Spanish Student I finished that and
I was exceedingly well pleased with the whole of it. The
Third of the Story seems to be that a Spanish nobleman
falls in love with a very girl and after a few
many losses and losses he gets her when just as he
gets her comes also a noblemen's daughter.
I also had the loving wife Standard's Coulthorpe by
Longfellow and it is very good and very much to the
~~for~~ ~~that~~ nature. Miles was a plucky Captain of great
bravery who would storm a fort or anything that stood
but Miles' wife ask a Malediction to her wife so he
deserted home after his auxiliaries or tribe & go and do
it in him and poor Miles does the best he can but
Phyllis tells him to "Speak for himself John" which makes
the Captains prospects all endways and John gets the money
given him \$40. Day things are getting costly

FRIDAY 16

To day we had not much to do as but one man
at the Police Court was convicted of drunkenness and
he scratch up his fine only paid or in the afternoon
I went to the court and heard a long case of the
versus (ignorant a convict case) about a fishing boat
the juries seemed resolve itself into a dispute about
a possession of property more than any they else
had done on the trial of Weeks & Coopers two men
in an assault a most curious piece of legal business
on the part of Oboman was practice as follows. Weeks & Coopers
were both charged with the assault upon him & Price
both parties were charged in the same indictment. Oboman succeeded
in separating the two and put the one (Price) looks as a
witness in & proven of the other that was before a verdict was
rendered in either case certainly a most extraordinary proceeding
and one which ought not to be allowed to pass without an
impartial examination

SATURDAY 17

To day I did not do much but a little at my
Jury list in fact I ought to have made it but
some days ago there is no news of any importance
we are endeavoring to get on with our church poor Helen
Davis is very sick and Lucy Maywell, I did not
see much in the papers today I understand they
put Robertson in jail for six months for striking
him self on the head with the stick his news
of any importance from the war there is every
probability of a dreadful taking place almost at
once they are very anxious & substitutes for the
four thousand of Detroit do a good deal but
one of the walls are very much behind
I made and extraordinary day this morning
today I gave ten dollars for a dinner for an
old man's auction

MONDAY, SEPTEMBER 19, 1864.

Yesterday I went over to church in the morning with Hiley there was quite achor in the forenoon all the forenoon until we came out of church I wrote a good deal in Lemay's Party. To day I was busy with my duty late \$800 then all finished in afternoon and signed we had the other business to day I went to the council meeting in the evening and they adopted my motions Amended Estimate on Waterworks and the by law was ordered to be published. Mr Clark of London came down and stand with us tonight and I took him over to Mr Balmer's at 8 o'clock in Detroit. In the evening the night was beautiful and clear looking looked bright in Detroit with the shops are open. No news of any mountain to night

TUESDAY 20

To day we had no police business. So I did not do much Mr Ballou Mr Clark and Mr Sturt met in my office arranging about the opening of a French school or Protestant mission in connection with Roman Catholics of these parts they did not make much progress in the matter Mr Clark went down to the Park in Rockford to speak though to see Joseph Cassini and Gourley on the matter there is no doubt the students French mission has been a failure

To day a very daring raid or attempt to do any damage to the American shipping and whale of the Hudson on Georges Island was committed by the refugee pro-Southern prisoners ^{of whom} among us they seized the steamer Parsons and sent the Island down and then brought the Parsons to the Sandwick dock a good deal of destruction was done it is now doubt about the affair a warrant was issued this evening against them but I believe they have all fled somewhere I trust that George will be brought up to day many got a letter from the brother in Shadrack Army to day Shadrack has achieved a great victory over early today taken 3000 prisoners

WEDNESDAY 21

To day the raid on the shipping or rather the seizure of the Parsons and Island ^{they} makes a good deal of noise and disturbance the people are very much exercised about it but from all the information we could get there may or rather the suspicion is that all left and none for parts unknown whether they will return in safety or not is the question which will remain at present determine

They commenced laying the foundation of the church to day I paid my subscription & figures that is I paid in \$30 of him. Read the letters speeches of Brown and the other delegates from the Canadian government at Halifax I think Brown has made the more effective speech of the whole of the delegates in fact he seems to go into the matter with all the earnestness with which he is capable and deals with the subject in a statesmanlike view I have been a good deal exercised with a pain in my shoulder to day I hope it will soon go out of me

THURSDAY, SEPTEMBER 22, 1864.

To day we had a miserable lot of bad women taken up for being inmates of a house of bad fame and we also sent the keeper of the house to jail for three months to pay losses the first day by which we sat as a Recorder Court with the consideration of a Recorder and I am beginning to think that it will be quite salutary for some of those bad girls that we cannot reach otherwise. The Solent General was up & down inquiring into the matter and every thing is been done that can be done to trap the master & if I have no doubt true the master is paying the serious attention of the law and will be prosecuted to the utmost rigour of the law. The day has been very warm and sultry & so a great many from the South Shely today agreed to pay his fine on Monday. Shendean has been very badly and since time been up the pottery

FRIDAY 23

To day, Hatchett our a letter to Shelly on the raid and Holden wrote Magistrate, their loss with news today it was very warm today and sultry & so as nights we had a heavy shower however & I went out and collected in the church in the afternoon and got an additional sixty dollars on the last I wrote to Sandwith to say about the case of appeal and I said that Shely would require to pay only fifteen dollars costs in the case the whole thing is a Judge from beginning to end the idea that only \$16 should be allowed on appeal costs etc that is something but I do not understand in my coming you had a tremendous shower and we had some thunder and also tremor for two on the bank in Detroit evidently some of the oak trees on the bank were all burst & broken

Gold \$2.13

SATURDAY 24

It is supposed that the dreadful fire of last night was caused by lightning, the loss are estimated at \$40,000. James Black appears to be the principal loser by the affair and I understand that he will bring down his loss to \$2000 which is not a great deal considering all things the warehouses belonged to General Cass who is left to bear the loss. The day has been very cold and bleak today the wind blowing from the west I took home a new suit of clothing today which just stands me \$44. No Mr. Keller dropped in this afternoon and so did Mr. Swan and we had a good chat & gotten the promised bounty in relation to the agency for marriage licenses and when he goes home on Monday which if I am told will be whenever able additional to my salary or at least enough to take me my pocket money so the said Shendean still beating early gold down to \$200.

MONDAY, SEPTEMBER 26, 1864.

Yesterday I went to Dr. Rogers in my new suit
the day was cold we had a good sermon on the
spirit from him in the afternoon when God I
went to see James Noble and spent the evening
they had been threatened the night before with horses
trying to break into the house and so I understand tell
Ashley & Galt singular command that they did not
burn the horses for assault, we had not much at
the court to see in the evening we had a formal
Meeting and we passed a By Law to remove obstructions
from the streets a very bad law if it takes
it all round. Sir Galt's posts boxes barrels
and every thing of that kind together the night
was beautiful and every appearance of a fine day
to morrow I went to purchase a ticket as the
Great Western Railway to Hamilton and back and
I was informed by the station master at London town
it was doubtful whether it would be allowed by law or not and
in that case we would have to pay extra

TUESDAY 27

Today got up about five o'clock in the morning and
got on the fire and went down and got dressed
and then dressed and got breakfast I went and purchased
my excursion ticket and found Mr. Ballmer at
the train going up he and I sat in the same seat all
the way the forenoon was beautiful but cloudy I passed
of at London and went and found my friend Mrs.
MacIntosh with him and went to his two MacIntosh
good his daughter and was glad to see her she was really
attractive has got to a number of children from three
I went to the Presbyterian and was not much impressed
with the mode of doing business indeed I thought
them our poor children when any one else took
seat at a MacIntoshes house with a minister by
the name of Southbyson of St. Thomas a blithering idiot
in my opinion I went back to the Presbyterian and
said they say and then went into James' shop
and got there home to Mr. Duggan and slept with him

WEDNESDAY 28

Got up at five o'clock this morning the room ate
over Mr. Duggan looked me a cup of tea and a
couple of eggs and I swallowed them and went
on my way to the train with some passengers that
all night nor the night before my ticket but all
was right but old Mr. Murray on the train and
had a shot with him he was going to the Fair
with his daughter I chatted an hour with him pleasantly
we got into Hamilton at ten o'clock and I made
no best in my way to the Fair they was a perfect
fair in the fair it was a very pleasant day every
thing appeared to greatest advantage Mr. James
Noble about one o'clock in the booth where he and
I got our dinner we left the Fair with pleasure as
we had not seen or fully went to the top of the mountain
and had a grand view of Burlington and Lake Ontario
and all the country round came down in a shopping
a little I bought Balmoral shirt for man for his dress
for wife & noble and gloves for her and also Sunday as home
from the fair went to the train about seven o'clock

MONDAY, OCTOBER 3, 1864.

Yesterday I was across the river and heard Dr. Proctor who gave us an able sermon on the power of God which he took to be the religion of Jesus Christ and a powerful appeal from the text was made. The day was fine throughout. To day it rained in the morning. Cole was apprehended to day and went through his preliminary examination. The evidence was not very strong against him but he was remanded until to morrow. He is a great villain and he ought to suffer whether he does or not. No news of any importance either from some skirmish on the south and north side of the James River. We had a quarrel to night in a grocery or rather a complimentary supper which was given to General Macdonald at the Arms House. We did not stay very long. I was home 30 minutes past ten. That day has been warm and sultry. Gold \$1.90
Received a letter from Mr. C. L. Cannon

TUESDAY 4

To day is rain and the to morrow was favorable in fact or account was a fine day all day we assumed Cole's case to day and committed him for trial at the assizes. I trust the fellow will get his deserts at least what he deserves. We had some drunken and disorderly cases to day. Sent one to jail and committed old Nick to the lock-ups for ten days. I went to Sandwith to day and copied off my warrant for the Shely lakes so as to issue the distress warrant. There was some difficulty about the Judge's order in the matter. Between I took copies and came home and made out the warrants. There was some kind of a bazaar to day at the Sandwith church as I over heard. Heard that the laundry affair of the Macdonald August was an affair of a hundred affidavits. John Horbury as usual to the drunk to day settled my papers with Slusher & Co today

WEDNESDAY 5

To day it rained furiously all day in the morning I went down the street and a man ran away with my umbrella from Bullitt's. I came home broken down with wrath but he fortunately brought the breaker in back again and all was right. The day was very warm and sultry like yesterday the rain we had some difficulties again to day John Slusher brought me down the church papers and I gave them to Mr. Lupton and Co no news of much importance. Learned that Bell had defeated Harmanus Smith by a large majority. Sun set to day we thought till he had nearly Shely today selling liquor without a license

THURSDAY, OCTOBER 13, 1864.

To day we had no Police case. The church people were busy fitting their matters arranged on the coming in the evening we had quite a meeting but there is less nor very well attended considering the large congregation they offer to have the whole meeting was a complete fizzle and all church think from beginning to end very fast in my opinion it was the flattest thing I ever listened to in my life.

The news from the cities in Pennsylvania is quite conflicting and it is doubtful yet who has turned the state sold as well as got up to \$309 today on what reason we don't know as there has been scarcely any selling for some time there is no debt the merchants largely sell now for no gold before

FRIDAY 14

To day was a fine day throughout but the frost is unmerciful at night and makes to go a little while throughout the day the banks folks had a meeting of the children today gave a number of attendees I do not know what they have reason made the Dray address a note to me concerning his own bank last night or say as he has done so much last night & address to him myself & read a letter from the Provincial Secretary informing me to night that Asa Warner had been run up by the Governor till that a warrant was in the Sheriff's hands for that purpose say it appears that Garfield has a way of having copies in his hands and which off the will to be done there will be the press required funds probably to day what can be the gold cashed \$220 to day what can be the reason is hard to say

SATURDAY 15

To day it was pretty loamy and unmerciful we had the trial to day of Charles Lappay for Secretary of the Union Army he was committed to trial to the next assizes but gave bail on his appearance we also sent some three or four witness to Gaol for mischievous tendencies and one fellow in a boat droving to James Foster he was brought in trial the sessions issued three passports to day and left for two to the United States It commenced during the afternoon about five o'clock and continued on until late at night gave a heavy rain and very disagreeable no news of much importance to night there is every appearance that the cotton famine will do the same Britain has now lost this year than she had in 1860 the most prosperous cotton year Patterson and his bride were back this evening from their wedding tour he married a daughter of the famous Kate West the man is after his daughter of

MONDAY, OCTOBER 17, 1864.

Yesterday was quite a boisterous day from the
wind after the rain I went over the town & church
to hear Mr. Scott we got a very fair sermon
and I have no doubt he pleases his folks
very well in the afternoon I read some of
Mr. Longfellow's poetry I am in want of something
better, however I met James Barker James
Noble & C. were all in last evening I say we
had no use in a wonder the Revd Philip Knapp
and Clark case did not come on for want
of witnesses Clark had summoned his torturers
on the issue of the new planks for witness
met to day sold skins fluctuating the time
to day at \$2.22 and skin closely at \$3.17
Spent some time in a light place good between
him and Chattanooga Phenomena of New York
new Restaurant in the Court House to night when
and I went there also

TUESDAY 18

So day blowing from the Northwest from 5 AM to
be married to day to widow Fifer, we
had on the great Clark and Philip Knapp case to day
in which a large number of witnesses came from near
nor one would swear that Philip Knapp was drunk
so the case was dismissed very much to the chagrin of
Price and Clark who appeared for Clark it has
taught Clark this lesson that he with all his money
must tell the people of Wm a Baker
of Richards and another man was brought up
and tried for drunkenness no other news of any
importance I made a contract with Oglet yesterday
for the supply of wood to the town and school at \$2.63 per
cord for wood of equal quantities maple ash and birch
had a meeting of the Review committee to day night voted
the Sandusky town protestant bark again sold off to day
at \$2.09 convention state attorney

WEDNESDAY 19

So day a beautiful day somewhat sunny in may
and very long but return of Ratemeyer to
Review general to day 657 is the number I saw
by the telegraph to night that every thing is as
going on seemingly and that that was no
doubt our what the election will be a
success in much will had new warrants
~~arrested~~ for us out in the arrest of the Raiders
of our borders I received a letter last night
from Mr. Bell anxious that we should
come to Alabaster this fall & behold the glories
of the leaf and below leaf colors even
now in all the autumnal splendor
no news of much importance I stand at
some to night in a wonder weather dry

THURSDAY, OCTOBER 20, 1864.

The day was bad we had quite a day full this morning two scamps of boys by the name of Perry & Stote \$45. On account money from a mess water in the tobacco factory but no evidence was found against them and a crazy man was brought in who appeared to be a tramp & the neighbourhood a warrant was issued by the court against Jack Burnham for abusive language on the street and Phil Ringer had given a writ him but he went away in State Phil and ran away and could not be apprehended I went across the river and heard Thaddeus Colfax speak on the issues in the Presidential campaign he made a capital speech and undoubtedly had turned his subject well up and he handled it to the best advantage It is reported that Burnham has accomplished a great victory of course sold \$3.08

FRIDAY 21

Today we had no case but discharged the boys as there was no evidence against them but the crazy man refusing again with a view to be sent to the Asylum at Leavenworth in the afternoon I went across the river and bought a lock from the town jailor first don I knew hardly told me that the former case is a complete muddle about loans and & the court decided that the extradition court was bad and there was some doubt as to the second writ put in by him whether it ought to hold good or not Judge Draper was also muddled about the affair that the fugitive is best to consult Prof Justice Draper on the case and give his decision on Monday just I find a part of last evenings wife in Chemung magazine to say they country very blustering and blowing from the west could not save us last night

SATURDAY 22

Today old and new legal during the night would well read the scatters account of the extradition case which was about the same as the one MacDowell told me make out all information and rumours as though Draper would do for assaulting Nash & will be compelled to be held over for the turbulence of the crowd no bonds I saw to day that the Albans sisters or daughters had been caught and a good deal of the money found on them and that no one had determined to use all its influence for the purpose of getting them back again and in their purpose has retained the services of the best lawyer in Montreal I trust the government will all be due back again forthwith and no misfortune made of the matter by any means of any importance further than that Phil Sheldon to state having heavy losses in as

MONDAY, OCTOBER 24, 1864.

Yesterday I went across the river and heard
of a boy who he marched a very good sermon
on men living lead with their lips while their hearts
are far from them. The sermon was a very
good one and ably delivered. Had some
notices in the Sunday Magazine which
was pretty good we had our little police
business today, I took all information and
turning against two boys they striking another
boy they were all sides ready today that
Aspin Warner had been sent back to East side
delivered over to the United States Authorities by
Judge Wagstaff the sheriff informed me that
he would deliver him over at the earliest
moment notified all parties in a mystery of
concern, to night but had no meeting nor
enough time to make a return no news of any
importance

TUESDAY 25

To day a heavy fog with white frost no news
of enough importance Aspin Warner was delivered
over this morning to the United States Authorities
we had a trial of my boys and they were both
convicted John Campbell a Farmer and
a member of our church was killed last night
near the bridge on the Grand Marais I help
him inquest to day verdict accidental death
age of deceased about 36 he leaves a wife
and family to mourn his loss five female children
are thus left fatherless all I believe through the
accursed Intoxicating drink I am too young
I read the Aspin Warner case and an able
defender it was prepared with great care
and covering the whole case the defense before
was the best in the case
Received a note from Mackellar to day about
that

WEDNESDAY 26

To day we had no business in the
Police court and I made out some warrants
and imposed on some cases I overhauled
the books of the Superior Court and saw that
Brown had paid Brown the \$36 or partly into
Court for him in the afternoon I gave that
at the Superior or Superior the \$2 sum to the
young man arrested for trying to be second
in debt and he was very much obliged
apparently I stayed at home this evening
as I was so late as to hear the horse lecture
I also read a bit of Lord Lytton's life in
the Chambers Edinburgh Journal etc. Mr. M.
Brown of Detroit had informed him
what my bill was namely \$12 for the
copy of the deposition & the summons
and the Aspin Warner case saw that
the Chancery Court did yesterday and that
the courts had adjourned accordingly
some time ago to make a little

THURSDAY, OCTOBER 27, 1864.

To day it was quite raw and miserable
in the morning I went to the funeral of General
who was killed at York about half after one
Colon gave Colliers his charge over the treasury
and made out a warrant against Colonel Clay
Permitting and one Park Thompson the confederate
Post Commissioner who were at Niagara Falls but
it is said advised the construction of the Rail.
I think the acceding before the first vote
hardly hold good the thing will not stand
as the name of this was very bad committee
on Tuesday all the news of any importance
to day I brought Mr. Bellairs of the hundred
fish and sent them to day by a dray to the
station and paid the freight of them the whole
bill is as follows \$20 for the drift & 35¢ for freight 25 cents
in Gray's \$20.61 ~~40~~ Cheaps fees. I should
say had a little time to night of Lord Lyons wife

FRIDAY 28

To day wind from the south west blowing
new and threatening rain Adelias Breast
Mr. Wile yet remained with a felon or Whitehead
on the night there was a drunken taster
in Cork up this morning in the afternoon
Mr. King of Boston in and along with Mr.
Harris to the Globe Mr. King went to Sandford
and the Fleet and returning and I accompanied
him running and I left King and we walked
up and down through Sandford to see what he
had on and then walked home he seems
into an intelligent man and walks up in an
elegant manner to poster I should think he has
no much energy I should think nor near what
George Brown says from his appearance I
should think James Noble has got the best advice
there is of that opinion and I think so too
upon Adelias breasts and fingers & thumb bout her badly

SATURDAY 29

Today we had no Police business but a man their was
locked up for writing only the evidence failing to happen
he was dismissed I went to the arm and
surgery Dr. Spence one of the James noble afterwards
I went home and brought Dr. Sugas who takes
him in charge Dr. Sugas pronounces it the
heart burn whether it is or not it is hard to say
but fine his appearance I should say I ~~will~~
~~the~~ too bought some fish this morning
and Helen and Mary served them and Lettie
then down but now Adelias breasts are very
full and the thumb and fingers are stiff
very painful I must so that she cannot
sleep as neither I really work she was told
James does very much annoyed temper
that he did not go more money for
the church folks and he and Lazarus
had a full our about the matter

MONDAY, OCTOBER 31, 1864.

Yesterday I went to church in the forenoon preached
two pretty well and acceptably I went
across in the afternoon and assisted in the Balm
at the communion in the Sixth church and
the Rev. Gave them a short address after
the table. To day sent a woman to info
Albys of Earl for keeping a bad house the
day is the yesterday or rather last night there
was great commotion in Detroit especially
a wild bedlam and churches dismissed
and there was a general commotion
but my account of twelve dollars & 75 cents
by Mr. to day for my warrant against
to day for \$350 for my services as Comptroller
no news of much importance to me
for me and myself both being ill the one
with his breast, the other with a corn
mouth

TUESDAY, NOVEMBER 1

In and the Police business to day I called
the School trustees together and told them the colored
school teachers salary what it was to be as follows
\$128. 97 days teaching with the proportionate
amount of valances attached. In the
afternoon I went to work and heard speak
the celebrated Secretary of the Treasury speak in
Detroit. His appearance is good and he speaks
slow and measured but very well and cordially
a man in earnest he is going around speaking
at different places at present he was followed by
Palgrave of New York who appears to catch him
no doubt of Lincoln's election. In the evening
we had a meeting of church folks and
we done very well. No attention took place
but resolved to go on and collect the amount
due and then supplement our lists
Adams breast still bad but for labor have now and
he is attending them

WEDNESDAY 2 Gold at \$2.25

To day the weather met but cold from
the east and a heavy frost in the morning. I wrote
a reply and headed it to today against somebody
signing themselves a strange who signed from with
the King in last record. I felt a little chagrined
to day about and saw James Steele he appears
the getting better fast and I think will soon
but will be compelled a little of weakness
the delegates of the lower provinces being at Ottawa
John last heard from the appear to be well
named whenever they go

old Butcher says married Miss Bellards to night
and long of by the Spain for a couple to see
last number was paid to day \$15 in sum
absolutely on the boat and bound over to pay the rest
he is a very bad case they was all the time
business but had paid between \$350 on my
lot to day all I know one is about \$75 to think
is done for

MONDAY, NOVEMBER 7, 1864.

Yesterday we had a good day. Mr Murray
published ~~Times~~ and we had a very silent
audience both times. In view of sufficient notice taken.
The old man is no longer so vigorous as he was
some years ago but he speaks with great ease &
and has evidently been a good speaker in his day.
He went across the river and preached for Mr. Brown
on Sunday afternoon. The day was disagreeable towards
afternoon it commenced raining heavily no news
of much importance to day the forces on
the American side of the River appear to be
marshalling themselves for the next day or
tomorrow the date was occupied to night with
visiting the business and other neighbors.
We had no police business to day. Mr Murray
went up to Mrs Davies' office and had his
tea there.

TUESDAY 8

To day it was very warm and I went
onto a drizzling rain late day we had two
cases today of Police Court business a man
for spitting on the tops of the cars and another
for trying to pass a counterfeit one hundred
dollar bill on the ticket agent of the Wabash
the latter upon who the chief witness I do not
think the little fellow will be convicted I think
he to be just an unsobered drunkard and
aid not know what he was about

WEDNESDAY 9

To day it has rained without intermission nearly
the whole of the day & really has been a
very disagreeable day. There is no doubt but
that Lincoln is elected by a large majority.
The Republicans are jubilant and the Copperheads
are down in their mouth from all appearance.
It seems that Lincoln was elected by a much larger
majority than any former president. He received
approximately about 190 votes in the electoral college
I went over the town and drew my pay
for copying the proceedings in the asper War
case, and also I purchased some paper for the town
half a Ream from Richard and Parker and
I was nearly lost to the city in doing so the
rain poured down in torrents and indeed
I very much doubt whether we have had a
worse day for
things rainy. An
extra coming
in a crowd

and woman one for the New
Westfield Hill

THURSDAY, NOVEMBER 10, 1864.

The wind is still unabated and blows furiously from the West driving the snow mountains high quite a wild disagreeable day. We have been busy today in getting things right fixed up the Union to meet we had a few cases at the Police Court today in the afternoon I got the chores and other matters all arranged with the foreman but when I went home I found Helen very ill with a deathly sickness as the stomach and I got the Doctor to her at once and he gave her some medicine Mrs. Garrison stayed with her while we went to the Union in the evening the session in many ways was a success. Althea Prince failed to come to the trial and the master made a poor pest of the affair still on the whole the variety given and all other matters and things committed therewith the meeting was a complete success the evening was very cold and blowy no Telegraphic news since our country

FRIDAY 11

Still cold and disagreeable and wind west blowing slightly through streets. In the Police Court today we had a case of shooting with intent to kill. A very remarkable case it was and a remarkably narrow escape they were both schoolmasters and quarreled about some money the one had taken from the other when Hughes returned to the house of Culp after dark and fired through the window at the shadow of Culp but fortunately missed him he has apprehension and brought up an demanded until to day Monday St. Dennis now mettly written that Governor Seymour is laid out on the shelf and that the Legislature has only called one session State of New Jersey or is a captured ^{to see} to see old dynamite laid out in he has been a guest from by the side of the North Mr. Murray left today for another term Helen is just little better today we decided on having a colored man on the school named

SATURDAY 12

A small beginning of snow on the ground received a letter from S. J. Hale & Russell Esq. today about arrests in the John Brown and Paul cases etc. I shall try and get them ready to send as directed. I got three posts ready as directed and gave them to Sam Wilson to send next we had the further excommunication of Hughes today for shooting with intent to kill he was committed to the assizes

concluded as an arraignment before the fact and was remanded until Monday next for examination I crossed the river this afternoon and bought some envelopes from John Helen is still very sick and her breasts in a painful state the left and the right are both swelling up and both looking against each other what will become of her it is hell today the weather still wet and freezing

MONDAY, NOVEMBER 14, 1864.

I stayed at home yesterday all day and went to Mayhew's bus to Sabbath school where was quite poorly and there was no able to be left alone in the day I had some of the dancing bone broke a tetanus late against drinking God against others the day was cold brought no news or much importance to day we had an examination in the case of Constance as an accessory to day for the shooting of Culp he is a stupid fellow and evidently of a low intellective revelling despotism utterly unworthy of confederate he is not much better off the sickness we put on leeches on his legs and we expected that they would do him some good which we think they did we met and settled to night the amount we made at the Union which was \$32 50 not a great deal but always something unmeasured money to night falling quite heavy

TUESDAY 15

The snow storm has been into town about from five o'clock dashes down on the ground this morning but the day has been very mild and the snow on the streets has been very disagreeable Helen is now better the right breast has been lame and is doing well but the left breast is very bad and painful and evidently gathering consternation as a accessory to the shooting was discharged today on account of the want of evidence to prove his complicity in the affair

The authoris had their party to sugar Obsequies a ticket and sent many issued all my passports today and sent \$10 to the government for mon

A man came into my office today calling himself Fish from Newark he wanted to stay in my office he appeared to be in trouble 1812 abd from Little Rock for him and he gave me his pocket book containing \$66 75 greenback

WEDNESDAY 16

To day it is still soft and roads slopy snow going away fast. The man I got to bed for and where pocket book I have due in back this morning at five o'clock Gold road last night \$236 75 No news of importance

No Police business to day

No Laurie of the Record had an interesting child of four years of age drowned today in a water barrel about. One of the poor folks I sympathize with them deeply To day I bought a Parlor cook stove at \$18 50 canary bird making the stove duty and all equal to about 1/4 Canada punds

I got the photographs of grand ma and grand pa to day No news of much importance to day Holmgard has accepted the post Master Generalhip we expected that Mr. Miller or Mr. Remond would get it but they did not Helen is much better to day the left breast very painful

THURSDAY, NOVEMBER 17, 1864.

To day the weather was quite soft and sloppy making the roads very bad and very muddy. Biting frost does very little better to day than for a jump to draw their breath and its mouth is now near so close on them as the babies we had a very good night rest all night no public business to day I wrote answers to the unsuccessful applicants for the colored school and mailed them Received a letter from a brother of Campbell that was killed as my son to give him a copy of the evidence taken at the Inquest as I suspected foul play I wrote an answer and mailed it this evening Gold \$347 to day No war news of any importance to day some probability of a great march of Sherman on to the Atlantic coast and also rumours of peace Sarah Cheyne was our own plane to day she is going home on Saturday

FRIDAY 18

To day has been a few day throughout here spring beautifully all day today has been very ill to day all day deathly sick apparently from effects of the grippe that she had this morning I was quite startled in the afternoon at her appearance indeed I thought that she was dying fast and was afraid until I got her pulse but she came in and that allayed my greatest alarm a good deal All other matters was just out of my head by the severe sickness of John I charged \$50 am Gold Silver and for 45 cents for it Gold came down today to \$200. Quite a down fall in the market The laundress child was buried to day War and Political news unimportant

SATURDAY 19

Another a beautiful day the sun shining brightly but it is a little bitter to day and I think with her illness during the day although she is awfully pained all the time with her breast she sent me today a colored man today for 60 days on steady a gun & pouch out of the Burns house she also found a fellow named James Bassas for fighting on the street Brown paid his fine of \$50 and the tools no news of any importance said rather surprised at not finding my passport from the Provost marshal secretary's office

No war news or not nor any Political news temp seems to be at a stand still altogether I went across the river to day and bought me some slippers and a few gospel

MONDAY, NOVEMBER 21, 1864.

Yesterday I did not go to any church but stayed at home and spent my time in reading the whole time bent towards night when we took leave to dress the ~~sofa~~ and she expressed a wish to see the doctor whom I sent for him and a lame and turned the breast and then had considerable relief therefrom

Today it was a fine day but very cold but the wind from the east we had my physician express to day of any wrong in his stomach put up my stethoscope and I sent Doctor Davis to visit me we had a round meeting to night and passed a resolution to pull down steps and verandahs and also one to borrow two thousand dollars to carry out some sedatives that are unfurnished

Adam is slightly better today

TUESDAY 22

To day I was busy getting matters ready for the election to-morrow on the By Law on water works there is considerable talk in all quarters about the costs I had the By Law and estimate distributed to day in all parts of the town we just put out from house that it would be put in by the day has been very cold and frosty wind from the west we had in the evening a heavy fall of snow and the weather was quite dark when was a little better to day but not well by any means she is threatened with a boil under her arm in the evening we had a meeting of the Bible Society and transacted a little business committee work and preparing the meeting of Wednesday next

WEDNESDAY 23

To day the election was held on the water works By Law and a good deal of interest discussion was kept on the By Law bill pros and cons Henry Brown was early at work and done his best against it and in fruit what appeared to be the influence was the south the colored and railroad laboring interest who could have supplied such at the water works it is hard to say how the water works appears to be a little higher than was a very light vote polled Blackader and Gifford both opposed the measure with all their influence and Dougall appears the very moderate and non progressive in the matter

The day has been very cold and hot with in fact it looks like Christmas night when slowly moving has been slowly sent down Washington by mail to day.

THURSDAY, NOVEMBER 24, 1864.

To day the weather was a little more moderate and things look more like full steam winter to day there is very little news of any importance further than that Sherman is marching down through the center of Georgia and taking in a swath 40 miles wide without any opposition. Whatever to day has been thinks going day in ~~Greenland~~ the States and consequently we could travel much over the way to day. There was an interesting time in the trial of Burleigh at Toronto but the Recorder held on to him and made him go to jail. The water works committee Boston went on to day and closed eleven a head in water works. There is a good deal of excitement about the water we had an admirable lecture from the Gov. of the English or British Constitution.

FRIDAY 25

To day the weather was mild and beautiful and a soft breeze set in from the south west towards night we had a drizzling rain which is not much better but keeps along slowly I did not do much business to day further than an endeavor to little up with myself a lot of back stamping accounts to night I read the account of the great legal banquet given to Kenny the great French advocate the attorney general of England in the chair and the lords of the council March and Wm. Please from them and Gladston logs there and made a most admirable speech full of thought and good sentiment heard through that the messengers were going to have a tea meeting next Thursday

SATURDAY 26

To day it has been damp and dusky all day and very disagreeable ~~but one~~ all year I was paid a dozen in my drunk I settled up last accounts on the evening of the day after yesterday it was very hot and disagreeable from what we can learn Sherman is always all before him in Georgia and taking every village and town in his course. The living was very disagreeable but very agreeable a good day tomorrow by news of any importance shall be advertising slowly sets old journal listed to night \$24. The roads very bad and slopy they in a regular sheet of water.

Yesterday I went to church across the way and heard
a very fine sermon from Hogarth on helping our neighbour
in all the text said we are the one another burdens
and so fulfil the law. I heard the Bishop of London
address to the people of Edinburgh yesterday on the
anniversary of Revolution and said never had a
very able address it was and the churchman
have cost him a good deal of thought and
labour

To day the weather is bad and very windy from the south west and blowing very fresh but water all day I issued three Passports to day my stock is rapidly going down I hope they die and will continue and I will be a few dollars better than I thought I would be but it is hard to say could not get a gallon of whale oil
~~could~~ getting breast slightly better to day we collected \$17 for the public school to day

TUESDAY 29

Telegraphed for more trunks today, as they had
got the heavy ones last Saturday. We sent a
poor woman to said ~~you~~ today on account
want of dentures or the fence. It is really too
bad where such ~~an~~ a law that ought to be an
excommunication in every case. The day has
been fine and pleasant although some hazy
but it was very pleasant and warm
today.

We had a meeting of the Debating Club to
negotiate and arranged one and had a
long discussion on how debates should be
conducted. When it was afterwards ~~settled~~ agreed
to propose the affair until next Monday
we then adjourned to meet on Wednesday next
at the same hour and place
Here is letter today

WEDNESDAY 30

It has been a beautiful day throughout
we had a trial to day of John Agulhaer
for libeling he was committed to jail for
the next 6 months there is no news of
any punishment we had also an assault
trial from New Townships Gantons was
found \$5 and New Cosby no news from
Shurman further than that he is likely to be
murdered or to the first withdrawal
or undoubtless sold a letter excited \$2 25
received two letters one from New Cheshire and
one from Mr Bill Sympathetic with
which is in his pocket there is no news
from Toronto or any part of
so far we had a good speech from the
agents of the Bible Society and every thing passed
off very well
locked much lighter to day than he has
at home the baby now very well

Aug

THURSDAY, DECEMBER 1, 1864.

Today the day was very warm and agreeable² the Methodists people were very busy setting their tables etc and ate meat and ready it to be so agreeable that nearly every one came for our they had a very large party and I suppose from the appearances to judge there could not have been less than two hundred and seventy people present or altogether and Mr. Buckley failed to come up to the mark which was a great failure as many especially expected him. I saw him to night alone that Burleigh the pirate had been discharged and that he was reinstated on a charge of robbery from Mr. Phil Parsons and that his excommunication would take place to day there seems to be considerable excitement about the action but a letter to Miss Craig today to get her opinion³ it appears she is coming FRIDAY 2

To day it was wet and damp and slopy and rainy all night and in just a very agreeable day altogether I felt very well this morning and did not eat any breakfast at all when we did I took very dinner but I went with the children to the Town Hall and found fifty cents in the advertising fund I had a cup of tea from the Methodist people and I stuck to the town hall until I got it ready for a lot of minstrels that were to occupy it tonight I read to day a very valuable preserved article from Goldsworthy in the Atlantic Monthly and also an article from Standard Park on the last day in New York showing a fearful state of society in that corrupted land

8

SATURDAY 3

To day we had scarcely any business to transact in the Police Court except a miserable bunch of a woman who was sent 21 days and two men for trying to steal a mill on the Great Western Railway 30 days each in the afternoon I crossed the river and I purchased Burke on Livingston a silk and took one I have longed for ever Webster's boots I bought several some oil salve for glands breasts and also a few bars of soap the wind blew a gale as we were both dry and warm evidently growing colder and will be frost

No news of any importance to day too are still ratified by other states better and we think the war will be well and a man by the name of Mr. Arden

MONDAY, DECEMBER 5, 1864.

Yesterday I went across the river and heard
go with me such an excellent dinner in the
evening. The day was very cold and a little
frosty. After dinner down to the dinner today
in the first news in town the 10th March.
We also took tea down stars. Today it
continued snowing in the morning and
we had quite a shower of snow last night
afternoon it got slopy and miserable and the
snow disappeared again. The fall season appears
to be about as bad as we have seen or for
many years the roads are in a fearful state
of mud they had no cases in the State
Court today they were all disposed of at an
early date with out any prosecution. The news
from Sherman is that he is at the sea coast or ready
there some apprehension of a raid on Detroit whether
any thing will come out or not it is hard to say.

TUESDAY 6

To day state slopy and miserable after slightly
settled to day Michael Murphy who was raised by
the Kentucky dead to day he has been a great
sufferer he had his shoulder and arm broken by falling
from the top of a car he had a trial to day
of a man for stealing a ride on the cars from Chattanooga
or rather assault a constable in discharge of
his duty he was fined \$25 and costs under
the orders all there is no news of any
reputation to day further than I can say
the Globe that a fearful outrage had been
committed on the Orange Lodge tents by the
Greeks.

The Leavenworth day informed me by letter that
the Shiloh conventions were held good.

After 8 o'clock a little later
the Presidents message was sent to the Senate to day.

WEDNESDAY 7

To day it was slopy and miserable in the
morning but turned to snow in the afternoon
with a perfect hurricane from the west and
blowing intensely cold was informed by Mr. Rogers
that the people of Detroit possess information
that they are to have a raid from the Canada
shore what may be the truth of the matter is
hard to say.

Poor noble was taken sick this afternoon with
bronchitis and a sore throat he was very like
the scald fever I went and got Dr. Miller
in the evening and I was greatly conformed
in my suspicions by him he thought it was
it and married accordingly.

I did not go to the Debating meeting to talk
for the men of Wobblies business.

This afternoon in my office a curious episode
occurred wherein a young colored man was here the
whole by two scoundrels I told them to look them
both up but they ran away as fast as they could.

THURSDAY, DECEMBER 8, 1864.

This morning it was intensely cold and the wind blowing a gale from the west our suspensions were confirmed about noble he has got the bridle fire and the cash is coming out quite well. On him how sad our reflections are about the crash given I trust a good man will stand by him and I hope noble from his own wife loyal through all right I went under the snow this afternoon and bought a cap and also a pair of shoes for minna. Noble yesterday very badly ate night and is quite friend today I stayed at home all day after the few express of the police loan come this morning which amounted to nothing. There was only one ferry boat running to day their logs Thomas Chelons boy. The exhumation of Burleigh was continued to day at Toronto.

FRIDAY 9

To day the weather has slightly abated but the frost has been intense I think it has gone some degrees below zero but to day it looks a little like snow is falling to the east and a bank of snow apparently moving down on I took my coat down after the police work was finished and worked there all day making out my returns for the sessions and a whole deal of work I have in fact it is getting beyond all endurance our police business an average of over a mile each day.

Noble passed a very poor night the cash is coming out well the hospital does not seem before him much but my doubt is does a little from what yet appears I think things are going on favorably with him as yet showing a little slight fever to night but friends go to him and an attack of pain in the side and country to the

SATURDAY 10

A beautiful morning clear and frosty and has been so all day the sun shining beautiful and clear a slight shimmering of snow on the ground noble nor any better the flesh quite fleshy and still cold complaining a little on his throat the fever most intense and very restless all night we do our as much sleep with him I have to sit batches of sleep during the night and day some appearance of rheumatism I have my work at home all day to day and have therefore devoted my work to noble who is not very able to attend to noble she had been a course the music had been super excellent but some found fault with Mr. Bushells poem and others with Leavens creation were too long for such an occasion Sherman said we hearing Leavens name and a little later likely take it from all accounts his stolen to night.

MONDAY, DECEMBER 12, 1864.

yesterday was an intense day of snow and
first and all I did not go out any where
all day Mr Murray kept him buried in the
house for over two hours foolish old man starke
toys

Noble was not much better although the Doctor said
he was his rath began to decline and from slightly
abate he would not stop on account of his nose being
closed up

Today Noble not much better very bad and looking
but we are in hope the fever has spent itself
He is very restless and needs a great deal of
attention. Went to the office today and it was
very cold and chilly I had my fell today very
cold and my bark was like toast which was
very disagreeable. Weather quite moderate today. What
news by the way about of the sickness of General Quincy
on the battle no news of any importance today

TUESDAY 13

This morning not so intensely cold as yesterday
looks a little like snow which came in the
afternoon very thick and continued until ten
o'clock. The snow on the ground must be nearly a foot
deep and hard packed

Noble however is improving a little but
very weak his fever always & then intermission
and we are trying to keep him up by tonics
such as Quinine &

Weather much better today I got the calico for
him and I think that done in good
I was very sick myself today and was obliged
to go home for a little and I vomited some
and did not eat anything until I was well.
In the evening I called home with Mrs Davis
the snow was very deep and very bad weather
I stood up a little this evening in the debate but my
ankles are so weak that I can hardly get anything on
the subject.

WEDNESDAY 14

Today freezing slightly and sleeping pretty good
the day has been fine all throughout
We left all returns to the sessions today and
Sent my coroners account amounting to \$8.80
to Mr. Martindale to be paid in
Mr. Babys hands in the magistrate's office afternoon
Received a letter from Mr. Hill last evening a
draft for \$78 on the Bank of A. C. which I for
signed and endorsed and mailed to his address
I also mailed to C. Atkinson his Twenty eight
dollars of salary
The improving greatly and we hope will soon
be out of danger

The debate money of tonight and such as the date
as I have not heard of for some time I do the
best I could but did not do so well as I was
expected for time

THURSDAY, DECEMBER 15, 1864.

On Tuesday Judge Gould of Montreal decided to discharge the leaders and the chief of the Police gave them back their money a most extraordinary decision taking in all round a decision that will go far to spur the friendly relations between the United States and England and especially Canada. The decision was based on the idea that the Royal Statute had not been given to the City and also that the Imperial Act had not been suspended here. A meeting of the community is to be held this evening at the usual hour for the purpose of passing some resolutions about the affair. Wolfe is progressing finely and will soon be well. Some probability that Sherman is close to Sarnia and will likely take in very little police business to day. Merely the conversion of Dark Moffat

FRIDAY 16

Last night we passed strong resolutions about Judge Gould's decision and they were got ready and transmitted to go to Detroit. See the papers below are actually showing that what did occur or rather what Gould did base his opinion on or did not exist in fact and that the Royal Statute was given to the City and also that the Royal Statute was suspended in its operation. Until Bill goes to day for 40 days from assembling a constable in the discharge of his duty. Wolfe is getting much better and will soon be back I think having to day from all appearance been an going to loose our slugs

SATURDAY 17

To day like Monday I had great difficulty with the lake through the swamps route up on the Bruce. Got up a ladder and fished the river bed all over the house throwing in the water on the return trip home. And doing only the total distance that I might let him down stars and no repetition. To day was a sort of disagreeable day I went across the river in the afternoon and bought a handle for the town hall door at \$ 50 cents there was not much news this evening but a high probability that Sherman had reached the coast quite a number of state roads on the other side and on this side about the St Albans Raiders. The Canadian authorities are surprised pretty fully and a good deal of gas left off also an excellent speech of Duncan Stewart upon the defatration of the men an inland revenue bushwa was had apposite to money

MONDAY, DECEMBER 19, 1864.

Yesterday I was very unwell till day I was threatened with Ague or rather I had a sort of grippe from all day I was hardly able to sit up my health on account of the fever towards supper time got a little better and sat up a short time when Mr. Liver and James Bartlet were in Allen was a good deal exercised about the affair and felt somewhat dispirited

To day clear and frosty the day beautiful some probability of the suspending the election of a new Police business today with the exception of a man from the township of Chatham who the W. F. Constable said had been trying to steal a silly but the man indignantly denied he had the nomination and the election of Mayor has since been made a great speech today and showed he was flattened by the Re-bellion Council met again and appointed returning officers Allen & Noble acting better

TUESDAY 20

Still a cool clear frosty day and good weather but very bad sleeping the day was cold and the sun shone beautifully No Police business today saw that Edward had issued an order about passport today going into the United States from the provinces perhaps it may bring a few more dollars to my pocket and help the poor old boy saw this evening that troops were coming here from Montreal and will be stationed here during winter until May they are obstructing the roads commanded by Colonel D'Urville they are obliged to watch our borders in fear of raids

Hugh Corrigan signed \$500 today on a term sheet with Mr. Muller close Madam & Thomas Our Public Meeting to day about the Raiders was a good deal of a fizzle I said a few words at it and demanded Dr. H's resolution

I've had a short quiet night Malvern is to speak on Sunday in Blantyre London had his talk on WEDNESDAY 21

To day it commenced snowing from the north east and has blown hard and well the whole day a regular snow storm of the severest kind to night it is quite cool wind west blowing and drifting snow had quite a fit too with the北风雪大 the law student he seems to be an impudent puppy I threatened to kick him out of my office his object evidently was to draw out of me some expression of opinion adverse to the French Canadians it all arose about Judge Bourne's decision

I issued warrants to returning officers to day I sent \$35 enclosed in a letter to Mrs. Ross to day for more passports I have issued ten passports since Sunday

No news of any importance to day military matters remain the same Sherman has invested Richmond

Allen getting slightly better noble pretty well no appearance on Aug 8th of the children or

THURSDAY DECEMBER 22, 1864.

Today it was very cold and frosty and the
Snow was full of drifts and men trading in Wood
Pork and hams were our town presented a very
busy appearance. I have now the pleasure to add
and he reformed all about and matters colored
Wynne turned to day to prepare barrels for traps
the main trouble suggested the calling of ~~for~~ the
School board together and giving them the temporary
use of the schools which we did in the afternoon
we called the board ~~to~~ without a dissenting voice
gave up the school tent the French stuck them
a little and they returned at the idea of giving them
exp. So they night Dr. Ogden gave us his lecture
and a very good one it was on the treatment
periods and undoubted and internal history
he behaved it very well and it was really well
thought out so that taking in all in the the
whole thing was very very good

FRIDAY 23

To day it was quite cold and rainy the
wind from the south west the carpenters took
out the seats out of the school and built
some bathtubs for the soldiers I put them on
the way of getting the making of the beds also
I was engaged all day in analysing the
water in water work whisky after a careful
analysis I found slightly impregnated in
water the opponents of the By Law
the council came together at night and by
a good deal of coaxing and talking the
By Law was passed through the council last
at resolution that the dividends be no greater
or less than the twenty five cents on the dollar
no jaws of any importance further than that
a bush rodent is going on in Ontario between
Farnell and Lubbock.

SATURDAY 24

To day it was quite mild mostly all day
I was busy part of the day in holding an
inquest on the body of James Brown deceased
beginner of the School Union he was killed
by the fugitive Robert Anderson death
the man leaves a widow and one child
I have done a little business at the town
wall and went across the river in
the afternoon and bought a few things
in the children to supply that my usual passage
at Nicholas. The Globe in the evening had
an excellent article on Sally boards decision
in which it was shown by a physician that
that the Judge had got a foot hole to stand on
so you now being Christmas a few things were
sent home for other dear and ma is busy
putting them ready she feels better to day
albeit her breast is not entirely well

MONDAY, DECEMBER 26, 1864.

Yesterday we had Mr. Mulligan preaching he preaches very well and in the forenoon he produced quite a favorable impression Arrowsmith and Mr. Murchison and others are very anxious for a talk to him. It was quite soft yesterday and sloppy underneath so day is as much better very sloppy and threatens to make us loose our sleepings I went across the river in the morning and buying Christmas said \$2.00 anything heard today by newspaper that Sumter had taken Ladysmith with thirty thousand bales of cotton valued at \$18,000,000. I bought a diary today both Porte and other kind made out a warrant against Bill Brown for assault but found that it was lifted and at Mrs. Evans along with the negroes John & James the same up today was with the negroes off

TUESDAY 27

To day state doing and having nothing going about very fast quite a number of cases at Pleas Court today two women for being Arrogant two men for being disorderly one man for assaulting old before Dunn in State last night another man for having soldiers cloths in his possession he was fined little the value of the shirt and muffler and a fine of five dollars and the costs besides the man that assaulted George Green was sent to jail for July day Mason fixing up gall today for all cloths day there is to be a ball this evening in the Town Hall which will likely be a drunken affair issued two passports today some probability that they pass the frontier with us or along the frontier

WEDNESDAY 28

So day has been a quiet day we are all on the run again for the arrival of the volunteers the flags of the Town were given to the breeze and the Town presented a very gay appearance the day was cold and raw there is the frost this not very severe but sufficiently cold to make people pay attention to the open coats the temps. which about two o'clock in the afternoon and were excepted to the different places during the refreshments kept them employed for them by the Town now being having dinner at the Town Hall two at the Arms ofuse and one at Buttons - The companies from Lambton Montreal, Brockville and Belleville the two companies from Brockville and Brockville went to Amherstburg in teams about twenty provided by Wylson the troops were all well pleased with their treatment in town

THURSDAY, DECEMBER 29, 1864.

To day I was busy settling my accounts
in Settlement on Saturday as I am anxious
to have no whole of my affairs straight at the end
of the year. The day has been mostly fair throughout
no news of any importance to day. I have felt
very indignant all day at Macdonald's appointment
as Provost Marshal at this point & was exceedingly
unjust on the part of the Govt to despatch me of
the present business. I wrote a letter to Alexander
McRae today but then I thought I would wait
and see if I wrote however to Mr. Dougall a very
short letter against Macdonald's appointment and
also one to McRae and one to Sandy Cameron
he went to speak James Robie to tea this evening
heard that John McRae a William McRae signs
of his was dead sometime about Chatham last night
a letter against Rev. Dr. Bogart & Beatty in the Press

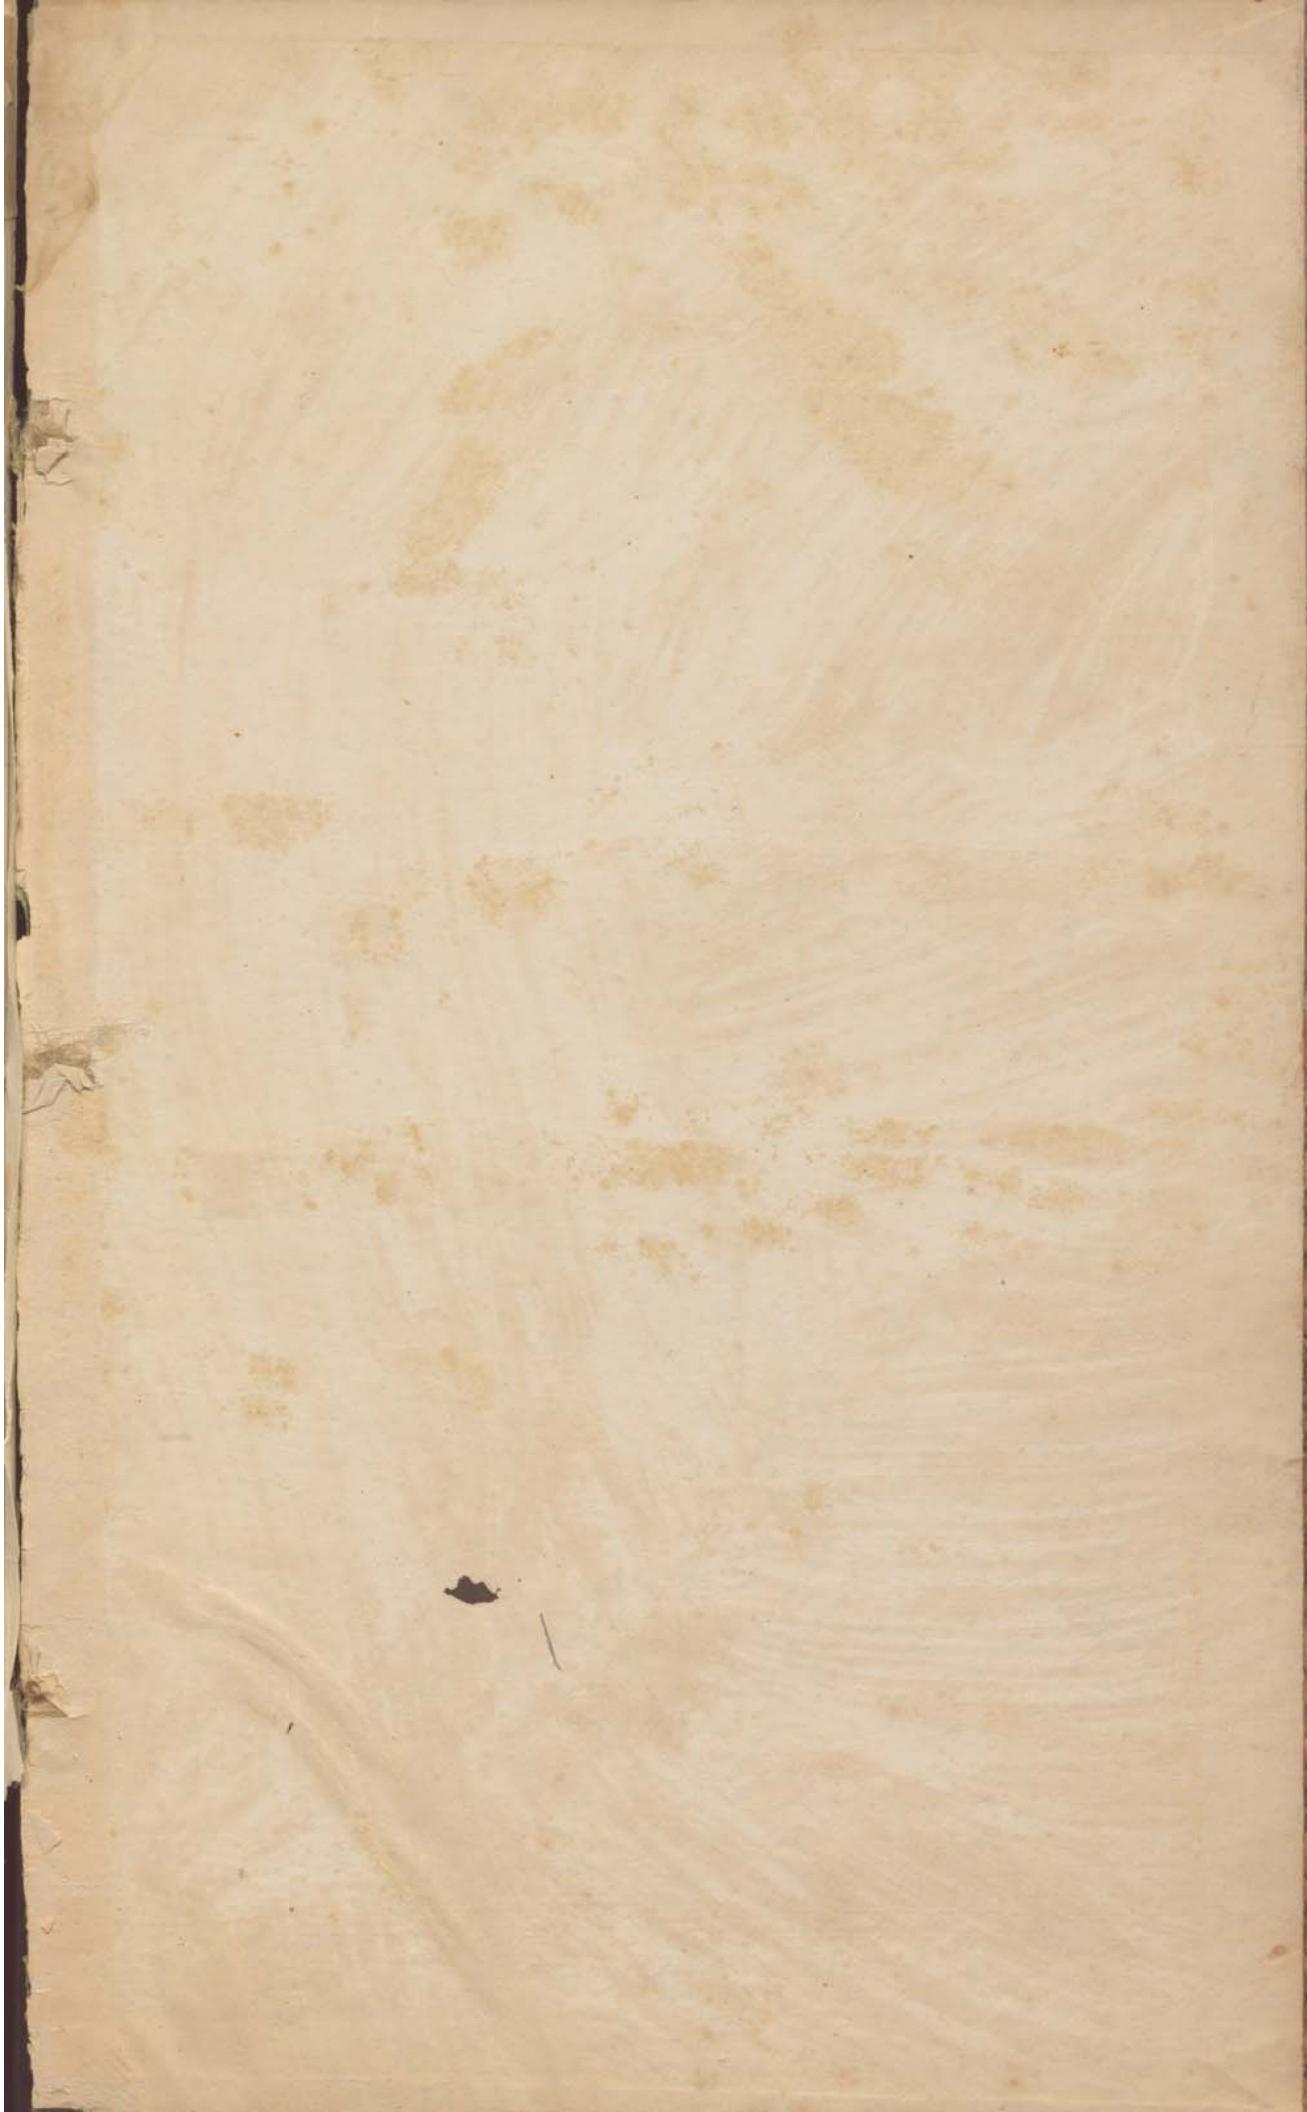

FRIDAY 30

To day I was very busy posting my account
and getting all ready for to-morrow so that I
may come out square with the Town. I found
that they Police Court fines and fees amounting
in the year to \$469.73 and that the Town
had paid realized the sum of \$125. Since they
15th July making in all \$394.73 that I had
collected for the town I have warrants independent
of the School warrants amounting to \$592.70
I found Malcolm and Mr. Scott and Mr. Haughton
all in the house when I came in this afternoon
Mrs. Richards Dunn and Dunn were at tea this
evening preparatory to Mrs. Amy Richards leaving
for Chatham. Received to day fifty passports but I understand
Macdonald turned Standard which is exceedingly
unfair

SATURDAY 31

To day we had our Police bill full thru bad
weather, we sent to said 3 months cash for
misbehaving themselves and frequently a house or
the jail. One suggested for Steatley
another sentence to their mother for stealing a
paper book containing some money.
The passport system came into operation today
for a short time but it was soon relaxed
and allowed to go until Monday
Macdonald issued about 30 to day I think
I only issued a few. Macdonald is in the best
place to issue passports.
To night I am only two years off age quite
giving up in Regis. Many are the Presidents
before course I have done.
The day has been fine but cold and disagreeable
Spent with the town to day

MEMORANDA.

Murdson Jan 12. 1864

Alex. Battell Esq - Dear Sir

Mr Demouchelle has delivered this day on the R.C. School
premises a load of fine wood - £1.87 $\frac{1}{2}$

Yours truly W. H. Adams
